REMINGTON UMC

Scatter Load SHOT SHELLS

When they're apt to get up close, slip in a Remington-UMC Scatterload— and make your choke bore gun good in brush or thicket.

Arrow and Nitro Club steel lined scatterload shot shells open up your pattern so evenly that your bird can neither get too much nor too little.

A special system of wadding gives at 25 yds. a spread equal to that of a standard shell at 40 yds. and with greater penetration.

The steel lining gives the speed plus perfect pattern. Cut a box to-day. Your local dealer has them. Try them on a paper target with your old duck gun.
