

# THE PINKHAM CURES

ATTRACTING GREAT ATTENTION AMONG THINKING WOMEN.

Mrs. Frances Stafford, of 243 E. 14th St., N.Y. City, adds her testimony to the hundreds of thousands on Mrs. Pinkham's files.

When Lydia E. Pinkham's Remedies were first introduced skeptics all over the country frowned upon their curative claims, but as year after year has rolled by and the little group of women who had been cured by the new discovery has since grown into a vast army of hundreds of thousands, doubts and skepticisms have been swept away as by a mighty flood, until to-day the great good that Lydia E. Pinkham's Vegetable Compound and her other medicines are doing among the women of America is attracting the attention of many of our leading scientists, physicians and thinking people.

Merit alone could win such fame; wise, therefore, is the woman who for a cure relies upon Lydia E. Pinkham's Vegetable Compound.

# LOVE DESCRIBED.

As It is in That Delightful Season When the Humble Bees Begin to Hum.

Judge Ryder in the Granite Enterprise thus describes his own love affair, says the Kansas City Journal. "As early as last spring, when the grasshoppers first began to hop and the humble bees first started on the hum, when the bob white was whistling to his mate and the spring poet was springing his poetry, Judge Ryder, who had been in this breathing world for 34 long summers, showed symptoms of a he-dove nature. He had met the enemy of his bachelorhood and was hit. A courtship was begun, a result of which is now a part of Granite and Greer county history. Such results have been the culmination of such beginnings ever since. The matrimonial bond is the most sacred of all human contracts. It is dictated by nature, advocated by the laws of God, and is the basis of a man's right to citizenship, and completes the existence of a woman, which is love. A man's existence without the clinging love of a good wife is as bare and desolate as a lathing gallery which does not support a mortar glory in the spring."

# Sickness Made Them Generous.

When the government ship Dolphin was coming home from Cuba, a doctor on the committee, and Speaker-elect Cannon, some rough weather was encountered. Just previous to the coming of the storm the steamer named had been discussing the proposed building of six battleships. Messrs. Hale and Cannon smiled upon the steamer. When his suffering had become too intense to be borne any longer in silence "Lucy Joe" called out to Secretary Moody: "Say, Moody, if you will get us a shore quantity, I'll give you six battleships next winter." "I will make a better bill than that," exclaimed Secretary Hale. "I'll favor 20 battleships. The secretary will only keep the ship still for half an hour."—Kansas City Journal.

# Laundering the Baby's Clothes.

Many mothers are ignorant of the serious injury that may result from washing the clothing of an infant with strong washing powders and impure soap. For this reason it should be laundered at home under the mother's directions and only Ivory Soap used. To throw the little garments into the ordinary wash shows great carelessness. ELEANOR R. PARKER.

"They certainly were," assented the other, gulping down a pill containing two fried eggs and a cup of coffee. "Why Ruggins' Customs of the Ancients says that during the period of 1800-25 a busy merchant frequently spent ten minutes in eating one meal."—Baltimore News.

"Glady," said Chumley to his maidservant sister, "I've done so much for you you should write me a testimonial." "A testimonial!" "Yes, you might say: 'Dear brother, once I was a timid, delicate girl, but since using your collars, shirts and ties I have become a new woman.'"—Philadelphia Press.

# TIRED BACKS

Come to all who overtax the Kidney. Don't neglect the aching back. Many dangerous Kidney troubles follow in its wake.

Mrs. C. B. Pare of Columbia Ave., Glasgow, Kentucky, wife of C. B. Pare, a prominent brick manufacturer of that city, says: "When Doan's Kidney Pills were first brought to my attention I was suffering from a complication of kidney troubles. Besides the bad back which usually results from kidney complaints, I had a great deal of trouble with the secretions, which were exceedingly variable, sometimes excessive and at other times scanty. The color was high, and passages were accompanied with a scalding sensation. Doan's Kidney Pills soon regulated the kidney secretion, making their color normal and banished the inflammation which caused the scalding sensation. I can rest well, my back is strong and sound and I feel much better in every way."

A FREE TRIAL of this great kidney medicine which cured Mrs. Pare will be mailed to any part of the United States on application. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists, price 50 cents per box.

Could Afford a Better One.  
"Of course you have a genealogical tree?" suggested the caller.  
"Oh, yes," suggested the hostess, carelessly. "But we don't think much of it."  
"You don't care much for such things, perhaps?"  
"Oh, it isn't that, but this doesn't seem to be much good."  
"Not complete enough, possibly?"  
"It goes pretty near back to Adam, if that's what you mean," returned the hostess, "but there ain't enough kings and queens in it to suit me. Why, only this morning I told John to take it back and tell the man that got it up that we can afford a whole lot better one than that."—Brooklyn Eagle.

