RESOLUTIONS OF RESPECT TO E. P. SINGLETARY.

Covington, La., Nov. 10, 1914.

To the Worthy Matron, Officers and Members of Southern Pines Chapter No. 81, Order of the Eastern Star:

Your committee appointed to prepare a tribute of respect in memory of our deceased brother, E. P. Singletary, a charter member of our chapter, do submit the following:

1. Resolved, Whereas on November 8, 1914, it being the will of our Heavenly Father, Supreme Ruler of the Universe, to take from our Golden Chain one of our links; that he deplore the loss of this link, kept bright with constant usage for he whose personality represented this missing link was ever faithful to the obligations of our order.

2. Resolved, That we, who represent the remaining links, do bow in humble submission to Him who in His wisdom has taken this link unto himself, this the connecting link of the Angelic Chain of Choristers, who may sing praises to the Heavenly King throughout eternity.

3. Resolved, That we extend our sincere sympathy to the bereaved family and with the same send the comforting message: Your loved one has only fallen asleep to awake in the realms of eternal day.

4. Resolved, That a copy of these resolutions be spread on the minutes of our Chapter, a copy presented to the sorrowing family, and also that they be published in our local paper, The St. Tammany Farmer.

At the crystal river's brink, Some sweet day, by and by We shall find each broken link, Some sweet day, by and by.

Then the star that faded here, Left our hearts and home so dear, We shall see more bright and fair, Some sweet day, by and by.

MRS. L. A. PERREAND, MRS. D. I. ADDISON, R. H. WHITE.

COWS WITH LUMPY JAW.

I have three letters this week, one from Mrs. E. E. M., Tennessee; one from W. P. J., North Carolina, and one from B. C. N., Texas, complaining of "a strange disease that is affecting our cattle and home so dear."

correspondent writes that many cows in his neighborhood are affected in the same way.

All of the descriptions given so plainly indicate lumpy jaw that I am going to reply to all three in this one letter, as the remedies given are entirely suited to all. All of these letters were replied to the same day they were received, but remedies for lumpy jaw are so often requested that it may be of help to others to publish the remedies again.

Lumpy jaw in cattle can usually be readily cured if the animal is in good health otherwise, and the remedies are given when the disease first makes its appearance.

Give the affected animal one dram of iodide of potassium each morning and night for three weeks in bran mash.

In case the eyes begin to run water too much, stop this treatment for three or four days, then begin the remedy again.

Rub the lump once every week with the following mixture: One dram biniodide of mercury; one ounce of lard, well mixed together.

Keep this treatment up for at least three months, and the lump will go away by degrees.

Should the lump, however, become an open sore, put a small amount of powdered bichloride of mercury on the sore every three days.

This is intended to dissolve the core of the lump, and to materially help in the curing process.

Actinomycosis is known by several names, such as lumpy jaw, big jaw, wooden tongue, etc., is a chronic infectious disease, recognized by the peculiar tumors in various parts of the body, particularly in the head, and due to the specific action of a certain fungus, which is called actinomycetes. This fungus occurs in the tissues in the shape of rosettes, and on that account has been called the "ray fungus."

Thus lumpy jaw is not transmitted directly from one animal to another, but it seems quite plain that this fungus is carried into the tissues by various foods through slight wounds of the mouth or decayed teeth. This ray fungus is also found on grasses, on spears of oats, etc.—Home and Farm.

LOUISIANA RICE FOR THE BELGIANS.

Big Company Sells 10,000 Pockets to General Relief Committee.

New Orleans, Nov. 20.—Louisiana rice is being used in large quantities to feed the starving Belgians. The Louisiana State Rice Milling Company is now preparing a shipment of 10,000 pockets of clean rice, which will be shipped to New York Saturday on a Morgan line steamer. This rice was bought by the general relief committee, which has headquarters in New York. This is the second large consignment, the first having aggregated 25,000 pockets. The Louisiana company supplied the bulk of this consignment from its New York stocks.

This company has also been shipping a great deal of rice to Denmark and the other neutral countries in the Baltic, while the Cuban and Latin-American countries to the south have been coming into the market with heavy demands lately.

Some Interesting Figures
There are four banks in the parish of St. Tammany. In answer to the last call from the State Bank Examiner, under date of Sept. 22, 1914, the loans and discounts carried by these banks were as follows:
Covington Bank & Trust Co. \$393,799.54
Other three banks..... 342,753.13
And yet some people say our bank is "tight." We do use a good deal of caution in placing our loans, which we think is right and proper in order to protect the depositors, but there is never a time when our customers cannot come to us and get aid when their propositions are reasonable. The reasonableness of the proposition is passed on by our loan committee.
