A North Dakota editor says:  
"Ten years ago we entered the  
newspaper business poor but hon-  
est. We are still poor."

John Barrett, former minister to  
Panama, predicts that New Or-  
leans will become a world city on  
the building of the Panama Canal.

An esteemed Missouri contem-  
porary outlines in this way: "The  
automobilist autobetter than to  
be arrested for violating the law  
they autospespect, and they autog-  
sloower."

A machine has recently been in-  
vented and will be tested soon by  
a bank in Philadelphia for count-  
ing coins. It can be adjusted to  
speed so as to count and wrap up  
30,000 coins an hour, doing the  
work of about ten clerks.

Four American warships have  
sailed for Cherbourg, France, to  
bring to this country the body of  
John Paul Jones, the American  
naval hero who performed many  
deeds of valor in the revolutionary  
war.

The largest producing farm in the  
world lies in the southwest corner  
of Louisiana, owned by a Northern  
syndicate. It runs one hundred  
miles north and south. The im-  
mense tract is divided into con-  
venient pastures, with stations of  
ranches every six miles. The fea-  
ting alone cost nearly \$50,000.

That a twelve inch shell loaded  
with only a small charge of dynamite,  
the world's most effective ex-  
plosion, will crumble in the side of  
the heaviest armor clad vessel,  
though the shell fall short of its  
mark by twenty feet, has just been  
demonstrated at the beginning of a  
series of tests at the government  
proving grounds at Sandy Hook.

The snake has one great protec-  
tion against assailants. He appears  
to be always on his guard. This is  
explained by the fact that the eyes  
of snakes never close. Night and  
day, sleeping and waking, alive or  
dead, they are always wide open.  
A snake's eyes are not protected  
with lids, but with a strong scale.  
This is as clear as glass, and, of  
course, affords not the least imped-  
iment to sight.

It is estimated that the increase  
in assessment rolls of the fifty-nine  
parishes of the State will be in the  
neighborhood of \$40,000,000 or  
\$50,000,000 over last year. The  
increase in 1904 was about \$14-  
000,000 over 1903. During August  
the bulk of the assessment rolls will  
be filed, and by September, the last  
day upon which the Assessors have  
to make their reports according to  
law, the amount of property upon  
which the State will receive its reve-  
nue will be known.

Chicago, July 4.—Returns up  
to midnight to-night from all sec-  
tions of the United States covering  
Fourth of July fatalities, accidents  
and fires, show that forty-six are  
dead and 1677 more or less seriously  
injured on account of the cele-  
bration. Figures a year ago up  
to this hour showed the fatalities to  
be fifty-nine and injuries 3169.  
Of the deaths reported, three were  
from lockjaw. Casualties this year  
show the following causes: Run-  
aways 40, powder burns 154, fire-  
works 1064, toy pistols 58, firearms  
of all kinds 179, cannon 88, fire  
losses \$228,750.

CHAMBERLAIN'S COLIC, CHOLERA AND DIAR-  
RHOEA REMEDY—THE BEST IN EXISTENCE  
T. M. Wood, manager of the White  
County News, Beebe, Ark., is a rep-  
resentative southern business man, who  
does not hesitate in expressing his good  
opinion of a well known remedy. He  
says: "It gives me pleasure to recom-  
mend Chamberlain's Colic, Cholera and  
Diarrhoea Remedy, having used it my-  
self and in my family with the best re-  
sults. In fact I believe it to be the best  
remedy of the kind in existence." Sold

RAILROAD MEETING.

A large and enthusiastic meeting  
was held at the Courthouse last  
Monday night, to consider the  
proposition of the Baton Rouge  
Hammond and Eastern Railway,  
for the extension of their line to  
Covington.

The meeting was called to order  
by Mayor C. Z. Williams, who  
made a few remarks setting forth  
the advantages to a town of a rail-  
road connection with the various  
parts of the country.

Judge Thos. M. Burns was called  
to the chair and introduced Mr. W.  
C. Dufour, the representative of  
the proposed railroad.

