

# The St. Tammany Farmer.

"The Blessings of Government, Like the Dew from Heaven, Should Descend Alike Upon the Rich and the Poor."

D. H. MASON, Editor

COVINGTON, ST. TAMMANY PARISH, LA., SATURDAY, NOV. 15, 1913

VOL. XXXIX NO 51

## PROF. BYNUM TALKS ABOUT WORK AND PLAY

MISCONCEPTION BY SOME AS TO THE ENDS ATTAINED BY RECREATION.

NEEDED BY TEACHER AS WELL AS PUPIL

A Designation of some of the Reasons Why Play Time Should Be Observed at School.

In the teachers' institute last Saturday one of the timely subjects discussed was play by the children during the recess period. It is gratifying to say that a number of teachers already lead their pupils in out-door games and play. This is as it should be, but a sad feature of the discussion was reports from some teachers that their patrons objected to the teachers' encouraging play, saying that there is "too much of that foolishness."

We all know that these reports are correct; that a number of patrons of rural schools, and perhaps of some town schools, really do think recreation in school is foolishness, and think the teachers are misusing their time to get out and romp with the youngsters.

On pages 13, 14 and 15 of the course of study for rural schools, issued by the State Department of Education, is an article that so strongly recommends games and sports one might accept it as a requirement. It is an interesting chapter, and patrons who are not hearty advocates of play for school children should call at their school and ask the teacher to lend them the pamphlet. If the teacher hasn't a copy, the patron should advise her to get one immediately, either from the parish or State superintendent. The chapter would make good matter to be published in the Farmer, but as it is so long, I desire to enumerate some reasons why the teachers should take her flock out doors at recess and keep them all at play fully ten minutes at each recess and longer at the noon hour:

1. The room needs to be emptied of the foul air every two hours. The windows and doors should be thrown open at recess and all go out doors, if the weather permits.

2. We all believe pure air and sunshine are pretty good germicides. When all go out at recess, not only is the school room treated to pure air, but the bodies and lungs of the children and teachers.

3. If they should leave the room as all agree they should, why not exercise while out? This exercise causes deep breathing, which they need, and tends to keep the body warm if the weather is cool. The teacher needs these deep draughts of air and these sun-baths as much as the pupils. Her energy will be reinforced, lessening the likelihood of headaches, nervousness and irritability towards the close of the day's work.

4. By organized play, it is possible for the teacher to keep all of the pupils under her eye, reducing the danger of accidents. Organized play is thus more preferable than individual or small group play.

5. Another advantage of the organized play is the social features. Some children are backward and awkward. By mingling with the others where the teacher can prevent curt and humiliating remarks, the timid is "rubbed off," and all mingle as good fellows, on a common footing.

6. The teacher has opportunities of moral instruction in the play by requiring honesty in the games. She can practically eliminate quarreling and fighting.

7. The teacher is afforded an opportunity of increasing her popularity with her pupils. She is expected to know a number of games, which she can teach the pupils, and by coaching them, become almost a hero in their sight. Her school room influence will become much greater, if she thus becomes the leader on the grounds.

8. The old maxim, "an idle mind is the devil's workshop," is certainly worthy of consideration in dealing with children. The key to success with them is to keep them busy. Most parents want their children to live clean lives. They can not be clean-lived unless they are clean-minded. Idly sitting around in pairs or small groups is not conducive to either. Keep boys and girls busy, alternating study with clean, healthy play and you eliminate the sickening love affairs, so annoying in school.

There are some people, who are so warped and embittered as to seem to begrudge childhood of its fun and frolic; who prefer to see them with staid, matured ways, and believe in suppression rather than expression of the spirit of childhood. A letter couldn't do them any good. They are either warped hopelessly or just not made right. But to all patrons,

earnestly desiring to interest their children in school, and to see them grow up clean, healthy, robust men and women, I recommend that you co-operate in introducing and fostering wholesome, organized play in your school. If your teacher does not get out on the grounds with the children, advise her to do so. The children will love school better and make more rapid progress. I know, for I have tried both the "stay-in" and the "get-out" plans.

"All work and no play makes Jack a dull boy," runs the old adage.

W. A. BYNUM,  
Principal Covington School.

## PROCEEDINGS OF MANDEVILLE COUNCIL.

Treasurer's Report for October. Tax Ordinance Adopted.

Mandeville, La., Nov. 3, 1913.  
Regular meeting of the town council was held on the above date with the following present:

On motion duly seconded the minutes of previous meeting were adopted and carried.

