**WANTED**—Reliable men to buy sacks. G. E. P. Murray, Agent, New Orleans, La. 10-11

**DANGER SIGNAL**

If the fire bell should ring would you run and stop it or go and help to put out the fire? It is much the same way with a cough. A cough is a danger signal as much as a fire bell. You should no more try to suppress it than to stop a fire bell when it is ringing, but should cure the disease that causes the coughing. This can nearly always be done by taking Chamberlain's Cough Remedy. Many have used it with the most beneficial results. It is especially valuable for persistent coughs that so often follow a bad cold or an attack of the grip. Mrs. Thomas Beeching, Andrews, Ind., writes: "During the winter my husband takes cold easily and coughs and coughs. Chamberlain's Cough Remedy is the best medicine for breaking up these attacks and you cannot get him to take any other." Obtainable everywhere.

Notice is hereby given that I shall apply to the town council of Mandeville, La., for the privilege of opening a colored barroom in said town on Kluber street, between Monroe and Montgomery streets, under a beer and wine license. E. H. BAUDOT. 10-11

**ARE YOU LOOKING OLD?**

Old age comes quick enough without inviting it. Some look old at forty. That is because they neglect the liver and bowels. Keep your bowels regular and your liver healthy and you will not only feel younger but look younger. When troubled with constipation or biliousness take Chamberlain's Tablets. They are intended especially for these ailments and are excellent. Easy to take and most agreeable in effect. Obtainable everywhere.

## PROCEEDINGS OF THE PARISH SCHOOL BOARD

(Continued from page 1)

new be put on. There is not a room in the building that does not have from one to six leaks, while the hall is simply flooded every time we have a rain.

On December 8th I visited Folsom and was surprised to find that the new school transfer purchased last year had not been well taken care of. Over half of the side rain curtains on both sides have been torn off and the balance are worthless. The cushions on the seats and the pads along the backs of the seats are coming to pieces and the curled hair with which these were padded is coming out in a number of places. Besides these things the iron rod of handle on the side of the back step is gone. I am certain that it would cost close to \$100 to put curtains and cushions, etc., back in the condition that they were. When these damages occurred or from what cause I am unable to state. Mr. Blackwell tells me that the wind blew the curtains to pieces and that the cushions came to pieces of themselves.

The other schools of the second ward are getting along as well as usual, and in most of them the attendance is much better than in former years, although it is not what it should be.

The Ramsay school is doing well, so far as I have heard, while the Covington school is doing better work than ever before. I regret to report, though, that a bad crack has developed in the outside wall, and I have asked the architects to come and inspect it. We will watch it carefully and report any conclusions we may come to as to the correct thing to do. When this house was built we thought we had one large enough to take care of the increase of children for years to come. I can report, however, that every room is now being occupied, and if this increase keeps up it will be a matter of only a year or two when additions will be needed.

In the fourth ward all schools are in session. The school at Lewisburg was opened because of the generous offer of Mr. David B. Smith to advance the salary of the teacher until the board is in such condition that they can pay him back. This school does not have desks enough to seat all the pupils. Several double desks have as many as four children in each.

The Houltonville school was opened before January because of the offer of the Houlton-Johnston Co., offering to advance the teachers' salary, as is being done at Lewisburg.

At Mandeville the attendance fell short of the required average for three teachers and after two months trial I removed one teacher, and gave her the Lacombe school.

I am glad to say that a general awakening of school interests is appearing in this fourth ward, and the new director and I are determined to do all we can to help this spirit along. You will be asked today to call a special election, giving the people of this ward an opportunity to vote upon the proposition of a central ward school at Mandeville, and a ward tax for maintenance of all of the schools of the ward.

In the fifth ward all three schools are getting along nicely. The attendance at Sun is not what it should be, and in some cases I feel the compulsory law will need to be brought into action in order that some people will be convinced that this is not a joke. The new rolling door at the Progress school has never worked well, and as some of you know was pulled in half some time ago when trying to close it. I have had the roller placed nearer the center of the door and a deeper groove made in the bottom. We found that the pin which acts as an axle for the roller was worn off and new ones will have to be secured. This fact is also true at the new Waldheim school. One cause for the trouble with these doors was that they had been dragged in the center.

**NOW'S THE TIME TO PREPARE MEATS WITH DUE CARE!**  
**PREPAREDNESS**

IF YOU'RE PREPARING to enjoy good health this season you should exercise discriminating care in the purchase of your meats. We sell meats that will meet with your expectations. The wholesomeness of the focus we sell will agree with your digestion and appetite. Our prices are just.

