The Publisher's Claims Sustained
UNITED STATES COURT OF CLAIMS
The Publishers of Webster's International Dictionary allege that it is, in fact, the popular Unabridged thoroughly re-edited in every detail, and vastly enriched in every part, with the purpose of adapting it to meet the larger and severer requirements of another generation.
We are of the opinion that this allegation most clearly and accurately describes the work that has been accomplished and the result that has been reached. The Dictionary, as it now stands, has been thoroughly re-edited in every detail, has been corrected, every part, and is admirably adapted to meet the larger and severer requirements of a generation which demands more of popular philological knowledge than any generation that the world has ever contained.
It is perhaps needless to add that we refer to the dictionary in our judicial work as of the highest authority in accuracy of definition; and that in the future as in the past it will be the source of constant reference.

Simply because it has been proven by Stomach Specialists, that nine-tenths of all stomach derangements are caused by decayed teeth, or not having a sufficient quantity of teeth to thoroughly masticate the food. Then why not consult a good dentist?

Dangers of Defective Plumbing.
Defective plumbing permits the entrance into the house of sewer gas bearing germs of contagious diseases to which the human system readily succumbs.
Sewer gas is not necessarily generated in the sewer, but is frequently created in the plumbing system within the home and enters the apartments through defective fixtures.
If in doubt, consult us regarding the piping and replacing defective fixtures with "Standard" Porcelain Enamelled Ware—acknowledged as the best sanitary equipment.