Treasurer's Report for the Month of October, 1913.

Cash in bank Sept. 30	568.70
Receipts	333.75
Total	902.45
Disbursements:	
Working streets, bridges, etc.	304.94

Cash in bank Oct. 31... 602.51

R. MORGAN,  
Treasurer.

## TAX ORDINANCE.

Section 1. Be it ordained by the Mayor and Town Council of the town of Mandeville, La., in legal session convened, That a tax of 7 mills be and is hereby levied for the year of 1914, upon all taxed and taxable property situated in said town, for the purpose of defraying the general expenses of the corporation.

On motion duly seconded the meeting adjourned.

W. G. DAVIS,  
Mayor.

L. MENANT,  
Secretary.

## Covington Water is Pronounced Perfectly Pure.

In response to a request from Dr. J. F. Pigott an analysis of the water supply of Covington has been made by State Analyst Geo. B. Taylor. The result of his examination, as reported to Dr. Dowling, and the Doctor's letter is given below, as well as a copy of the certificate issued to the Yazoo & Mississippi Valley Railroad Co., which uses the same water:

La. State Board of Health,  
New Orleans, La., Nov. 11, 1913.

Dr. J. F. Pigott, Covington, La.

Dear Doctor:—Enclosed you will find report of analyst on the water supply of Covington collected by you on November 6, 1913.

Yours very truly,  
OSCAR DOWLING,  
President.

La. State Board of Health,  
New Orleans, La., Nov. 11, 1913.

Dr. Oscar Dowling, President and Ex-Officio Food Commissioner, La. State Board of Health.

Dear Doctor:—I beg to make the following report on the sanitary chemical and bacteriological analyses of the water supply of Covington, collected by J. F. Pigott, M. D., November 6, 1913:

Analysis Expressed as Parts Per Million.

Sanitary Survey—Driven well 700 feet deep; sandy soil and clay subsoil; galvanized iron pipe casing; surface protected from pollution; flowing 300 gallons per minute.

Reaction—alkaline, due to bicarbonates.

Odor, on opening container, slightly disagreeable.

On heating, earthy.

Condition of residue or ignition—Colorless.

Total solids—180.

Loss on ignition—56.

Alkalinity as calcium carbonate—10.

Hardness—Soft.

Chlorine—7.7.

Nitrogen as nitrites—present.

Nitrogen as nitrate—0.

Nitrogen as free ammonia—0.96.

Nitrogen as albuminoid ammonia—0.

From a sanitary chemical standpoint this is a pure water supply.

Bacteriological Analysis.

Colonies—plain agar—21 hours 37 degrees C.

Presumptive tests for B. Coli—24 hours, 37 degrees C.

Gas—Lactose Bile—1 cc—0.

1-10 cc—0.

Liver Broth—1 cc—0.

1-10 cc—0.

The analysis of this supply shows it to be pure. There is no indication of sewage contamination either from a chemical or bacterial standpoint.

## WASHINGTON PARISH PLANS FAIR.

Franklinton, Nov. 11.—The Washington Parish Fair Association held a meeting to plan for a fair in 1914 and elected the following: Dewitt E. Branch, president; J. W. McDougal, secretary; F. R. McDougal, Walter Wilkes, F. B. Bateman, John M. Fussell and J. S. Knight, directors, and Mrs. Della H. Carter, manager ladies' department.

## ROAD BONDS ELECTION CALLED.

Amite, La., Nov. 11.—The police jury passed an ordinance Monday calling for an election to be held in the parish on December 16, at which time the proposition of levying good roads bonds to the extent of \$700,000 will be submitted to the voters.

## 2000 SCHOOL CHILDREN TO BE IN RALLY IN 1914

WILL BE ONE OF THE GRANDEST DEMONSTRATIONS EVER HELD IN PARISH.

BE HELD IN COVINGTON OR TOWN OF SLIDELL

Rally Will Mean Close Preparation for Contestants in Schools in the Essential Subjects.

Spectators say it was an imposing sight when 1300 public school children marched in parade during the parish fair of 1912. But think of 2000 St. Tammany parish public school children in the spring of 1914 parading as a band of schoolmates, contesting in various events as friendly competitors with the enthusiasm of rivals but the spirit of generous host and guests, and parting as friends, and you will get an idea of the St. Tammany parish school rally next spring.

