Meridian, Miss., July 25, 1913. THE LOUISIANA MEDICINE CO., New Orleans, La.

Gentlemen: I had been suffering with pains in my lower limbs and back, and a soreness in my lower limbs and back, so I could scarcely rise from a stooping position for a period of three minutes. My feet would swell every day and burned constantly. After taking this medicine, Louisiana Lou, for less than two weeks the swelling has left my feet and lower limbs entirely, and the burning sensation and pain in back are entirely gone. I know this to be the best kidney remedy on the market, as I have tried practically all the standard ones without results.

We, the undersigned, wish to tender our most hearty thanks to all who contributed toward the success of our May Party, on the 21st. Most worthy of mention are: The Park Commission for the use of the beautiful Bogue Falaya Park, St. Paul's College, for their excellent band—the chief attraction of the evening; the many friends for their generous donations, and last but not least, all those who rendered actual service at the booths and other places. May God bless and reward them all. CHILDREN OF MARY.

THE TOWN ELECTION

(Continued from page 1)

put on the ticket.

Thursday afternoon, however, there were new developments, when the announcement was made that Emile Frederick and Ben Commenge were also in the race for aldermen. Their announcement was handed in to the Farmer for publication Thursday afternoon. Friday morning P. J. Lacroix announced that he had withdrawn from the old ticket and that a new ticket was in the field, composed as follows: For Mayor, P. J. Lacroix. For Aldermen: D. I. Addison, Louis David, Jr., L. A. Perreand, A. R. Smith, A. C. McCormack, W. H. Kentzel, Lacroix, Addison, David and Perreand were members of the old council.

Just how the split occurred is not brought out in any discussion in the caucus, but there seems to be an understanding that it was caused by an effort to reinstate Paul Dulong as marshal. Lacroix, Addison, David and Perreand were Schults men and composed a majority of the council. If one Schults man could be defeated and a new member could be elected who was in favor of Dulong it would become possible to oust Schults and make Dulong marshal. Hence the subsequent announcement that Frederick and Commenge would run broke up the arrangement to put the old ticket solidly in the field, and the new ticket was made up.

Mayor Marrero stated that he was in no way responsible for the break-up. That the ticket was agreed to and then botched. The new Marrero ticket is as follows, there being one name lacking at the time we go to press: For Mayor, Dr. F. G. Marrero. For Aldermen: F. J. Martin, Emile Frederick, Ben Commenge, Leon Hebert, M. P. Planche.

There will be a dance at the Garden District school house Saturday, May 30 (to-night). All are invited.

AN AUTO TRIP TO BILOXI.

Lacombe, La., May 20, 1914. Editor St. Tammany Farmer:

We, (my wife, three children and I) have just returned from an automobile trip to Biloxi, and thinking that possibly others might be interested in the route and the condition of the roads over which we traveled, will endeavor to tell you something of our trip.

From Lacombe we went directly to Indian Village, where we had the honor of being the first to cross Pearl River on the new ferry, which has just been put there by the McKeon Bros. of Starling. This was a delightful in the morning hours. The ferry boat is large enough to accommodate four or five cars like our Hupmobile, and being built of six flatboats securely bolted together, is absolutely safe as any one of them could easily carry an automobile, should anything happen to any of the others—which is very unlikely.

The scenery is picturesque, and to one who has never seen before it is very interesting. Starting on West Pearl River we went up to Mill Bayou, through this bayou four miles into West Pearl River, then through Grave's Ditch into East Middle River, thence through Shirlong Bayou to East Pearl River and down to the old mill near Pearlinton, where we landed.

From Pearlinton we went to Kiln, where we crossed the Jordan River bridge, thence through the little town of Fenton, then across Wolf River on Raush's toll bridge, and down to East End, Pass Christian, where we struck the beach with its fine shell road which we followed for 23 miles to Biloxi, making the whole trip of 103 miles, with the exception of about 14 miles on the ferry, in 5 hours, at a cost of \$1.00 for gasoline and 15 cents for toll.

We found the people of Mississippi enthusiastic about good roads, and through Hancock, Harrison and Jackson counties, wherever we went, the roads were excellent.

While in Biloxi we spent a night at Deer Island floundering and soft shelling and found an abundance of fish, crabs and oysters, which was a novel experience for the children.

GREAT DEMAND FOR TEACHERS.

While Louisiana is not making as much noise over its public schools as it did ten years ago, it is certainly making more substantial progress. Building fine school houses, voting school taxes, marketing large bond issues, organizing high schools, consolidating country schools—these and many other evidences of progress are to-day so common that they pass by unnoticed. So it is with the employment of trained teachers. Some years ago, the coming of a normal graduate into a community was heralded as a great event. To-day, no intelligent community or superintendent is satisfied with an untrained teacher. The reason is plain; other things being equal, they pay best because they give the best service.

Hence the demand for such teachers is greater to-day than ever before. Last year, the State Normal and Jackson at Natchitoches found splendid employment at good pay and in excellent positions for more than 300 normal teachers and 200 summer school students. This summer, the Normal School at Natchitoches will offer every kind of instruction that any public school teacher in the State can need. Present and prospective teachers should send to that institution for outlines of its courses.

TESTING THE FIRE ENGINE.

Chief Ostendorf made a test of the fire engine, Sunday, getting his supply of water from the tank belonging to H. J. Smith. This tank supplied for one-half hour pumping and lost but four inches in that time. It is calculated that the tank would supply water for an eight-hour fight. Two streams were used, with sufficient force to send water over the pecan trees near Mr. Smith's residence.
