MISS LILY MEEKINS INJURED.

Miss Meekins was quite severely injured in New Orleans this week, while alighting from a street car. She has done much creditable work and is very much loved by all who know her.

TO THE VOTERS OF ST. TAMMANY PARISH.

This is to notify you that the rumor that I had quit the race for Representative is untrue. I am in the race and with the aid of you and my friends expect to be re-elected. FRED. J. HEINTZ.

WINNERS OF FIRE DEPARTMENT PRIZES.

Following are winners of prizes donated for benefit of the the Covington Fire Department: Ham donated by Covington Grocery & Grain Co., awarded to H. J. Orsinger, No. 93. Ham donated by Mrs. Geo. H. Kent, awarded to Miss M. Meyer, No. 85. Ham donated by the Rathskeller, New Orleans, awarded to Mrs. Louis Fabacher, No. 122.

DISTRESS IN THE STOMACH.

There are many people who have a distress in the stomach after meals. It is due to indigestion and easily remedied by taking one of Chamberlain's Tablets after meals. "For some time I was troubled with headaches and distress in my stomach after eating, also with constipation. About six months ago I began taking Chamberlain's Tablets. They regulated the action of my bowels and the headaches and other annoyances ceased in a short time." Obtainable everywhere.

THE "RED WING" ENTERTAINMENT.

Following is an itemized statement of the receipts and disbursements of the entertainment given at the high school on December 15, at which time the play "Red Wing" failed to appear:

Table with columns for Receipts and Disbursements. Receipts include Door receipts (49.20), Lamp raffle (2.55), Grab-bag (2.00), Coffee table (1.90), Lemonade table (7.00), Ice cream and cake (20.00), Cash Donations (1.00), P. J. Lacroix (.50), Mrs. Bodebender (.50), Mrs. Ostendorf (.25), Frank Marsolan (.25), Leon's Pharmacy (.50), Smith Hardware Co. (1.00), Mrs. Weaver (.50), Mrs. L. M. Bourgeois (.50). Disbursements include Refund cash and tickets (5.20), Music (6.00), Billed ham (1.50), Bottling Company (1.70), Ice cream (3.75), W. H. Kentzel, printing (1.00).

Other Donations.

Cake—Mrs. J. C. Burns, Mrs. Zinner, Mrs. W. H. Kentzel, Mrs. E. G. Davis, Mrs. Hartwig, Candy—Mrs. Ellis, Mrs. Guntzel, Mrs. Del Corral, Mrs. A. R. Smith, Mrs. T. E. Brewster, Mrs. Young, 1 gallon milk; Mrs. J. C. Burns, 50c sugar; Mrs. Schenberger, 50c sugar; Jas. Connaughton, 3 cans cocoa; E. J. Frederick, 1 dozen lemons; N. H. Fitzsimons, 5 dozen lemons; Peoples' and Aquelle Bakeries, bread.

TO CURE CHILDREN'S COLDS.

Keep child dry, clothe comfortably, avoid exposure and give Dr. Bell's Pine-Tar-Honey. It is a pleasant, soothing, antiseptic, raises the phlegm and reduces inflammation. The first dose gives relief, continued treatment with proper care will avoid serious illness or a long cold. Don't delay treatment. Don't let your child suffer. Get a bottle today. Insist on Dr. Bell's Pine-Tar-Honey. 25 cents at druggists.

SCHOONER CALLA

Leaves for JACKSON (Gibson's) at 8 p. m. on the New Basin every Wednesday at 8 p. m.

Does at MADISONVILLE and COVINGTON THURSDAYS.

Returning, Leaves COVINGTON on Fridays and MADISONVILLE on SATURDAYS.

Special attention to shipment of Automobiles and Live Stock.

Service given by Schooner Calla is prompt and up to date, every precaution being taken to insure shippers' interests. We solicit the business of all who appreciate service of this kind.

Theodore Dandinger, Jr., Manager, Madisonville.

C. F. Dufour, Agent, Covington, La.

For Madisonville and Covington Schooner "Rosa A"

Will leave head of New Basin every Thursday at 2 p. m. Returning will leave Covington every Monday at 2 p. m.

St. Tammany Naval Stores Co. Owners Covington phone 175-1. New Orleans Warehouse phone Main 469. New Orleans Office phone Main 8916.

BEWARE OF CHEAP SUBSTITUTES.

In these days of keen competition it is imperative that the public should see that they get Chamberlain's Cough Remedy and not the substitutes sold for the sake of extra profit. Chamberlain's Cough Remedy has stood the test and been approved for more than forty years. Obtainable everywhere.

