When You Want Pure White Lead, Get It
Probably there is no other article of commerce subjected to so much defraction and misrepresentation as White Lead. Recently analyzed by the Government Agricultural Experiment Station of North Dakota, 5 contained absolutely no White Lead, 5 less than 1% of White Lead, and only 3 over 90% of White Lead.

There is, however, a way to be certain of the purity and genuineness of the White Lead you buy, and that is to see that the keg you buy bears the Dutch Boy trade mark. This trade mark is a positive guarantee of absolutely pure White Lead made by the Old Dutch Process.

Tired Nervous Women Make Unhappy Homes

MRS. NELLIE MAKHAM
A nervous irritable woman, often on the verge of hysterics, is a source of misery to everyone who comes under her influence, and unhappy and miserable herself.
Such women not only drive husbands from home but are wholly unfit to govern children.
The ills of women act like a fire brand upon the nerves; consequently seven-tenths of the nervous prostration, nervous despondency, the "blues", sleeplessness, and nervous irritability of women arise from some organic derangement.
Do you experience fits of depression with restlessness alternating with extreme irritability? Do you suffer from pains in the abdominal region, backache, bearing-down pains, nervous dyspepsia, sleeplessness, and almost continually cross and snappy? If so, your nerves are in a shattered condition and you are threatened with nervous prostration.
Proof is monumental that nothing in the world is better for nervous troubles of women than Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs. Thousands and thousands of women can testify to this fact.
Mrs. Nellie Makham, of 151 Morgan St., Buffalo, N. Y., writes:—
"Dear Mrs. Pinkham:—
"It was a wreck from nervous prostration. Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs and today holds the record for the largest number of actual cures of female diseases of any medicine the world has ever known, and thousands of voluntary testimonials are on file in the laboratory at Lynn, Mass., which testify to its wonderful value.

TAKING UP CARPETS.
Some Little Hints That Will Make the Task Easy.
Taking up carpets is one of the most disagreeable of housecleaning tasks, usually, for the simple reason that the majority of persons do not properly perform the work.
To prevent the usual cloud of dust when removing a carpet, first loosen the tacks, picking them all up as drawn, which will prevent accidents and take only a few minutes of time.
Do not move the edge of the carpet until all the tacks have been removed, then begin at one side and roll the carpet carefully to the other side of the room.
Two or three persons can roll it better than one alone. Lift it carefully at both ends and the middle at the same time, and carry it out of doors and away from the house to be cleaned. Begin at one side of the room again and roll the papers with the dust on them, taking only a few at a time, and being very careful not to disturb the dust.
Carry the rolls out as they are made and pile them on the ground where they can be burned.
When the papers have all been removed there will be no dust on the floor or in the air, and a mopping of the floor with a clean mop and a good suds will make it fresh.
If there was no paper under the carpet the tacks and carpet should be removed in the same manner and a lot of bits of newspaper well dampened should be scattered over the dusty floor. Stir the paper gently about with the broom so as to gather the dust; then take it up in little piles on the dustpan.
Scatter another lot of the dampened paper and sweep it gently together, then mop the floor with the good suds.

Chilean Editor in America.
Senior Carlos Silva, of Santiago, editor of El Mercurio, the oldest daily newspaper in the republic of Chile, is visiting this country for the first time, and is accompanied by his wife. He is at present in Washington.
Famous Book Free.
Every reader of this paper can get free of charge one of Dr. Coffey's famous books which tells of a new method by which persons afflicted with Deafness, Head Noises, Sore Eyes, Failing Sight from any cause, can cure themselves at home at small expense.
Write a letter immediately to Dr. W. O. Coffey, 360 Century Bldg., Des Moines, Ia.

Pretty Epigram.
A charming epigram adorned an address that Mrs. J. C. Phelps Stokes made on her last visit to Detroit. She was rejoicing over the fact that in the slurs woman, no matter how wretched her case, kept her speech pure, as a rule, of profanity.
"An oath from a woman's lips," she ended, "is unnatural and incredible. I would as soon expect a bullet from a rosebud!"

Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by restoring the hearing to the natural condition of the ear. This is done by the use of the Eustachian Tube. When this tube is blocked, the hearing is lost. The perfect hearing, and when it is entirely closed, deafness is the result. The Eustachian Tube is the only tube that connects the ear with the throat, and unless the inflammation can be taken out of the tube, the hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. By Hall's Catarrh Cure, Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, etc.
Take Hall's Family Pills for constipation.

