COVINGTON, ST. TAMMANY PARISH, LA., SATURDAY, JUNE 6, 1914

VOL. XXXX NO 28

THE BIG MEET WILL BE HELD ON JUNE 12-13

TRACK SAID TO BE ONE OF THE FINEST IN THE COUNTRY.

ST. PAUL HAS SOME WINNERS

A Big Crowd Will Be In Covington and Gov. Hall Will Be In Attendance.

This track is not only the best in the South, but it is the best we have ever seen. That is the expression of the committee appointed by the S. A. A. U. to examine and report on the new cinder track built on the St. Paul College campus, at Covington, La., which was highly commendatory to Adolph Commenge, engineer in charge of construction.

Through the generous response of the merchants and residents of Covington, as well as the donations by lumber companies and other residents in different sections of St. Tammany parish, liberally assisted by the Fathers in charge of this college, a ten-foot high board fence has been built around this stadium.

Gov. Luther E. Hall will lend his presence to the occasion and on the opening day, Friday, at 2 p. m., formally open up the new track of the S. A. A. U., and immediately following which a grand parade of the contestants and officials will take place, with over two hundred in line.

Records Will Be Broken. It is anticipated that records will be broken in over half the events, as the lightning speed of the track should result in the lowering of nearly all the running events, the 220, 440 and 880 yards, mile and three miles, with the high class of athletes competing. Records are also expected to be shattered in the 120 and 220 hurdles, the broad jumps, hop-step-jump, shot put, hammer throw, discus, 56-pound weight, javelin, and possibly the running high jump and pole vault.

Breaks World Record. Harry Fitzpatrick, entered in the mile walk, has the distinction of holding a world's record in the walking line, and the home folks of Covington hope to do him honor in these events, for even while he is not an entry in the St. Paul College, insofar as the lightning speed of the track should result in the lowering of nearly all the running events, the 220, 440 and 880 yards, mile and three miles, with the high class of athletes competing. Records are also expected to be shattered in the 120 and 220 hurdles, the broad jumps, hop-step-jump, shot put, hammer throw, discus, 56-pound weight, javelin, and possibly the running high jump and pole vault.

St. Paul College Rules as Favorite. St. Paul is the favorite in both the Junior and Senior events, the race lying between them and the Y. M. C. of New Orleans, and the Birmingham Athletic Club, while Atlanta, Ga., Baton Rouge, La., and Mobile, Ala., all promise to make it interesting, as they are sending big delegations. St. Paul alone has 46 entries, with a like number from Y. M. C. of New Orleans, and the Birmingham club having fifteen for Senior day, and it is claimed to be the best collection that ever represented the "slab pile" brigade.

Junior day is the first on the card, and it was in this class that the St. Paul College won first honors at the meet held in Birmingham last year, a Junior being an athlete who has never won a first place in any of the S. A. A. U. events or any intercollegiate meet, and Coach Commenge confidently expects to repeat his performance of last year.

Remots from all the camps show records are being battered in the practice now being held daily, and the athletes who will compete in the Senior events this season are the greatest ever turned out in the South.

It is expected that all the merchants of the town will close their stores for a half day, and that the N. O. G. N. and the boats on Lake Pontchartrain will run excursions on these two days.

Every club will be furnished with a separate dressing room, which, with the splendid natorium at the school, called for special mention by the committee sent over to accept the track, and a new innovation of Foster Commenge in having erected a room for the apparatus right along side of the track will cause a pleasant surprise to the athletes and contestants, and with a view of expediting the events, a committee of ten boys from the college are being schooled for the quick placing of hurdles and removal of all apparatus from the field.

The entries for the events will close June 7th, and the games will start on each day at 2 p. m.

Events Scheduled and Records for Same. With a view of affording the spectators an opportunity of keeping up

with the events as run, the following list will show the schedule and the records of same under the Southern Amateur Athletic Union:

- 100 yard dash, 9 4-5 seconds. 220 yard dash, 22 2-5 seconds. 440 yard run, 51 seconds. 880 yard run, 2 minutes and 2 1-5 seconds. 1 mile run, 4 minutes 43 seconds. 3 mile run, 14 1-2 minutes. 120 yard hurdles, 16 2-5 seconds. 1 mile walk, 17 1-2 minutes. Running broad jump, 21 feet 9 inches. Hop-step-jump, 43 feet 10 inches. Running high jump, 5 feet 10 inches. Pole vault, 12 feet 1 inch. Shot put, 40 feet 4 inches. Hammer throw, 142 feet 8 inches. Discus, 118 feet. Javelin, 146 feet 8 inches. 56-pound weight, 30 feet 10 inches.