Mr. Dufour stated that he came  
as the representative of the Baton  
Rouge, Hammond and Eastern  
Railway, a corporation that was  
organized about four years ago by  
citizens of Baton Rouge, Hammond  
and St. Tammany Parish for the  
purpose of constructing a railroad  
from Baton Rouge, through Ham-  
mond, to some point east of Ham-  
mond. A survey was made of the  
proposed line, which survey passed  
about seven miles north of Coving-  
ton. This corporation failed largely  
on account of the inexperience  
of its projectors. The franchise  
of this road has now passed into  
the hands of practical railroad  
people, who propose pushing the  
line to a speedy completion. He  
stated that all the Company he  
represents asks that the citizens of  
Covington vote them a tax of 5  
mills, to run for ten years; that  
Baton Rouge and Livingston Par-  
ish had voted the same tax, and  
that Hammond would do so. The  
tax is to be at the rate of 5 mills,  
or less if property values increase,  
and not more than \$2,500 is to be  
paid to the road in any one year,  
and not a dollar of that is to be  
paid until the road is completed  
and in running order. He stated  
that if this tax was voted the road  
agreed to begin work in five  
months from the date of the promul-  
gation of the results of the elec-  
tion, and that the road was to  
be completed in eighteen months,  
or by Aug. 1, 1907. The tax is  
to run from 1907 to 1916, inclusive.

They propose to build a standard  
gauge railroad on the shortest pos-  
sible line between Baton Rouge,  
Hammond and Covington. All  
trains are to be required to stop in  
Covington.

Mr. Dufour thought that if this  
tax was voted in the next two or  
three months work could be begun  
by March 1, 1906, and the road be  
in operation by August, 1907,  
this being about the usual time  
consumed in building ninety miles  
of standard roadbed through such  
country as this road would pass.

After a full discussion of the  
proposition, the Chairman ap-  
pointed a committee of three, com-  
posed of Mayor C. Z. Williams,  
Alderman E. J. Frederick and  
District Attorney J. B. Lancaster,  
to secure signatures to a petition to  
be presented to the Town Council,  
asking that the proposition be laid  
before the properly qualified vot-  
ers of the town.

It is thought that the proposition  
will carry by large odds and that  
in the near future work on this  
line, the building of which means  
so much to this section will be be-  
gun. Several of the speakers  
brought out the fact that this  
road would give Covington con-  
nection with every trunk line road  
entering New Orleans except the  
Louisville and Nashville.

It is the general impression that  
this proposition means that the  
Frisco System is coming to Cov-  
ington over its own rails, and that  
from here it will go into New Or-  
leans over the tracks of the East  
Louisiana Railway. In substantia-  
tion of which view is stated that  
the East Louisiana and Frisco are  
to enjoy the same terminal advan-  
tages in New Orleans, that the pas-  
senger coaches of the Frisco are  
now in use on the East Louisiana  
railway, and that the large, com-  
modious and up-to-date depot  
building long promised to the peo-  
ple of Covington, and the plans  
for which have been drawn long  
ago, has never been built, evidently  
awaiting just such developments  
as are now on foot. The people  
of Covington will hail with delight  
the connecting of our town with  
the Illinois Central System, not  
only on account of the passenger  
connections thus made possible,  
but because they see the speedy  
development of the large trucking  
and dairy possibilities of this sec-  
tion.

Advices Sale of Cotton

President Harvie Jordan of the  
Southern Cotton Association has  
advised the members of that asso-  
ciation to sell their cotton while  
they can get 10 cents a pound for it.

He believes that abnormally high  
prices for the staple will in the end  
prove detrimental to the farmers.

In this statement of instructions  
to the members of the cotton asso-  
ciation, Mr. Jordan has this to say  
in the afternoon edition of the At-  
lantic Journal:

"If crop conditions do not ma-  
terially improve in the near future  
and continue so, much higher  
prices may be realized, but I am as  
much opposed to abnormally low  
prices. My advice to farmers at  
this time is to gradually sell their  
present holdings during the next  
two months, demanding at least 10  
cents per pound. I would like to  
see the present growing crop  
market this fall and winter at  
prices between ten and twelve cents  
per pound. Such prices would give  
the farmer a good profit and at the  
same time permit mills to do a safe  
business. I shall oppose any effort  
to force the price of spot cotton to  
abnormally high figures, believing  
in the end that they will prove detri-  
mental. Let us be conservative  
and consistent."

It is useless to comment on the  
probable effect this advice from  
Mr. Jordan will have on the  
market. But it is a matter of in-  
tensely dramatic interest to all the  
cotton world to note just what this  
influence will be during the next  
few days.

