

THOUSANDS OF DOLLARS WASTED ANNUALLY THROUGH NEGLECTED CARE OF FARM MACHINERY.

The Great Southern Lumber Company Will Assist You in Saving It.

The thrift and general prosperity of the farmer is indicated by the method employed in caring for his tools and agricultural implements.

In the year 1900 the value of all farm property, in the shape of farm implements and machinery, was \$749,775,970.00.

In 1910 this same value has increased to \$1,265,149,783.00, representing an increase of 68.7 per cent.

With so much capital invested in equipment, the farmer is certainly a bad business man if he does not take some steps to protect his tools and agricultural implements to reduce the depreciation and to increase its length of life.

The annual saving above referred to does not take into consideration the advantages that accrue in having a machine that will operate when it is called upon to do so.

The Great Southern Lumber Company, who are vitally interested in the agricultural welfare of this community, have arranged to furnish the farmers of Washington parish with the plans for an implement and tool shed, which is modern in every way.

The taking care of and the housing of farm implements and tools is an important question to each and every one of us.

The regular annual meeting of the stockholders of the Madisonville Bank will be held at the offices of the bank in Madisonville, Monday, September 25, 1916.

THEODORE DENDINGER, President.

HOW TO GIVE GOOD ADVICE.

The best way to give good advice is to set a good example. When others see how quickly you get over your cold by taking Chamberlain's Cough Remedy they are likely to follow example.
