The St. Tammany Ice and Manufacturing Company have just finished their new well and now have one of the finest in the State. The well is 750 feet deep. The lower 80 feet of this is a strainer. The temperature of the water is about 70 degrees and the flow seems to be increasing daily. When the well was first brought in Robert Lobdell noted a flow of 319 gallons a minute through a 6-inch pipe, and over 350 through the 8 inch pipe of the well.

Mr. Frederick states that he will use the water for making ice and for supplying the town.

Death of Mrs. Mathews.

Tuesday Prof. C. A. Mathews was in this office with an article for publication, absorbed in his interest in the school and the community, and full of cheerful hope for the future. Wednesday we received a call at the phone requesting that the article be withdrawn, as Mrs. Mathews had been suddenly stricken with death. We regret that it was too late to do this.

Wednesday Professor and Mrs. Mathews attended a meeting in the Baptist Church, and about 8 o'clock, just as a hymn was being announced, Mrs. Mathews was seen to lean to one side as if about to fall asleep. She was caught in Professor Mathews' arms, and in a few moments death ensued. A physician was summoned, but nothing could be done. The body was taken home and prepared for burial.

The funeral took place from the Baptist church, Rev. J. M. Williams conducting the funeral services, and the body was followed to the grave by a large concourse of friends.

About seven years ago Mrs. Mathews had suffered from heart trouble, but at the time of her death, while not in perfect health, there were no indications of serious trouble.

Mrs. Mathews, before her marriage, was Miss Rachel Ingram, of Ashland, Ala., where her family now reside, and was about 40 years of age.

Mrs. Mathews, by her cheerful and sympathetic disposition, and her devotedness to the welfare of those about her, had made many friends in Covington, and her death is a severe shock to the community. Professor Mathews and the two little girls who survive her have the heartfelt sympathy of all.

Leslie Maguire Drowned.

The drowning of Leslie Maguire last Sunday afternoon in the Bogue Falaya River was a very sad occurrence. An athlete, a good swimmer, and in perfect health, he is drowned before the eyes of friends who would have made any sacrifice to save his life.

Mr. Maguire was an attache of the New Orleans and Northeastern Railroad and came to Covington Saturday evening and was the guest of his friend, Mr. Samuel Copp of the New Orleans Great Northern railroad. Sunday afternoon, about 4 o'clock, Mr. Maguire proposed that they go bathing. They had been in the water but a few minutes when Maguire had an attack of what physicians say must have been acute indigestion, and was in a few seconds sinking beneath the water, notwithstanding the efforts of his friends to save him. Mrs. Copp is herself a swimmer, but it all occurred so quickly, and all suspicion of danger being averted by the fact that Maguire was such an excellent swimmer himself, that by the time Mrs. Copp realized the danger it was too late, although she dived several times in an ineffectual attempt to save him.

Mr. Maguire was but 23 years of age and was advancing rapidly in the service of the Northeastern railroad, where he was highly esteemed. He leaves a mother to whom he was devoted and by whom he will be sadly missed.

The body was recovered and sent to New Orleans for burial Monday morning.

DIED.—In Covington, La., Tuesday, Aug. 13, 1907, at 7:13 p. m., Daisy LeBlanc, eldest daughter of Ademar LeBlanc, aged 14 years. The funeral took place Wednesday afternoon at 4 o'clock, from the residence of Mrs. Scarborough.

It may be safely claimed that L. S. U. is keeping as fully abreast of the times as her limited revenues will permit, and is now in better condition than ever before to render the people of the State efficient service. Among the improvements of the last year the most worthy are: the establishment of the professional departments of Philosophy and Education and of Law; the admission of women to the department of Philosophy and Education; the separation of the chair of History from that of Political Science, and the selection for the former of one of the ablest specialists in the field of Southern history; the establishment of the school of Agriculture; the completion of the new building, the new Mechanical Laboratory, and the beginning of another. The University has averaged one new building a year for the last ten years. L. S. U. is the only university owned, controlled or supported by the State. See advertisement in another column.

Baseball. Last Sunday, at Enterprise Park, the Reiss's of New Orleans and the Covingtons played what at first appeared to be a losing game for the home boys, but which eventually turned into a regular cyclonic defeat of the visitors, with John Schneider, of the Covingtons hitting the first home run of the season, and the runs piling up to 12 after the fifth inning, and all this notwithstanding the team was handicapped by the absence of Stern and Pichon, who were unable to play. Up to the fifth inning the score was 2 to 1 in favor of the visitors, and it looked as if our home boys were going to get the little end of it. Duparquet pitched a fine game. The score was: Covingtons, 12; Reiss, 2 Batteries—Covington: Duparquet and Miltenberger. Reiss—Dejeune and Gebbs. Next Sunday the Covingtons and the Orioles, of New Orleans, will play. Game will be called at 2:30 p. m. Ladies free.