It is safe to say that the buying  
element will be shaken in their  
faith and that if they do not sell  
there will be a tendency to get out  
of the market entirely for a while.  
Already the criticisms against  
Mr. Jordan for issuing these in-  
structions are beginning to be  
heard. One man who has been  
identified with the cotton associa-  
tion said Mr. Jordan has far over-  
stepped his authority. But the  
conservative element as a rule hold  
that Mr. Jordan has the same right  
to tell the farmer when to sell his  
cotton as he has had all along to  
sell it. It will largely be a matter  
of what side of the market a man  
is on whether or not he will uphold  
Mr. Jordan's course.

Mr. Jordan's ideas and instruc-  
tions seem to be entirely in line  
with the views of W. P. Brown,  
which causes some of the talent to  
believe they have been communi-  
cating on the subject.

Mayor Dunne, of Chicago, has  
appointed three women as mem-  
bers of that city's Board of Educa-  
tion. They are Mrs. Emmons  
Blaine, whose contributions to-  
ward the development of Educa-  
tion in Chicago have amounted to  
over \$1,000,000, the Emmons  
Blaine School of Education being  
her gift to the University of Chi-  
cago; Miss Jane Addams, head of  
the Hull House, and Dr. Cornelia  
B. DeBuy, a specialist in psy-  
chology and pedagogy, and for  
twelve years a student and teacher  
at the Cook County Normal  
School. Dr. De Buy pushed  
through the Illinois Assembly the  
bill legalizing kindergartens as  
part of the public school system,  
and she led in the fight that de-  
feated the bill making married  
women ineligible as teachers. Last  
summer she acted as mediator in  
the stockyards strike.

The Belgians have long been ac-  
customed to horse meat as food,  
but of late importations of the ani-  
mals, mainly from England, have  
shown so many that were emaciated,  
weak and unfit for food that the su-  
perior council of agriculture has  
recommended that such importa-  
tions shall cease, or that broken  
down horses unfit for work, shall  
be classified as cattle, in which case  
the high duty will keep them out.  
The measure has not yet been  
adopted, however, owing to the  
difficulty in finding a substitute  
for horse meat, which is, in many  
cases, the only kind which the  
poorer classes are able to afford.

The Chicago grand jury has re-  
turned true bills for violation of the  
Sherman anti trust law against the  
Armours, Cudahys, Swifts, and  
other magnates of the beef trust.  
It is claimed that ample evidence  
has been secured showing that the  
beef trust had conspired to force  
down the price of cattle and force  
up the price of meat to the con-  
sumers.

The trust had partitioned off the  
country for the operations of the  
subdivisions under the agreements  
of the general directorate.

A Canadian teacher fell heir last  
year to an English estate of 20-  
000 pounds sterling. In the law-  
yer's office the clerks made bets as  
to how she would take it. One  
thought she would scream, two  
were of the opinion that she would  
burst into tears, two favored hys-  
terics. Her reply to the messen-  
ger was disconcerting: "I shall  
finish my monthly report, whip  
three spelling errors, whip  
two boys and be at your office in  
forty minutes."

SICKENING SHIVERING FITS  
of Ague and Malaria, can be relieved  
and cured with Electric Bitters. This  
is a pure tonic medicine, of especial  
benefit in malaria, for it exerts a true  
curative influence on the disease, driv-  
ing it entirely out of the system. It is  
much to be preferred to Quinine, having  
none of this drug's bad after-effects.  
E. S. Munday, of Henrietta, Texas  
writes: "My brother was very low with  
malaria fever and jaundice, till he took  
Electric Bitters, which saved his life.  
At J. L. Watkins, City Druggist, and  
Jos. S. Claverie's Drugstore. Price 50c,  
guaranteed."

Similooosa Items.

The Fourth of July was spent very  
nicely. A picnic and fish fry was given  
at the junction of Similooosa and Bill's  
Creek. A large crowd attended but I  
don't think they had a very good time  
on account of the unfavorable weather,  
although we hope they did. The picnic  
was given by Mr. John M. Fussell  
and Mrs. Nathan Whitney.

There was quite a nice crowd at the  
home of Mr. and Mrs. T. A. Bohne.  
Among them were Misses Camille, Ru-  
nice and Elsie, and Masters Eddie and  
Cornelia Allison Misses Ellen and E.  
Desmond and Miss Mary Keating.  
Many games were played, and music  
was furnished by Mr. Bobbie's Edison  
Phonograph, which was highly ap-  
preciated.

Mr. Allison and Mr. Fitzgerald have  
the finest crop of corn in this ward.  
Best wishes to the FARMER.