The rally is assured. The Slidell division of teachers in their institute November 1st voted a spirit of unanimity afterwards, he would favor it. It was shown him that it could be arranged so as to leave a spirit of union and friendship. Several teachers made talks, and then when put to a vote, all the teachers voted for the rally. They then elected committees. Mr. Hays, of the Covington school was chosen the committee on athletics, Miss Morrell on literary events and Miss Grace Thom, of Abita Springs, on exhibits. Like committees were chosen a week before by the Slidell division. These committees will soon meet and arrange the event to be contested.

No decision has as yet been reached as to the place where the rally will be held, but it will be either at Covington or Slidell.

This is going to be the biggest event in the history of the public schools of the parish. It will mean an increased dignity of and appreciation for the school system. It will mean that the teachers and pupils of each school will more deeply realize that their school is not an isolated one, but part of a great system, first the parish, with its superintending head, Prof. Lyon, then of the State, with Supt. Harris as chief, and of the Nation with Commissioner Claxton at Washington, as their advisor and champion.

The rally will mean close preparation for contests in each school in a number of essential subjects. Spelling, reading, recitations, public speaking, singing, exhibits in nearly every branch of school work. It will be a stimulus to study, study with an object, the kind that gets results.

Again, it means a good time. The teachers are going to show their pupils beforehand how to be good hosts and good guests, good winners and good losers. Then all will meet to have a good time—and have it.

The Covington school will have contestants in the State High School Rally at Baton Rouge, which is held in May. It is probable that Slidell, also, will send over a team to the State rally.

It is hoped that each teacher in the parish will begin to work towards the success of the rally. Let us begin preparing now. Have spelling matches on Friday afternoons, alternating with speaking contests. Ask out your patrons. Get the children to practice jumping, running, etc., for recess exercises. Put them in training.

Terpid liver, constipated bowels and disordered stomach are the cause of these headaches. Take Dr. King's New Life Pills, you will be surprised how quickly you will get relief. They stimulate the different organs to do their work properly. Take 25c and invest in a box today. At all druggists or by mail, H. F. Luckien & Co., Philadelphia or St. Louis.

## ONE OF THE WORKERS.

In some way the name of Mrs. Victor Planche was omitted from the Cemetery Committee in our mention of the work of that committee, last week. We regret this, as Mrs. Planche was one of the hardest workers of that committee and was a great aid to the accomplishment of the wonderful transformation that has taken place there.

The presence of nitrates can only be accounted for by some slight vegetable decomposition which may be disregarded.

Respectfully submitted,  
GEO. B. TAYLOR,  
State Analyst.

State Board of Health, New Orleans  
Court Building, New Orleans, La.  
Certificate of Examination of Water and Ice for Passengers in Inter-State Traffic.

This is to certify that the water supplied the Yazoo & Mississippi Valley Railroad Company, at Covington, Louisiana, for use of passengers in interstate traffic has been examined and found free from organisms or materials liable to cause disease in man.

Date of Examination October 31, 1913.

Signed,  
GEO. B. TAYLOR,  
State Analyst.

## SCHOOL NOTES.

The fifth, sixth and seventh grades will give an entertainment Friday night at 7:30 in the school auditorium, for the benefit of "The Junior Literary and Athletic Society."

I wish to thank all the teachers who so kindly taught my grade during my unavailing absence.

SIXTH GRADE TEACHER.

## Thanking Program.

1. Reading minutes of previous meeting—Secretary Ruth Butts.
2. Roll call, answered by quotations.
3. Reading of President Wilson's Proclamation—Nona Weaver.
4. Piano Solo—Irma Bierhorst.
5. Reading of a Thanksgiving story—Luella O'Connell.
6. Thanksgiving recitation—E. Lawrence.
7. Piano Solo—Corlaine Poole and Francis Hooper.
8. Essay—The Best Thanksgiving—Elsie Ray.
9. Essay—Some of the Things We Should be Thankful for—Octave Smith.
10. Chorus—L. H. School.
11. Reading of Old Gold and White—Editor Bryn Burns, assistants, Lawrence Smith, Hattie Moses and Lilla Patch.
12. Critic—Miss O'Connell.

The honor roll for the week ending November 7, 1913: Adrienne Brewster, Edna Smith, Gertrude Sharp, Hattie Moses, H. G. Davis, Percy Thomas.

Spelling match won by Annie Schultz, Lucy Glass, and Thomas. Pupils of the fourth grade are doing excellent class work. They all seem to have the proper school spirit. We hope they will continue.