A Suggestive Explanation.
"The feelings of women are far deeper and finer than those of men," cried the lady orator, in a fierce tone. "We are told by those who style themselves the stronger sex that we are much inferior. Is that so?"
A loud chorus of "No" from the ladies greeted this question, and the orator went on:
"I say that woman feels where man thinks."
"Is that the reason your husband is bald?" inquired one of the few male members of the audience.
It was lucky for him that he got two seconds start in the race for the door.—Pearson's Weekly.

The Money Devil.
"It's my candid opinion," he said, "that money is infested with seven devils, and I shouldn't wonder if 70 wouldn't be more correct. There is trouble and a world of worry in the very name of it! When I haven't got it, I'm worrying as to where I'll get it, and when I get it I worry about what to do with it; if I put it in the bank I worry because it don't grow fast enough, and if I spend it I worry because I got rid of it so soon; so you see, it's a world full o' trouble anyway you take it! The poor bless and curse it; the rich don't know what to do with it; there isn't a handful of happiness in a ton of it. Here comes a bill collector now, to get what little I haven't got. Stay here and entertain him while I climb to the roof!"—Atlanta Constitution.

Orange Pudding.
Ingredients: Three oranges, one and a quarter pints of milk, one and one-half ounces of corn starch, one ounce of butter, two or three eggs, three ounces of sugar. Cut the oranges in slices, and lay them in a buttered pudding or fireproof dish, sprinkling a little sugar over them. Boil the milk, reserving a little with which to slake the corn starch, mixing the two together as soon as the milk boils. Cook for ten minutes, stirring constantly; add the butter, a pinch of salt, and the yolks of the eggs, with which has been mixed the sugar. Stir for a minute or two longer to cook the eggs; then turn the mixture over the oranges. Bake for ten minutes; cover with a meringue made from the whites of the eggs, return to the oven for a moment to brown, garnish with sections of orange, and serve hot or cold.

Pretty Lamp Shade.
A pretty lamp shade can be made with wire net interlaced with gold cord and beads. It is necessary to cut the net in circular shape, making an opening to go over the lamp chimney. The disk must be cut so as to form a funnel shape when fastened together. With gold thread run the threaded needle through the net, meshes, placing a bead on each stitch, and form a short fringe of small beads in bright colors around the bottom of the shade. When completed, finish the top with a row of big round beads. It will be necessary to run heavy wires across the top to prevent the shades from touching the chimney.

Apple Omelet.
This makes a nice accompaniment to roast pork or broiled spare-rib. Pare and core six or eight large cooking apples; stew in preserving pan till quite soft. Mash, add one cupful of sugar, an ounce of butter, and seasoning of cinnamon. Let apples cool and stir in beaten yolks of four eggs, and stir well together. Beat the whites to a stiff froth, add to the mixture, pour all into a shallow pudding basin, and put into hot oven to brown.

For Shawls and Knitted Goods.
Wash in warm suds, allowing one tablespoonful ammonia to a gallon of water. Rub gently with the hands about 20 minutes, then squeeze and soap carefully until clean. Rinse in clear water of the same temperature and do not stretch too much by ironing or pulling. Very soft fluffy shawls and "fascinator" are often dried by laying on a platter and setting in a warming oven, watching and shaking frequently to insure even drying.