### PLANCHE & CHRESTIA Covington, La.

The schools in the sixth ward are all doing good work. At Audubon the resignation of the principal has caused the selection of a new man. At Talisheek the new building is completed and as soon as new furniture is installed, will be occupied. Because of our financial loss caused by the fire, we will not be able to fully equip this school this year. The school at Central deserves special commendation because of its attendance. Last year I was compelled to discharge two teachers and finish the year with one and an attendance below twenty. This year the average attendance is seventy. The school at Lacombe has the largest enrollment in the history of the town, and should it keep up, will be the largest of these there are not desks enough to seat those now asking for admission. All schools in the eighth ward are getting along nicely. The contract for the building of the Ridge school has at last been awarded Mr. Chas. Jenkins, for \$1263. We shall not open this school until the new house is completed.

In the ninth ward all is going as well as we could expect. The desks have arrived from the Bonfoux and Slidell schools and are now installed. The Slidell Shipbuilding Co. has agreed to stand the entire expense of a night school for those who are obliged to work in the day time. I feel that this is one of the best moves ever set afoot in this parish and that the people of Slidell should be deeply grateful to this company and to its Managing Director, Capt. H. B. Saunders, for their interest in the matter. The condition under which this school is being operated is shown by the following letters:

Slidell, La., Oct. 11, 1916.  
Elmer E. Lyon, Esq., Covington, La.  
Dear Sir:—As you may be aware, the Slidell Shipbuilding Co., Inc., has in its employ quite a number of boys under the age of 18 years and the desire of the management is to make some arrangement, if possible, to continue the education of these boys by night school. It has occurred to the writer that we might possibly arrange with the Board of Education for the use of one or two rooms of the public school building of this town, any expense for lighting and cleaning to be cheerfully considered by this company.

The teacher who will have charge of this school will naturally be one of the teachers now employed by the Board of Education. Will you please take this matter up with the Board and advise me as your earliest convenience, what can be done.

Yours faithfully,  
SLIDELL SHIPBUILDING CO.,  
Per H. D. Saunders,  
Managing Director.  
Covington, La., Nov. 29, 1916.  
Mr. H. B. Saunders, Manager Slidell Shipbuilding Co., Slidell, La.  
Dear Sir:—After consulting with a majority of the members of the St. Tammany Parish School Board, I am authorized to write you the following:

- Your company will pay for all extra expenses caused by this night school, such as salary of instructors, lighting, heating, and extra janitor's salary, as bill for fuel, and rent.
- The instructors shall be such as hold credentials, qualifying them to teach in the public schools of this state.
- The night school will use only the room mentioned above unless special permission is obtained from the Parish Superintendent and president of the board in advance, and the Slidell Shipbuilding Company shall direct the instructors to use the room or rooms of any school property or property of any pupil of the day school, during any session of the above mentioned night school. It being understood that the company will stand for any damage to the building or furniture, etc., other than the natural wear and tear.
- Enrollment shall not be limited to persons of any particular age but pupils of the day school will be received without the permission of the Shipbuilding Company.
- The State Law regarding suspension and expulsion of pupils from any public school shall apply to this night school.
- The Parish School Board reserves the right to cancel this agreement at any time.

ELMER E. LYON,  
Parish Superintendent.  
Slidell, La., Dec. 28, 1916.  
Elmer E. Lyon, Supt., St. Tammany Parish School Board.  
Dear Sir:—I enclose I beg to hand you a copy of a letter received from Prof. H. U. Baker, which speaks for itself. I will, personally, be responsible for the financing of this undertaking and getting it upon its feet in a practical way. I will not, however, move until such time as we have your approval. We would like to open the school not later than January 8, 1917. With kindest regards and wishing you the season's greetings, I remain, Yours faithfully,  
H. B. SAUNDERS,  
Slidell, La., Dec. 27, 1917.  
Capt. H. B. Saunders, Slidell, La.  
Dear Sir:—In compliance with your request of yesterday, I will send you what seems to me to be a reasonable and practically complete budget of expenditures for night school you wish to establish.

**RYAN'S** Southern Hotel Building  
Critical persons are more and more demanding Nunnally's Candy—the quality is there. Fresh consignment just received by express.  
**RYAN.**

**Budget.**

Teacher	100.00
Janitor	20.00
Fuel	25.00
Lights	7.00
Crayon	.50
Total	152.50

It is my understanding that you wish to have the school in operation in January immediately after the public school opens. This will be satisfactory to me and to the teacher I have selected for you.

As principal of the Slidell high school, I shall expect to observe and direct the work of this department as I do the various grades of the day school and be ready to offer suggestions or assistance to the teacher that may seem necessary for the better administration of the work. Further I shall expect the pupils of the school to be answerable to me in case of discipline that may be too strenuous for the teacher in charge. For the above, however, I shall expect no compensation.

