"Some of us who think Jordan is a hard road to travel may find some consolation in the Chinese proverb. 'The gem can not be polished without friction, or the man perfected without trials.'"

Corn and not cotton is the king in this country. We have about 2,500,000,000 bushels of staled corn, and 100,000,000 tons of stalks which as stover is more valuable than all other hay crops combined. The grain alone is worth at least one billion dollars. The cotton crop—lint and seed—sells for no more than a half a billion dollars, but as it is an article of commerce it gets into the hands of speculators, and is made to control financial operations of the world. Corn is the foundation of all live stock production, hence its great value to the world. It is largely used to adulterate wheat flour, and in this and other ways it is largely used as food for man, as well as beast.—Farm and Ranch.

#### NOT OVER-WISE.

There is an old allegorical picture of a girl scolded at a grass-hopper, but in the act of heedlessly treading on a snake. This is paralleled by the man who spends a large sum of money building a cyclone cellar, but neglects to provide his family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a safeguard against bowel complaints, whose victims outnumber those of the cyclone a hundred to one. This remedy is everywhere recognized as the most prompt and reliable medicine in use for these diseases. For sale by V. H. Frederick, Druggist.