OF COURSE! You Are Going to Attend Services AT THE PRESBYTERIAN CHURCH Jan. 1-8 Every Evening at 7:30 p. m. Sunday Morning at 11 a. m.

ODDITIES OF FIGURE NINE

Writer With Spare Time on His Hand Has Discovered Some Really Interesting Facts.

There are some curious facts and fancies connected with numbers. The number 9 is, perhaps, the first as regards such experiments, although number 7 is more prominent in literature and history.

All through the multiplication table the product of 9 comes 9. No matter what you multiply with or how many times you repeat or change the figures, the result is always the same. For instance, twice 9 equals 18; add 9 and 1, and you have 9. Three times 9 equals 27; 2 and 7 make 9 again. Go on until you try 11 times 9—99. This seems to bring an exception. But add the digits—9 and 9 make 18; and again, 1 and 8 make 9. Go on to an indeterminate extent and the thing continues. Take any number at random. For example, 450 times 9 equals 4,050, and the digits, added, make 9 once more. Take 6,000 times 9, equals 54,000, and again you have 5 and 4.

Take any row of figures, reverse the order, and subtract the less from the greater—the total will certainly always be 9 or a multiple of 9. For example, take 5,071—1,705 plus 3,366. Add these digits and you have 18, and 1 and 8 make familiar 9.

You have the same result, no matter how you raise the numbers by squares and cubes. One more way is given by which number 9 shows its strange powers. Write down any number you please, add its digits, and then subtract the sum of said digits from the original number.—Exchange.

Bees Get Busy on Train. Returning from the Oregon hills, after spending several days in the mountains hunting, Mr. and Mrs. Edwin Bender brought, in addition to considerable game, a pasteboard box with a swarm of bees they captured in the woods, a Williamsport (Pa.) dispatch to the Philadelphia Inquirer states.

On account of the cold the bees were easily handled, but when they were taken into the steam-heated passenger coach of a Northern Central train at Trout Run they began to get busy, and in a few minutes emerged from numerous punctures that had been made to give them air.

In less time than it takes to tell, the passengers had all fled to the next coach, and the bees held the fort for some time. Finally the conductor put on a pair of gloves, made a dash into the car and, raising the window, tossed the box of bees out into the night, but not before he had been cased on the nose by a hot-footed one.

STOCKHOLDERS' MEETING.

There will be a meeting of the stockholders of the Covington Bank & Trust Co. in the banking room, at 2:00 o'clock p. m., on Tuesday, January 11, 1916, for the purpose of electing a Board of Directors for the ensuing year.

E. G. DAVIS, President.

NOTICE.

Notice is hereby given that there will be a meeting of the Parish Executive Committee at the courthouse in Covington at 12 o'clock noon on Monday, January 10, 1916, for the purpose of appointing clerks and commissioners for the primary election to be held January 25, 1916.

GEO. H. DUPSCH, Chairman.

DEATH OF MRS. CHAS. H. HALL.

Mrs. Chas. H. Hall, who was Miss Alice Morgan before her marriage, died in Hattiesburg, Miss., January 3, 1916. Interment was made in Chicago.

Mr. and Mrs. Hall were residents of Covington for some time, having come here some five years ago for their health. Mrs. Hall was a native of Hodgenville, Ky. She had quite a number of friends here who will regret to learn of her death.

CLEANING PRESSING AND DYEING

"THAT'S WORTH WHILE" New Method Laundry, Covington

The Christmas festivities closed Saturday night, January 1st, with a leap year dance given by Mr. and Mrs. E. M. LeBlanc, for their daughters, Misses Nora and Sadie. The school gymnasium was bright with lights and green foliage and the bright faces of the young folks and their pretty costumes made the scene a thing of beauty. Fruit punch was served throughout the evening. Many leap year features were enjoyed, the whole affair being a success.

Over one hundred invitations were sent out. Among the out of town guests were Miss Walsh, and Messrs. Herbert Ciann, Victor Mather, N. J. LeBlanc, of New Orleans; James Richardson, G. A. Smith, of Mandeville; Choppin Fisher, Mr. Richardson, of Slidell; Chas. Schmidt, Alphonse Cassagne, Alfred Aubert, of Abita.

CARD OF THANKS.

We wish to extend our thanks to all those who donated cakes for the entertainment given on Dec. 29, for the benefit of the Fire Department. MRS. H. J. OSTENDORF, MRS. M. MULLALLY, Committee.