For the curriculum I suggest: Arithmetic, English, spelling and writing. This will provide quite a sufficient amount of work to fit the two hours contemplated and it will be possible to develop and expand the schedule as demand arises. I suggest that the arithmetic be made very practical, that it consist mostly of the simpler and most fundamental part of the subject, and that an effort be made to secure strong analytical power from a large range of mental problems. This course should be one, in my opinion, that boys who left school in the third grade might, with proper effort be able to grasp, and still be a course of such worth that a high school boy might find it profitable.

The English, I suggest could consist of reading and Language, no formal grammar should be attempted, but a vigorous campaign against the common errors of speech should be waged. Further an attempt to develop an ability to write the usual forms of correspondence will be made. The reading and basis of language work might very profitably be the daily paper, and I suggest that the pupils be provided with one of the best composed New Orleans daily papers. This paper should be furnished to each of the boys, and they shall all have the same paper. I should hesitate to dictate the paper, as it may develop that a majority of the boys have certain dailies coming into their homes at present, and this could be made the basic reading and involve the smallest added expense or change of papers.

For spelling, the lists of carefully selected words sent out by the State Department of Education can be used with great profit.

For writing, the Palmer method of muscular movement writing just established in the schools, might be used profitably. The above suggestions are all tentative and may need considerable adaptation to the needs of the youngsters who present themselves for enrollment.

It is further understood that these or other arrangements shall be in conformity with the agreement made between the Slidell Shipbuilding Co. and Supt. E. E. Lyon, for the Parish School Board. Wishing you all success in this important work, I am,  
Yours very sincerely,  
H. U. BAKER.

Covington, La., Jan. 1, 1917.  
Capt. H. B. Saunders, Manager Slidell Shipbuilding Co., Slidell, La.  
Dear Sir:—I am in receipt of the copy of letter to you from Mr. H. U. Baker, principal of the Slidell High School, and am glad to say that his ideas as expressed in his letter are very acceptable to me. I feel perhaps it may be well to state that should the teacher selected for this night school be one of the regular day school teachers we will feel necessary to watch close in order that the extra work makes her efficiency less in the day work, because of having more than she can do. Of course we will consider her first duty to be to do good day work. You will please accept our personal appreciation for this public spirited work your company is undertaking, and consider me anxious to co-operate with you in any way possible. I shall make a complete report of our plans to the Parish School Board at their next regular meeting to be held at their next regular meeting on January 5, 1917. Very truly yours,  
ELMER E. LYON,  
Superintendent.

On December 6, 7, 8, Mr. C. J. Brown, Chief State Rural School Inspector visited this parish and at his request he visited the Madisonville, Pilegrim Rest, Union Grove, Waldheim, Progress, Sun, Onward and Folsom schools. At each school Mr. Brown conducted such tests and examinations as he desired and as are being conducted by the state inspectors in other parishes. The results showed that while we may not be worse than many parishes, still we have many children who should give more time to the simple operations of addition, subtraction, multiplication and division, in order that they may become accurate and more rapid.

In speaking of the schools in the second and fifth wards I forgot to state that the roofs of the Savannah Branch and Sun schools leak. Now, as the first mentioned is only about a year old and the principal of the Sun school states that it has leaked ever since it has been occupied, I feel that a grave difficulty stares us in the face. How are we to get good roofs? Both of these houses are covered with galvanized steel shingles, put on by a tinner and every precaution was taken by us to get a good job.

It was the understanding when you gentlemen voted to start the school transfer from the 3-mile still that the patrons along the road would purchase the purchase of the wagon. One was bought by our president and myself from Dr. N. M. Hebert for \$30. Thus far only one

## ST. TAMMANY BANK & TRUST CO.

Branch at MANDEVILLE, LA. COVINGTON, LOUISIANA

## LAMBOURGEON'S HOME FURNISHER

half of this purchase price has been turned over to me—to be exact I have received \$17.00 for this purpose. It will be necessary for you to decide today how this balance should be met.

I reported last meeting that the average deposits for last year would require the fiscal agent and your treasurer to increase their bonds. This has been done and the Covington Bank & Trust Co. now has furnished us with a bond from the United States Guaranty & Fidelity Co. for \$20,000.00, while I have given a bond through the same company for the same amount, and have deposited it with the State Treasurer according to law.

The matter of error in interest on Slidell special fund for year ending March, 1915, has been adjusted. I am pleased to report that the St. Tammany Bank & Trust Co. cheerfully gave us a check for \$139.84, when the error was called to their attention.

The short course in agriculture to be given by the State University will open on January 8 and run for about ten days. Mr. Guilbeau, the State Inspector of Agricultural Schools, is very anxious that the principal of the Sun Agricultural School be given the right to attend, and I recommend that you pass a vote today giving him this privilege.