# PRESIDENT AND PEOPLE.

Settlement of the American Citizen for the Imprisoned Chief Executive of the Nation.

The president is an object of curiosity, but he is also the most distinguished man in the country. Crowds, it is true, flock to railway stations to see other men, and there is a catholic and democratic indiscriminate in the popular eagerness to behold with the eye of sense those who are in the newspapers. The attraction may be a prize fighter, or a soldier, or a prince, or a jester, or an anarchist; but the president is something different. He is an idea. He is the eidolon of the government. The people go to see him not only from curiosity, not only "to be able to say that I've seen him," as the phrase goes; there is also an element of patriotism in their feeling for him; they want to pay him respect, writes Henry Loomis Nelson, in "The Hampered Executive," in Century.

# A Tight Squeeze.

Brazil, Ark., May 11th.—To be snatched from the very brink of the grave is a somewhat thrilling experience and one which Mrs. M. O. Garrett of this place has just passed through.

Mrs. Garrett suffered with a Cerebrospinal affection, and had been treated by the best physicians, but without the slightest improvement.

For the last twelve months two doctors were in constant attendance, and she only grew worse and worse, till she could not walk, and did not have any power to move at all.

She was so low that for the greater part of the time she was perfectly unconscious of what was going on about her, and her heart-broken husband and friends were hourly expecting her death.

The doctors had given up all hope and no one thought she could possibly live.

In this extremity Mr. Garrett sent for a box of Dodd's Kidney Pills. It was a last hope, but happily it did not fail.

Mrs. Garrett used in all six boxes of the remedy, and is completely cured. She says: "I am doing my own work now and feel as well as ever I did. Dodd's Kidney Pills certainly saved me from death."

Even when we are willing to admit that other people know their own business best, we can't help but feel that they are at least very negligent about it.—Brooklyn News.

# THE SIZE OF AMERICA.

Something of a Nation, According to a Traveled Irishman's Description.

Col. Abraham Gruber is the master of more Irish jokes, it is said, than any other man in town. In making a speech at a recent public dinner he told this one, says the New York Mail and Express.

"Micky Finnigan who had been an American citizen for about a year and had traveled about this continent considerably, returned home to Hibernia for a visit. This is the way he described his new country to one of his relatives:

"Paw, America is so big, begorra, that if you wor to drag England through the shutes you wouldn't have a mark in the dirt; an' you could lose Oldland one of them great inland oceans we hev plawat we call lakes; an' if you had Scotland to get rid of, there are a thousand corners you could hide her in, an' nobody could tell where you had put her except, begorra, for the bad smell of the whisky."

# DOCTOR ENSOR SUPT. SOUTH CAROLINA STATE INSTITUTION.

Endorses the Catarrhal Tonic Pe-ru-na—A Congressman's Letter.

Dr. J. F. Ensor, Postmaster of Columbia, S. C., late Superintendent and Physician in charge of State Insane Asylum at Columbia, S. C., writes:

"After using your Peruna myself for a short period, and my family having used and are now using the same with good results, and upon the information of others who have been benefited by it as a cure for catarrh and an invigorating tonic, I can cheerfully recommend it to all persons requiring so effective a remedy."—Dr. J. F. Ensor.

Hon. C. W. Butts, ex-Member of Congress from North Dakota, in a letter from Washington, D. C., says:

"That Peruna is not only a vigorous, as well as an effective tonic, but also a cure of catarrh is beyond controversy. It is already established by its use by the thousands who have been benefited by it. I cannot too highly express my appreciation of its excellence."—C. W. Butts.

Dr. R. Robbins, Muskogee, I. T., writes:

"Peruna is the best medicine I know of for coughs and to strengthen a weak stomach and to give appetite. Beside prescribing it for catarrh, I have ordered it for weak and debilitated people, and have not had a patient but said it helped him. It is an excellent medicine and it fits so many cases.

"I have a large practice, and have a cause to prescribe your Peruna. I hope you may live long to do good to the sick and suffering."

Only the weak need a tonic. People are never weak except from some good cause. One of the obscure causes of weakness and the one often overlooked is catarrh.

Catarrh inflames the mucous membrane and causes the blood plasma to escape through the mucous membrane in the form of mucus. This discharge

of mucus is the same as the loss of blood. It produces weakness. Peruna stops the catarrh and prevents the discharge of mucus. This is why Peruna is called a tonic. Peruna does not give strength by stimulating the nervous system a little.

It gives strength by preserving the mucous membranes against leakage. It gives strength by converting the blood fluids and preventing their draining away in mucous discharges.

Constant spitting, and blowing the nose will finally produce extreme weakness from the loss of mucus.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address: Dr. Hartman, President of the Hartman Sanitarium, Columbus, Ohio.