Don't Poison Baby.
FORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and A FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. CASTORIA DOES NOT CONTAIN NARCOTICS, if it bears the signature of Chas. H. Fletcher.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.
Dr. J. W. Dinsdale, of Chicago, Ill., says: "I use your Castoria and advise its use in all families where there are children."
Dr. Alexander E. Mintie, of Cleveland, Ohio, says: "I have frequently prescribed your Castoria and have found it a reliable and pleasant remedy for children."
Dr. J. S. Alexander, of Omaha, Neb., says: "A medicine so valuable and beneficial for children as your Castoria is, deserves the highest praise. I find it in use everywhere."
Dr. J. A. McClellan, of Buffalo, N. Y., says: "I have frequently prescribed your Castoria for children and always got good results. In fact I use Castoria for my own children."
Dr. J. W. Allen, of St. Louis, Mo., says: "I heartily endorse your Castoria. I have frequently prescribed it in my medical practice, and have always found it to do all that is claimed for it."
Dr. C. H. Glidden, of St. Paul, Minn., says: "My experience as a practitioner with your Castoria has been highly satisfactory, and I consider it an excellent remedy for the young."
Dr. H. D. Benner, of Philadelphia, Pa., says: "I have used your Castoria as a purgative in the cases of children for years past with the most happy effect, and fully endorse it as a safe remedy."
Dr. J. A. Boardman, of Kansas City, Mo., says: "Your Castoria is a splendid remedy for children, known the world over. I use it in my practice and have no hesitancy in recommending it for the complaint of infants and children."
Dr. J. P. Mackey, of Brooklyn, N. Y., says: "I consider your Castoria an excellent preparation for children, being composed of reliable medicines and pleasant to the taste. A good remedy for all disturbances of the digestive organs."

DOMESTIC TIT-BITS.
To remove pencil marks from paint use a piece of lemon dipped in whitening.
Dark calicoes should be ironed on the wrong side with irons that are not too hot.
Don't boil meat; steam it, except salt beef. Don't throw away the water; use as stock for soup.
When the burners of lamps become clogged, put them in strong soap-suds and boil while to clean them.
Cut a strip off the ends of potatoes before they are roasted. This lets out any stray moisture and makes the potato mealy.
Eggs with very thin shells are not so likely to crack in boiling if they are put into cold water and brought very slowly to the boil.
Old brass can be made to look like new by pouring strong ammonia on it, scrubbing with a brush, and then rinsing in clear water.
When soot falls on the carpet cover it thickly with salt and then sweep it up. In this way you may remove it without doing the least damage to your carpet.
Milk will take out ink stains from boards, cotton, and other fabrics, if used before dried. Soak in a little milk, and then wash in the ordinary way.
When treacle is one of the ingredients of a cake, weigh it in the following manner. Flour the scales well, pour the treacle on to the flour, and the treacle will then run off quite easily and clearly.
Persons who are accustomed to use tea leaves for sweeping their carpets and find they leave stains will do well to employ fresh-cut grass instead. It is better than the tea leaves and gives a brighter and fresher look.

BORAX IN THE DAIRY.
A Matter of Profitable Interest to Farmer and Dairyman.
A few years ago most anything "went" for milk or cream or butter so long as it came originally from a cow. Now things are changed.
The public realizes, the dairyman realizes and the farmer realizes that there is just as much difference between milk from sweet utensils and milk from "stale" utensils as there is between milk and chalk and water.
The problem of keeping sweet all the utensils used in connection with milk and cream selling, and butter making, has been a serious one with the farmer.
He has come to realize fully that the slightest taint or hint of staleness left in a can, tin or churn may ruin a whole output; that the taint which is left in the form of bacteria which grow and multiply in milk or butter, producing disastrous results.
The farmer has learned that hot water won't rinse away the greasy residue in dairy utensils.
He has learned that soap leaves a residue of its own which is, if anything, worse than the milk or cream residue, and it is little wonder that there has been a constant clamor for a dairy cleanser and sweetener that will meet modern requirements.
A few of the largest creamery establishments have called experts into consultation on this problem and have with this scientific aid hit upon a product of nature which exactly fills the bill—Borax.
Scientists have long known Borax as a cleanser, a sweetener and an anti-septic destroyer of bacteria and germ growths. Destroys all that is harmful and promotes and preserves freshness, sweetness and purity, relieving the dairyman and dairy housewife of drudgery and of needless work and worry.
Its cheapness and value should give it first place in the necessities of every dairy.

THE COW'S UDDER is kept in a clean, healthy and smooth condition by washing it with Borax and water, a tablespoonful of Borax to two quarts of water.
This prevents roughness and soreness or cracked teats, which make milking time a dread to the cow and a worry to the milker.
THE MODERN CLEANSER of all dairy utensils consist of one—tablespoonful of Borax to every quart of water needed. Remember—a tablespoonful equals four teaspoonfuls.
Be sure that you get pure Borax. To be sure, you must get "20 MULE TEAM BORAX." If you are unable to get the "20 Mule Team" brand send us your dealer's name and we will arrange to supply you. Send for booklet.