Mr. Geo. A. Ryan, in establishing a news depot in the New Southern Hotel Building on New Hampshire street, is supplying a need that Covington would otherwise greatly feel. When Mr. Sanders left Covington the Acme News Depot was closed, leaving the town without any place where all newspapers and magazines could be bought. The inconvenience of this to readers who were in the habit of getting their magazines weekly was recognized by Mr. Ryan, who is a reader himself and a newspaper man, and he concluded to open the news stand he is now conducting next to the postoffice. His stock is being constantly enlarged and it is his intention to fully meet the requirements of the trade. Those readers who have not visited his store would do well to look it over. If their favorite magazines are not on hand he will cheerfully order them for you.

Typhoid at Lake Charles.

New Orleans, Jan. 5.—There have been reported from Lake Charles and vicinity seventy cases of typhoid fever, and the situation is such that Dr. Dowling left shortly before midnight Sunday for that city, with a quantity of anti-typhoid virus and other appliances to fight the disease. The report of seventy cases was made by Dr. Seeman, bacteriologist of the state board, who was sent to look over the situation. The local physicians have reported but fifteen cases, eight in November and six in December. Dr. Seeman, however, attended a meeting of doctors while in Lake Charles and learned of seventy cases. How many more there have been no one can say, for all the doctors of the parish were not represented at the meeting where he got the information. The state board has been at work on the matter for some time, with not much result, so far, which is the reason Dr. Dowling has gone to the scene to take charge. When the first case was reported to the state board, Dr. Dowling instructed Dr. Kinney, the district inspector of the state to look into the matter closely, determine the cause of the outbreak and do what was possible to check it. Dr. Kinney had been previously granted permission to take a vacation when the time was propitious, and during the progress of the epidemic he left to spend Christmas and New Year with his family at Paducah, Ky.

His conduct of the campaign was not at all to the liking of his superiors and Sunday a telegram was sent him at Paducah suspending him from his office, until he could give a satisfactory explanation of his conduct.

Facts About Furs.

Although a great number of popular priced furs masquerade under names that no actual animal claims as its own, there is no particular secrecy about it. One of the fur concerns, for instance, publishes a catalogue to inform customers just what they are actually buying. Alaska bear, for example, is the best Minnesota raccoon, colored a dark brown. Adelside chinchilla is the fur of a selected, soft-haired and delicately-colored Australian opossum; French ermine is the fur of the white hare of France; Baltic fox is the fur of a large hare of northern Europe; Iceland white fox is white Tibet lamb, combed until the hair is straight; Kamchatka fox is the fur of the northern timber wolf; Manchurian fox is the fur of a variety of half-wild dog from Manchuria; Baltic lynx is the large Belgian hare; Finland lynx is a species of Australian kangaroo; Siberian pony is selected Russian calf skin; Hudson seal is muskrat skins of selected quality; and inland seal is the skin of selected French white hare.

Framing a Children's Code.

The Missouri children's code commission appointed by Governor Major has organized its work of codifying all children's laws in the state, and of drafting needed new laws to be introduced in the legislature.

GREATEST FREE PORT

DISTINCTION GIVEN TO THE CITY OF HAMBURG.

Has Historic Background of the Highest Interest, Going Back for Centuries—Prof. Kennedy Tells Origin of Scheme.

The most impressive example of what a free port can be and what it is apt to promote is Hamburg, Germany. It is conspicuously foremost, and this despite the fact that Bremen is also a free port. These are the fatherland's biggest shipping centers, and Germany is a high-tariff country, and therefore in this economic particular much like the United States. The free port has a historical background dating to the days when cities stood apart from nations and in their independence held their gates open to the traffic of the world. Thus, as members of the Hanseatic league, Hamburg and Bremen flourished commercially more than five centuries ago. They managed in this fashion to stimulate trade otherwise endangered by the impositions levied by petty nobles.

As Professor Kennedy expresses it: "When Hamburg, Bremen and Lubeck joined the German empire in 1871 they retained their status as free cities. They belonged politically to the empire, but they were outside the German Customs union. In order to bring these cities into the German customs confederation Bismarck proposed a plan which gave origin to what we now know as free ports. The cities were taken into the customs union but the harbors were left free. "When Hamburg entered the German Customs union in 1888 she inaugurated the administration of her free port, which for five years previous had been in process of construction. The free port is situated on the River Elbe, directly abutting the city, which is 65 miles from the sea, and takes in the entire river for a stretch of five miles from Altona to Elbe bridge. The land area comprised within this zone was in 1883 occupied by 16,000 inhabitants, who were evicted when the land was condemned by the state. There is in the free port a land area of 1,325 acres, in addition to 1,370 acres of water area, all of which is shut off from the inland by means of a canal on the city side of the harbor and by means of floating palisades on the other side. The entrances to the city and to the upper and lower Elbe are guarded by customs stations."