ABITA CLUB IS VICTOR OVER ST. PAUL'S TEAM

THE SECOND GAME LOST BY ST. PAUL'S COLLEGE OUT OF SEVENTEEN.

GAME WAS A PITCHER'S BATTLE

Several Fumbles Played a Good Part in the Score of the Game, as His Were Scarce.

St. Paul's College baseball nine met its second defeat of the season when it met the strong Abita team last Sunday. The game was a pitchers battle all the way. It was a closer game than the score indicates. Ivans pitched a one hit game for Abita, getting sixteen strikeouts to his credit. Delcambre pitched well for St. Paul, making twelve of the strike hitting Abita team take the strike out route. The college lads did not seem to be able to settle. In fact, they made wild throws to bases, fumbled easy grounders. Abita ran bases well and played good, aggressive ball.

Abita started to tally early. In the first inning Delcambre could not locate the plate so Meyers strove to first on four wide ones. Barville then laid down a nice sacrifice hit, sending Meyers to second. Childress then hit to Dugie, who fumbled, letting Meyers score and giving Childress life on first. Childress then stole second and went to third on Didier's wild pitch to Michelle. F. Viccaro fanned. Puig flied out to Cassagne.

Score: Abita 1, St. Paul 0. In the third inning Meyers again walked. He took second after Cassagne let Delcambre's throw get by him when the pitcher tried to catch the runner snapping off first. Banville laid down a nice nut to third. Delcambre fumbled, letting the batter reach first, Meyers going to third. He scored shortly after when Da fumbled Childress' easy grounder. Banville taking second. F. Viccaro again whiffed and Puig flied to Gueno.

Score: Abita 2, St. Paul 0. In the fourth inning, after Delcambre had passed J. Viccaro, he fanned the next three batters.

After Waterman and Fassman had dived easily in the seventh, Meyers got the first hit of the game. He tallied when Didier threw into center field trying to head him off at second. Banville perished, Delcambre to Cassagne.

Score: Abita 3, St. Paul 0. Childress opened up the eighth for Abita by fanning. F. Viccaro hit safely into right field for a single. Stole second and went to third on Didier's poor throw. Puig then laid down a nice sacrifice along the first base line, scoring Viccaro. J. V. Carr took first on being hit and promptly stole second. Ivans walked. Waterman popped to Landry.

Score: Abita 4, St. Paul 0. In the ninth Delcambre got a life on first when Ivans tumbled his slow grounder. Cassagne ran for third and stole second. He went to third on Lansing's sacrifice, Ivans to Banville. Dugas hit sharply to Banville. Cassagne scored while the batter was being put out at first. Board of Health Letter.

Covington, La., June 3, 1914. Editor St. Tammany Farmer:

The Municipal Board of Health is still alive, notwithstanding its apparent inactivity for the past few days. Re-inspections of different places were made during the week, and in almost every instance unsanitary and unsightly conditions that previously existed have been remedied. Notwithstanding the ordinances passed by our Board which seems unpopular is that of house-fumigation, and in the writer's humble opinion is one of the most protective safeguards against disease in this community. No one will doubt for a moment that this section has become a veritable Mecca for the third-stage consumptive, to such an extent that there is scarcely a residence in Covington to-day that has not been inhabited by some person suffering with tuberculosis. The first question asked our real estate agents by prospecting tenants is: Has this house been occupied by a sick person? The second is: Has it been properly fumigated? The first query must be truthfully answered in the affirmative, the second must carry with it the assurance that while tubercular patients have resided therein, the house has been infected and fumigated in accordance with the rules and regulations of the City Board of Health, and a "clean bill of health" signed by the Health Officer, should be produced by agent or owner to substantiate that fact.

The ordinance also provides that besides a fine for non-compliance, a list be kept on file by the Board for public inspection of all unfumigated houses. Therefore from a business standpoint every property owner should be eager to have houses immediately disinfected after removal or death of an unfortunate diseased tenant. Unquestionably a domicile so treated is more easily rented or sold, as the case may be.

Some raise the issue that the cost incurred should be paid by the occupant, and not the owner, as the former is the source of contamination. This impression is erroneous, for obvious reasons: such a menace cannot be legally considered a material damage against property; besides, in the majority of cases, the landlord is cognizant of the fact that the tenant is infected, and he at once assumes the responsibility by agreeing to rent.

Others claim for the sake of economy the fumigation could be done as efficiently by them at less cost. Having supervised this work on many occasions, the writer is firmly convinced that, for its proper execution, none but a trained man can possibly make it safe and effective, aside from being extremely hazardous and disagreeable to the fumigator. To paste papers over windows and cracks of windows and doors upon which an accumulation of infected dust rests, to wash floors where tubercular sputum has been carelessly deposited, is far from being an attractive job, and very few house owners would condescend to do it. His only alternative would be to employ an ignorant servant, whose crude method would make the work a "chore job" and thus continue the danger in a moderate degree. For floors and walls bichloride of mercury and carbolic acid hold first place.

