BILIOUSNESS AND STOMACH TROUBLE.

"Two years ago I suffered from frequent attacks of stomach trouble and biliousness," writes Miss Emma Verbrake, Lima, Ohio. "I could eat very little food that agreed with me and I became so dizzy and sick at my stomach at times that I had to take hold of something to keep from falling. Seeing Chamberlain's Tablets advertised I decided to try them. I improved rapidly." Obtainable everywhere.

Approves Compulsory Education Law.

Folsom, La., Sept. 5, 1916. Editor St. Tammany Farmer:

We feel constrained to say something through your valuable paper in regard to the compulsory educational law recently enacted and now being enforced. This is a true indication of the up-to-date and timely progress that Louisiana is at last making.

One of the greatest needs of all times, and especially ours, is enlightenment, which can be more easily acquired through education along every line.

The compulsory law is one of the best laws and will effect and benefit more people of all classes than any similar law ever enacted in this State.

Of course, some good and well-meaning people will be and are opposed to it, but as soon as they can see the good results which it is sure to produce they too will properly appreciate it and assist in the enforcement of same. We speak from experience of twenty-five years ago when a boy. There was comparatively no public schools in the country sections of St. Tammany. Few could afford to attend the schools in the towns or elsewhere. Now, with a splendid system, which is being improved every year with good teachers, good up-to-date school buildings and methods of teaching which has not been surpassed, we are in line for the education and enlightenment of the present generation of school children and those to come.

There is no question but that mankind is entering a new era, which is to be the grandest ever known to man.

To fully introduce it and to inaugurate the better condition of things which is sure to obtain, we must lend all possible assistance in the education of the masses. Surely our day is the most favorable in many respects that man has ever been permitted to see. Certain great enemies or obstacles still remain in the pathway of progress, two of the foremost being ignorance and prejudice. The education of all classes will help to clear these away.

To cap the climax, the sacred word of God has foretold the present conditions of things. (Read Daniel 12:4.) The great Prophet of God foretold the events of our day, the greatest increase of knowledge and travel man has ever witnessed. Also in the first verse of same chapter he has foretold the great trouble which the old order of things would bring and we now see this upon the world. Also Jesus said that there would be distress of nations with perplexity. These things would not indicate the end of the world or the destruction of our planet, for Solomon said the earth would abide forever. (Ecc. 1:4.)

The truth is that a new dispensation has dawned upon us, during which the knowledge of God is to cover the earth as the waters cover the great deep.

Ultimately it will be seen that a true education will bring the possessor in a closer relationship with his Creator. Then, and not until then, will the desires of all nations come. (Hag. 2:7.) Of course, this will be the millennium.

Evidence is multiplying which, beyond any doubt to the Bible student of the times, shows the climax will be reached perhaps within the next few decades. Therefore, let us be found on the side of "riches, success and progress" lest we oppose the unalterable decrees of Jehovah.

We are glad to see the St. Tammany Farmer making for progress. Gratefully your humble fellowman, J. E. BLACKWELL.

The World's Most Powerful Low Priced Car

4 cylinder en bloc motor 3 1/2 bore x 5 1/2 stroke 104-inch wheelbase 4-inch tires Cantilever rear springs Streamline body 31 1/2 H.P. THE NEW SERIES 75 B Overland \$635 Roadster \$620 F. O. B. TOLEDO

This Overland is the world's most powerful low-priced car. It has a 31 1/2 horsepower en bloc motor that is a perfect marvel for speed, power and endurance. By increasing the bore of the motor from 3 1/8 to 3 1/2 we are able to offer a power plant which at 1950 R. P. M. develops full 31 1/2 horsepower. Tests under every condition in all parts of the country demonstrate that it easily develops better than fifty miles per hour on the road. Speed of course varies under different conditions, but in practically every instance it has been getting fifty miles an hour and with ease. We have scores of telegrams showing that twenty to twenty-five miles per gallon of gasoline is not unusual. The performance of this car is almost beyond belief. Take any other low-priced car on the market. Pit it against this new Overland. Compare them for sheer speed, for abundance of power, for riding comfort and economy, and you'll find this car will back anything else clear off the boards. That's a strong statement, but a fact nevertheless. Try it yourself and see. Here are more important facts. It has four-inch tires which are more than generous for a car of this size. Not only has it a large and roomy body, but it has an attractive, up-to-date streamline body. It has the latest and most improved system of ignition. It has the cantilever springs—the easiest riding springs in the world. What's more, it's complete! Not a thing to buy. You get the finest Auto-Lite electric starting and lighting system, magnetic speedometer, one-man top, demountable rims and practically every accessory found on the highest priced cars. It only goes to prove how big production can cut cost and save you money. First come, first served. Place your order now.

Old age comes quick enough without inviting it. Some look old at forty. That is because they neglect the liver and bowels. Keep your bowels regular and your liver healthy and you will not only feel younger but look younger. When troubled with constipation or biliousness take Chamberlain's Tablets. They are indicated especially for these ailments and are excellent. Easy to take and most agreeable in effect. Obtainable everywhere.

Prince Albert gives smokers such delight, because its flavor is so different and so delightfully good; it can't bite your tongue; it can't parch your throat; you can smoke it as long and as hard as you like without any comeback but real tobacco happiness! On the reverse side of every Prince Albert package you will read: "PROCESS PATENTED JULY 30th, 1907" That means to you a lot of tobacco enjoyment. Prince Albert has always been sold without coupons or premiums. We prefer to give quality! PRINCE ALBERT the national joy smoke YOU'LL find a cheery howdy-do on the top matter how much of a stranger you are in the next of the woods you drop into. For Prince Albert is right there—at the first place you pass that sells tobacco! The topper red tag tells for a nickel and the tiny red tag for a dime; then there's the hand- some pound and half-pound tin hand-dove and the pound crystal glass humidor with sponge-mustache top that keeps the tobacco in such bang-up trim all-the-time! in goodness and in pipe satisfaction is all we or its enthusiastic friends ever claimed for it! It answers every smoke desire you or any other man ever had! It is so cool and fragrant and appealing to your smokeappetite that you will get chummy with it in a mighty short time! Will you invest 5c or 10c to prove out our say-so on the national joy smoke? R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C. This is the reverse side of the Prince Albert tin and tin.