It is therefore manifest that the free port of Hamburg is an isolated area capable of separate administration, and the existence of floating palisades and guarded entrances to the city makes it clear that the free port is purposely isolated so that dutiable goods cannot be smuggled into the municipality, while yet admitting every facility of access, ease of handling and preparation for reshipment abroad with minimum of red tape. In other words, a free port is primarily a halting place in transit, and is an elaborated development of the bonded warehouse as we understand it here.—New York Sun.

"I wish my wife understood baseball so that she could talk to me intelligently on the subject. I propose to keep after her until she learns." "I think you are on the wrong track. She doesn't expect you to understand military."—Louisville Courier-Journal.

Let Her Alone.

GOT IDEA FROM SUBMARINE

Inventor of the Microphone Tells How He Came to Think About the Scheme.

In the Popular Science Monthly and World's Advance, William Dubilier, the American electrical engineer who was called to Europe by one of the allied governments to devise a system of harbor defense against hostile submarines, describes the experiments which led to the adoption of a remarkable microphone submarine detector. Although it is impossible to see a deeply submerged submarine, Mr. Dubilier believed that there was a method of detecting its exact location in the water. In describing his experiments, he says: "Suppose that a submarine gave forth a sound of some kind, would it not be possible to devise some form of apparatus by which it could be heard? That was the starting idea of the experiments that I conducted for the allied government.

"At once the beating of the propellers of a submarine suggests itself. It is not characteristic enough. Motor boats, steamships and other power-driven vessels have propellers, and although their period of vibration is different from that of any other engine-driven craft, some other sound must be sought—something as distinctive as the call of a robin or the neighing of a horse, something that by no possible chance can be mistaken for another sound.

"I found what I sought in the world, shrill hum of a submarine. Others had heard the hum long before I began my experiments. It was taken for engine vibration. But it is much too high in pitch for that, as I found by actual tests.

"I soon convinced myself that the fine, shrill, almost singing note that can be heard when the Diesel engines are cut off and the submarine is traveling under power derived from her storage batteries is due entirely to her electric motors. The sound is unmistakable. Step into any central station where electric power is generated to light a city and you will hear the hum of a submarine. There is no difference to the ear. To devise a means of detecting this sound at great distances was the object of my experimenting.

At the Telephone.

The printed injunction: "Don't Jiggle the hook," is seen in conspicuous places all over New York city, having been placed by the telephone company in order that its patrons may learn that the way to get the best telephone service out of the system is to be manly and gentle with the apparatus. There are people who do not know that "central" does not respond promptly and properly the way to attract her attention is to move the receiver back up and down slowly, very slowly. If such is the hurried one's conduct a tiny electric lamp is flashed before the face of the operator. If the hook is jiggled rapidly there is no lamp lighted at all and the operator goes about her work serenely indifferent to the perturbed state of the person at the other end of the wire. By seeing a woman at a telephone when she is in a hurry—and at other times, too—one can easily gain an insight into her character. The querulous, cranky woman flying to pieces at the phone is frequently seen. She should have "Don't Jiggle the hook" framed over the telephone stand.

DODGE BROTHERS MOTOR CAR The motor seems like a thing of life, abounding in vitality—trigger-swift in the gliding get-away and splendidly free from the slightest jerk, or jolt. A reflection of this is the steadiness of the car—freedom from trembling and vibration in the tonneau which means so much in ease and comfort. The motor is 30-35 horsepower. The price of the Touring Car or Roadster complete is \$785 (f. o. b. Detroit). C. J. MOTT AUTO CO., Abita Springs, La.

Hats as Peace Tokens.

Here is a beautiful hospital story recorded by Rev. William Sellers in his new book, "With Our Fighting Men." A colonel's wife was making the round of a military ward when she noticed a wounded soldier trying with a German helmet. "Well," she said to the soldier, "I suppose that means that you killed your man?" "Well, naw," quietly responded the soldier. "You see it was like this: He lay on the field pretty near me with an awful bad wound and bleedin' away somethin' terrible. I was leatin' a lot of blood, too, fra my leg, but I managed to crawl up to him and bound him up as well as I could, and he did the same for me. Nawthin' of course was said between us. I knew no German and the other man not a word of English, so when he'd done, not seemin' too hoo-see take thank him, I just smiled, and by way of token handed him my Glangarry, and he smiled back and gave me his helmet."—Youth's Companion.

PROPER TREATMENT FOR MILTOUBNESS.

For a long time Miss Lula Skelton, Churchville, N. Y., was bilious and had sick headache and dizzy spells. Chamberlain's Tablets were the only thing that gave her permanent relief. Obtainable everywhere.
