MR. FARRIS OF THE N. O. G. N.

Wm. E. Farris, vice president of the New Orleans Great Northern Railroad, is a man to be considered in the future of St. Tammany parish.

The situation is simple as far as our mutual interests are concerned. We have made a strong fight for what we considered to be our rights.

A BUSINESS LEAGUE FOR COVINGTON.

A movement is on foot to establish a business league for Covington. The success of this movement depends upon the interest taken by the people who would be benefited by such an organization.

With the promise that the New Orleans Great Northern Railroad is about to enter upon a campaign of development; with the postoffice receipts showing a business that should entitle us to mail delivery.

Every citizen should attend the meeting May 19 and announce that he is one who is ready to fall in rank and join the onward march.

THE SINKING OF THE LUSITANIA.

Probably no president of the United States has been placed in such a trying position as President Wilson to-day. Holding in his hand the destiny of the Democratic Party, battling with the circumstances arising from a changed policy of administration and a world-wide war.

The sinking of the Lusitania and the sacrifice of so many lives is looked upon with horror by the civilized world. Even the known cruelty of warfare does not prepare for the realization that the years of advanced civilization have brought so little to us in humane consideration.

We have millions of German citizens, by birth or extraction, and we have learned to value them for their true worth. While it may not be expected that they shall not sympathize with Germany in the present war.