The high school basketball team last Wednesday afternoon played its second match game of this season, and the second time one of victory, defeating a pick team of St. Paul's College, day students with the close score of 10 to 7.

The St. Paul line-ups: Leslie Menestre, Edward Hinz, forwards; Albert Burns and Chris Schultz, guards; Sam Lassin center. High school: Leslie Anderson and Alton Smith, forwards; Lawrence Smith, Bryan Burns and Hubert Smith, guards; Burns and Albert Smith alternating at guard; Theodore Drew, center.

It was a fast game full of interest throughout. The Paul fellows did splendid work, it just couldn't put it on the high school.

Theo Drew led the way in his experience in basketball and deserves special mention for the manner in which he held up as an old hand at the business. Hie Lawrence Smith played his match game only this season; he score indicated that the other boys also played a fine game.

L. SAYS, Coach.

## SPECIAL TERM OF THE COURT OF APPEALS THIS DISTRICT.

The following case has been filed with the Clerk of District Court, Sixth Judicial District:

Ord.

A special term of the Court of Appeals, First Circuit of Louisiana, will be begun and held at the courthouse, town Covington, on Thursday, the 4th of December, 1913, at 10 o'clock, a. m., to hear and determine all appeals pending there in the parish of Washington and St. Tammy. The Clerk of Court will notify attorneys in interest, and also that cases from the parish of St. Tammy will all be heard on Thursday, first day of December, and those in Washington parish on Friday, 5th, 1913.

Amite, La., Nov. 1913.

STEPHEN GILLIS,  
Presiding Judge, Dept. of Appeals, First Cir., State of Louisiana.

## KING'S DAUGHTER MEETING.

There will be a meeting of the King's Daughters May, November 17th, at the rooms of M. C. B. Library, at 2:30 p. m.

MRS. D. DDISON,  
Leader.

## A GENTLE AND EFFECTIVE LAXATIVE.

A mild, gentle, effective laxative for what people and when suffering from constipation. Thousands swear by Dr. King's New Life Pills. Hugh Talm of San Antonio, Tex., writes they are beyond question, the pills my wife and I have ever taken. They never cause pain. Price at druggists or by mail, H. E. Luckien & Co., Philadelphia or St. Louis.

## HOW TO PLANT POTATOES AND DEM. FARM LETTER

G. C. LEWIS, FARM DEMONSTRATOR, GIVES VALUABLE INFORMATION.

WORKING UP THE DEMONSTRATION FARM

Its Accomplishment Means Much to Businessmen and Merchants, as Well as the Farmer.

In some neighborhoods the farmers are thinking of planting Irish potatoes to ship to northern markets, and I want to give these farmers a few hints on this very important crop. In the first place, you want to have the crop ready for shipment as early as possible, and to do this you must take the advantage of the following points:

1st. Plant only good, clean seed and to make sure that the crop will be free from scab. Treat the uncut potatoes with formalin or bichlorid of mercury. If you use the bichlorid of mercury method prepare by dissolving 3 ounces in 16 gallons of water and soak the potatoes in same for two hours, then allow them to dry before cutting. Do not allow stock to come near this solution as it is poison.

2d. Do not cut the seed pieces too small, this will give a greater number of weaklings—plants that do not make many potatoes. Bulletin No. 35, U. S. Department of Agriculture, gives the result of an experiment where pieces cut with only one eye made a gross yield of 87 bushels per acre while quarters with two or three eyes made 132 bushels.

3d. Do not use just any kind of fertilizer you come to, but use one that the potato will use to the best advantage. Get cotton seed meal. Get Kanit and acid phosphate and mix together one sack of each, then apply 800 to 1000 pounds to the acre. This formula is for ordinary sandy soil, and if land is very thin, increase the meal in the mixture.

4th. Spray the crop with Bordeaux mixture once when the vines are about 6 inches high, then again in 12 or 15 days. This will pay for the trouble and cost many times.

The average net profit from spraying in fifteen co-operative experiments carried out during the season of 1906 was \$13.83 per acre, in 1905 the net profit was \$20.00 in favor of spraying. In case you are bothered with bugs mix arsenate of lead (paste form) in with the Bordeaux and kill two birds with one stone.

The first point to be considered after the crop has been made is for the whole neighborhood to come together, if you are not already organized, and ship in car lots, but be sure and see that all parties ship only marketable potatoes, as a few bags of culls will cut the price on the whole lot a little.