Medical science has demonstrated that tubercle bacilli readily succumb when exposed to heat and light—in infected sputum in direct contact with the sun's rays are easily destroyed in five to eight minutes, and one tied, heat, darkness and moisture are conducive to their development and growth. Therefore it can be plainly seen that houses are more to be dreaded as hot-beds of infection than even the street, and are a greater menace.

The privy ordinance will be promulgated as soon as some satisfactory method can be found for the proper disposal of the refuse. Negotiations are now under way toward acquiring a small tract of land to be used for that purpose.

In conclusion, the Board wishes to convey an expression of thanks, through the medium of your progressive journal, to every one for the co-operative spirit manifested, with the assurance that their supreme interests will be safeguarded in all matters relative to sanitation.

Very respectfully, A MEMBER.

LACROIX WINS MAYORSHIP IN TOWN ELEC.

CLOSEST RACE IN THE HISTORY OF POLITICS IN COVINGTON.

CHANGE IN TICKET AT LAST MOMENT

Election Results in Controlling Vote in Council by Lacroix Faction With One Tied.

No election, since the time that Rapier ran for mayor, has created a situation so tense and full of excitement as that of last Monday, in Covington, but notwithstanding the hard fight that was being made it was conducted in a smooth and orderly manner, with rare instances of wrangling or abuse. The incumbents had been re-elected without an opposition ticket in the field, and had it not been for the split caused, as is generally understood, by the question of the marshalship, there would have been one ticket in the field at this election. But after it had been decided to put the old ticket in the field—in fact, after the Farmer had commenced the printing of its first page, it was announced that a new ticket would be made up by the withdrawing faction of the old council, and that the ticket would be headed by P. J. Lacroix, for mayor. This it was said was due to the announcement that two candidates would run independently; that they were supporters of Dullon for marshal, and in case of their election the council would have a Dullon majority. From that time the fight was on. A new ticket was gotten out, headed by Dr. Marrero for mayor, and it became ostensibly a Lacroix-Marrero fight. The Lacroix ticket gathered to its support that opposing faction that had desired to see a new ticket in the field and had yet not gathered political strength enough to encourage belief in victory. The split in the old ticket, the opposing faction and the interposition of the Schultz-Dullon interests in the fight made a situation that it would take a wizard to fathom. While the Lacroix faction seemed confident from the start that it was a winner, subsequent events proved that it was one of the closest, if not the closest, of all the elections held in Covington.

The polls opened at 10 a. m. Monday and closed at 4 p. m. Every out-of-town voter who could be gotten here by either faction was on hand to vote. The Lacroix ticket had a big roster printed at the head and the Marrero ticket had a small roster. When the tickets were folded these emblems could sometimes be seen through the paper and the size would indicate which ticket was being voted. Hence when the ballots were being cast it was frequently possible to distinguish which ticket was being voted, and the confidence of the Lacroix faction continued throughout the day. But when the counting of the ballots commenced it was seen that the scratching being done made even this indication unreliable, for while Lacroix beat Marrero by three votes there were two councilmen elected on the Marrero ticket and one, tied, Emile Frederick, who got 117 votes and who will be entitled to a run-off with A. C. McCormack, on the Lacroix ticket. Should this run-off be won by Mr. Frederick, however, the Lacroix faction will still control the council, as the mayor will have the deciding vote.

During the counting of the ballots Marrero started off the lead, but Lacroix finally passed him and kept several votes ahead throughout most of tallying, with an occasional exception when Marrero would get one or two votes ahead. When there were but three ballots left in the box the situation was most exciting. Lacroix was two ahead, with the possibility that Marrero might get the three votes, and when Lacroix got two of them a loud cheer went up from the crowded courtroom and the suspense was ended.

The vote stood as follows: P. J. Lacroix, for mayor, 118. For councilmen: L. A. Perreard 114, Louis David 98, D. I. Addison 128, A. R. Smith 128, A. C. McCormack, 117, W. H. Kenteel 124. F. G. Marrero, for mayor, 115. For councilmen: Emile Frederick 117, Ben Commenge 114, Leon Hebert 111, Maurice Planche 118, F. J. Martindale 118, James Connaughton 109. Lacroix, Addison, Smith, Kenteel, Planche and Martindale were elected, with a tie between McCormack and Frederick.

