THE SLEEPING SICKNESS WHICH MEANS DEATH

How many readers have heard of this terrible disease? It prevails in that far-away country—Africa—Especially the Congo district. It is caused by the bite of the tsetse fly. When it bites a person, the sleeping symptoms begin and finally the sufferer sleeps until death occurs.

Contrast this with the peaceful, balmy sleep of health. Is there anything more wearing than to lie awake at night, tossing about, nervous, with cold feet, hot head and mercy knows what else? Short of letting the tsetse fly bite us we would do almost anything for relief. How can we prevent it? Mr. George Hayes, of Union City, Pa., writes: "I had lost my appetite, was all run-down, could not sleep nights. I had tried everything without relief. Vinol was recommended, and to my surprise, it helped me at once; gave me a splendid appetite, and now I sleep soundly."

What Vinol did for Mr. Hayes, it will do for every run-down, nervous and overworked person who cannot sleep.

VINOL is sold in Covington by TROUILLY & OPLATEK

Now is the time

This is the time of year when one is particularly apt to catch cold. Colds are sometimes dangerous. The danger lies in allowing them to linger.

—DON'T DO IT—

Get a bottle—a 25c bottle will maybe be enough of our

WHITE PINE SYRUP MENTHOLATED WITH TAR, and cure the cold right at the start—before it has had time to become dangerous.