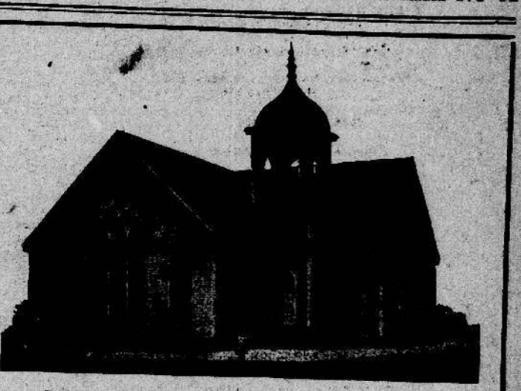

It is a fact that the average yield of Irish potatoes in this State is small compared to some other States where conditions are not any more favorable than here.

The Irish potato to do its best must have plenty of humus in the soil and a complete fertilizer, then with good preparation and cultivation it would be there is no reason why we should not make from 150 to 250 bushels of potatoes to the acre here every year. If you plant potatoes for a money crop you had better go at it in a businesslike way or the returns might be disappointing.

G. C. LEWIS,  
Farm Demonstrator.

## THE DEMONSTRATION FARM.

There can be no doubt that facts are more readily accepted than theories by man; seeing is knowing with him and once he knows it no man or company of men can change him. We must admit that there are lots of people right here in Covington who are "from Missouri," and are almost shouting "show me." Now then, if we could have a demonstration farm located as near Covington as possible, being fertilized with the particular soil needed, being properly planted and cultivated on the best methods known by scientific farmers and planted to such crops that thrive in this climate we could tell all our home-bred farmers about this country around here without fear of being doubted. We could "show him" what this soil will do when properly handled. We could tell him that money can be made here farming and back the assertion by the results ob-

BAPTIST CHURCH—Meeting Place of Convention.

## W. C. T. U. CONVENTION AT SLIDELL

DUST PROBLEM WILL SOON BE SOLVED IN TOWN

TAR PRODUCTS TO BE USED ON THE STREETS OVER TWO INCHES OF SHELLS.

LOUISIANA STREET TO BE NAMED JANCKE AVENUE

Will Be Shelled From St. Paul's College to Rutland Street.

Considerable improvement is being made in the streets of Covington. Commissioner Schultz has kept his men busy repairing and leveling and new shells have been put on some streets. The alleyway by the fall from Boston to Gilpin street, has been shelled and put in first-class condition. It is a great improvement.

Mr. P. J. Lacroix, chairman of the Town Improvement Committee, announces that Columbia street will be reshelled from the railroad to the river with two inches of shells and that this will receive a coating of "Tarmac," a tar product or composition that will keep the streets free from dust. Twenty barrels of Tarmac has been received for this purpose. If it proves to be as represented, all the streets will be treated in the same manner.

Another project for street improvement in the shelling of Louisiana street from Rutland to St. Paul's College. Mr. Jancke is expected to furnish the shells free for this paving and the name of the street will be changed to Jancke Avenue. If this is accomplished, there will be a regular belt of paved streets that will make a fine drive for carriages and autos.

A demonstration farm would help the real estate man more than all their advertising and talk, it would make a lasting impression on the mind of the homeseeker, one that facts only could produce. The farm would be of great value to business men in the long run by being the means of bringing in men who wish to till the soil; by demonstration the value of high grade fertilizer in the soil would cause a brisk demand for fertilizer, and in many other ways it would help the merchant.

This farm would be of great value to all farmers who are already farming. It would teach him many valuable lessons in agriculture that he would never know otherwise. It would indirectly raise the value of his farm in a few years. It would cause more of the young men to stay on the farm when they are needed and the country most good.

Let all who are interested in the development of this parish help to carry this thing through. Work to get it and we will have it. Talk demonstration farm everywhere, and then think to yourself in what other way could you be of service.

This farm should be owned and managed by the parish, or managed by the State would be better. The names of the committee temporarily acting are given below, and if you wish to write them about any question or anything that would be of benefit, please do not hesitate in doing so.

G. E. MILLAR,  
DR. W. L. STEVENSON,  
G. C. LEWIS.

## A CARD.

We wish to thank all who so kindly aided us during the illness and death of our dear brother, Reginald, THE DOSSAT FAMILY.

PROGRAMME OF THE WOMEN'S CHRISTIAN TEMPERANCE UNION TO BE HELD AT SLIDELL, LA., NOVEMBER 22, 23, 24 AND 25, 1913.