The result of the election will probably mean a change in some of the appointive offices. L. A. Perreard is spoken of as probable clerk, and it is rumored that several are after the night marshalship, but nothing has been given out officially.

HARVEST HANDS WANTED IN OKLAHOMA.

Charles L. Daugherty, State Labor Commissioner, Oklahoma City, Oklahoma, telegraphed Hon. W. E. Wilson, Secretary of Labor, on May 25, 1914, as follows:

"Would it be possible for you to communicate the needs of this State by way of men for the wheat harvest through any of the official channels of the State Department. We will need from twelve to fifteen thousand men from two to two and one-half dollars per day with board to help harvest our wheat and thresh same, and eighty-five per cent of men so employed will be given employment in this State by the farmers in handling the various forage crops which promise a big yield at this time, thereby guaranteeing from four to six months steady work. The State will maintain free employment offices at Oklahoma City, Enid, Alva, Woodward, Frederick, and other points in the State to help distribute the men, and any publication you can give this matter through your Department will be greatly appreciated by the citizens of this State."

Persons interested in obtaining work of this kind may apply to any of the State Free Employment Offices in the cities named in the above telegrams.

The Secretary of Labor has directed the Division of Information of his Department to send out the above notice in the hope that the needs of the farmers of Oklahoma may be supplied and idle men afforded employment.

ORGANIZATION OF CHRISTIAN ENDEAVOR SOCIETY.

Covington, La., June 3, 1914. It was a dusty ride from Sildell to Covington on Sunday, May 31, but it was not too dusty for the members of the Christian Endeavor Society of Sildell. About thirty strong they came in automobiles to assist the young people of our town in organizing a similar society.

The meeting was called at the Presbyterian Church and was presided over by Mr. Homer Fritche, president of the Sildell society. The meeting was one of inspiration, and the conclusion of the excellent program, the question was put as to whether a similar society should be organized at Covington. This was met by an enthusiastic response in the affirmative. The organization was immediately effected, and the following permanent officers were elected: Clyde Burns, president; John Houston, vice president; Miss Elise Diehl, recording secretary; Miss Anna Frederick, corresponding secretary; Lawrence Smith, treasurer.

The Christian Endeavor Society makes a place for the activities of Christian young people; it cultivates their friendship; it develops a nobility of character; it attracts them to the thoughts of religious things; and all this, in a way, appeals to them. Its efforts are interdenominational, and its opportunities are open to all interested in the Christian life.

The first regular meeting of the society will be held at the Presbyterian Church on Saturday, June 6, at 7:45 p. m. A cordial invitation is extended to all interested persons. No young person can afford to miss the benefit which are sure to come to those having a part in this society. A MEMBER.

HON. S. D. ELLIS ANNOUNCES.

Hon. S. D. Ellis has announced himself as a candidate for Judge of the Court of Appeals for this district. Judge Ellis was elected to serve as one of the judges of this court when it was created some seven years ago. During that time he has traveled over forty thousand miles, the performance of his official duties, and with the assistance of his two colleagues has decided over fourteen hundred cases, not over six of which were taken to the Supreme Court and reversed. He has never missed a term of court during his term of office, and is still blessed with good health. He is now 69 years of age. During his boyhood he served in the Confederate army for three years, and at the close of the war took up the study of law, graduating from the old Louisiana State University in 1868, since which time he has been actively engaged in the practice of his profession in the Florida parishes.

Judge Ellis is a man who is highly esteemed throughout the Third District and has many warm friends in this parish. He comes from a family of lawyers and is exceptionally qualified for the position which he now holds and to which he asks to be re-elected. There is no doubt that St. Tammany parish will give him a good vote, and it may do so with the assurance that its trust will not be misplaced.

REST AWILE LINEN SHOWER.

THREE TO ONE VOTE IN FAVOR OF GOOD ROADS

PROGRESSIVE SPIRIT OF ST. TAMMANY PARISH SHOWN BY VOTE.

SEVENTH WARD VOTES SOLID FOR

Biggest Opposition Shown in Mandeville, Which Folds a Strong Vote Against the Road Tax.

St. Tammany parish showed the progressive disposition of its people at the election for good roads, last Tuesday, and the seventh ward is the banner ward in the push to show that the people appreciate the necessity of this measure for placing St. Tammany in the front rank of the parishes that are fighting for advancement. This ward put in a solid vote for good roads, not a single vote opposing it. The vote by wards was as follows:

Table showing vote by wards for good roads. Columns: Ward No., For, Against, Amt. For, Amt. Against.

It is surprising that the fourth ward fought the tax so hard, as Mandeville is striving to be a summer resort, a place of pleasure, and its success depends so much on easy access and good drives from every section leading into it.