Saturday Morning, Nov. 22.  
9:00 a. m.—Prayer Meeting, Leader, Mrs. Norwood.  
10:00 a. m.—Praise Service, Leader, Mrs. T. D. Lipscomb.  
11:30 a. m.—Scripture Promises, Quotations by Delegates.  
12:30 a. m.—The Evangelist and Prayer, Mrs. James Robert, Slidell.  
10:40 a. m.—Soul Winning, Mrs. Neuhauer, Slidell.  
10:50 a. m.—Community Evangelism, Mrs. A. W. Stewart, Pollock.  
11:00 a. m.—Evangelism and the Ballot, Mrs. A. C. McKinney, Ruston.  
11:20 a. m.—How to Apply Scripture to Prohibition Work, Mrs. Lippcomb.  
11:50 a. m.—Song, Onward Christian Soldiers.  
Noon-time Prayer Service, President.  
Afternoon—Executive Meeting at 2:00 p. m.  
3:00 p. m.—Roll Call.  
3:10 p. m.—Roll Call of Promoted Comrades or Memorial Service, Leader.  
3:30 p. m.—Organization and Appointment of Committees.  
4:20 p. m.—Social Half-hour.  
Evening—Nov. 23.  
7:30 p. m.—Devotional, Mrs. McKinney.  
W. C. T. U. Welcome Song.  
7:50 p. m.—Welcome, Pastors of Slidell and Local Union. (10 minutes each).  
8:20 p. m.—Response and Address by Mrs. Norwood.  
8:50 p. m.—Song, Prohibition Dixie, Slidell Choir.  
9:00 a. m.—Personal Evangelism in the Overthrow of the Liquor Traffic, Rev. Franklin Talmage.  
9:30 p. m.—Free will offering.  
Announcements, Benediction.  
Sunday Morning, Nov. 23.  
11:00 a. m.—Devotional Exercises, Rev. Franklin Talmage.  
Address, Mrs. LaManche.  
Solo, Miss Ella Saliman.  
Usual Closing Exercises.  
Afternoon Services.  
3:00 p. m.—Mothers' Meeting.  
3:25 p. m.—Song, Tell Mother I'll Be True.  
3:40 p. m.—Young Peoples' Work, Mrs. Molly Stewart, Pollock.  
4:00 p. m.—Talk on L. T. L. Work, Mrs. Joel Durham, Winnfield.  
4:20 p. m.—White Ribbon Recruits. Dedication of Babies to the Temperance Cause.  
Song, Bring Them In.  
Benediction.  
Sunday Evening Service.  
7:30 p. m.—Song Service, Slidell Choir.  
8:00 p. m.—Usual Opening Service, Slidell Pastor.  
8:10 p. m.—R. L. Smith and Chants.  
8:25 p. m.—Address, Rev. A. W. Turner.  
9:10 p. m.—Song, "I'll Go Where You Want Me to Go."  
Free will offering.  
Benediction.  
Monday Morning, Nov. 24.  
9:00 a. m.—Executive Meeting.  
9:30 a. m.—Devotional, Mrs. Bertha Bradbury, Welsh.  
9:40 a. m.—Reports of District Secretaries.  
Reports of Corresponding Secretary and Treasurer.  
Department Superintendents, Health and Heredity, Medical Team, Mrs. W. H. McKinney, Monroe.  
Medical Contest, Mrs. E. E. Israel, Baton Rouge.  
Anti-Narcotics, Mrs. A. G. Bryce, Minden.  
Institutes, Tem. and Missions, Mrs. A. C. McKinney, Ruston.  
Pres. Mrs. S. A. Robinson, Alexandria.  
Rec. and Purify, Mrs. A. W. Stewart, Pollock.  
Purity in Literature and Art, Mrs. W. H. Webb, Minden.  
Curfew, Mrs. T. C. Willis, Pontchartroula.  
Juvenile Courts, Mrs. Alto Bennett, Lillie.  
Lumbermen and Mines, Mrs. Bertha Bradbury, Welsh.  
Temperance Literature and Union Signal, Mrs. Frederick Seip, Alexandria.  
School Saving Banks, Mrs. Florence Mehler, Baton Rouge.  
Mothers' Meetings, Mrs. Effie Pace, Athens.  
Fairs and Open Air, Mrs. J. E. Croom, Jr., Leesport, and Miss Nob Lee Taylor, Minden.  
Unmerited Wine, Mrs. J. R. Stanley, Alexandria.  
Legislation, Mrs. T. R. Price, Ruston.

(Continued on page 2.)