I wish to commend the interest taken by Otis J. Rene toward a better school for the colored children of this community. He and his assistants are collecting money to be used for this purpose and the committee, in whose name the title to the present school rests, has agreed to transfer to this board this same property. This is to be done so that when ready a modern industrial school for the colored children can be built here in Covington. I also wish to give credit to the principal of the Slidell colored school, A. H. Colwell, for a splendid flag pole for his school. This is the second flag and pole secured through the efforts of this same man.

This is the time of the year when we should purchase the floor oil and disinfectant for another year, therefore if you desire any bought you should do so today. From time to time it is necessary for different school supplies to be bought. Sometimes you leave it to me and other times you do it yourselves. When you have had the kindness to do this you have relieved me of a great deal of trouble, but I feel that some one should be made the sole purchasing agent for the board. Should you agree with me I would be glad to have you appoint some one to look out for the buying of supplies as you may desire or need for the year to come.

Now that we must furnish such as rooms for the schools, I do not believe it is business-like to have these bought at retail when we could get them by one or two dozen lots and at wholesale prices. It does not appear to me to be business-like to have from fifteen to thirty different people buying school supplies, from the assistant teacher, the trustee, the neighbor on the up to the School Director and the Superintendent. I know that we cannot perhaps put into effect at once this idea of a purchasing agent, but I feel that we should work towards this end.

It has been our custom in past years to pay the Assessor his two per cent for placing the special taxes upon the roll, when the December collections were received in the early part of January. I have noticed recently, however, that the law says: "That the payment of this compensation shall be distributed between the State, parish, school boards, cities and towns and other taxing districts or divisions in proportion to the amount received by each."

Now as we cannot tell exactly how much is going to be collected until the end of the year, I feel that we will have to wait until the sheriff has made his final settlement for the year before we can pay this commission. For example, last year the assessor placed upon the tax roll in the ninth ward the amount of \$3154.54, and two per cent of that was \$63.09. The amount received by me was \$2717.75, and two per cent on this would be \$54.35, or a difference of \$9.54, which we overpaid.

I am informed by Mr. Frank Drebholtz that he has completed the job of removing ties from the school lands in the fourth ward, and I have received application from four men who desire to purchase the pine knots on this land. Should you desire to dispose of this wood I wish you would instruct your fourth ward director and perhaps your secretary to attend to this matter, with the advice of the attorney. I have received a letter from Mr.

C. J. Brown saying that it may be possible for us to receive help in the matter of building cottages for some of our rural schools for teachers to live in.

I have received from Mr. C. H. Murphy, principal of the Progress school, the sum of \$17.15 to be used for establishing a new library at that school and making an addition to one already there.

In February, 1916, I asked the teachers to save their best regular school work of certain kinds for exhibition at the Parish Fair last year. I was very much hurt to find that a number of teachers failed to do as requested, and I am going to ask you today to pass a resolution stating that the preparation and saving of such samples and specimens of school work as may be designated by the Superintendent shall be considered as belonging to the regular work of the teacher. The treasurer should be authorized to withhold the last month's salary until this work has been done.

On May 4, 1916, this board voted to sell to Mr. R. C. Cooper the old Sun school house and site for \$100 and take his note due January 1, 1917, bearing eight per cent interest. I have to report that this note was placed in the Covington Bank & Trust Company for collection, and the bank reported to me on the 4th of this month that the note was still unpaid, and that they had heard nothing from Mr. Cooper.

I would suggest that you pass such a vote today as you think best and be sure that you safeguard the school board's interests. I have received a petition from Oak Lawn asking for a school to be built there, and offering the site for the house. As you know the budget for this present year has been adopted but you are at liberty to do as you think just in another year. As you know the new school attendance law requires the children to walk as far as two and one-half miles, and as we have a two room house at Lacombe I know you will want to find out the distance this proposed school should be from the present one at Lacombe.

Again thanking you for your continued co-operation and many expressions of confidence, I beg to remain,  
Yours very truly,  
ELMER E. LYON,  
Superintendent.  
(Balance of proceedings will appear next week.)

### Parkview Theatre.

(Continued from page 1)

planning their presence in a room at the Marlboro Hotel. Of course their being there was all very innocent and quite accidental, but in a moment of panic Alice decided to lie her way out of the trouble rather than to explain the facts in the case. That was her first mistake—other confronted her with startling rapidity from that moment on as she tried to cover up the first lie with others. It all happens in "Miss George Washington" in which Marguerite Clark stars at the Parkview Theatre Sunday. It is her first appearance on the Paramount program since the signing of her new contract with the Famous Players Film Company and was directed by J. Searle Dawley, who has presided over all her more recent screen appearances.

"When Bernice and Mr. Trafton, who have been introduced to Alice's mother as "Mr. and Mrs. Gardner," do meet at the Altwood home, there is consternation on the part of the three deceivers until Bernice conceives the idea of staging a quarrel before the rest of the family in order to avoid the difficulties presented by a single guest room. Trafton has already been caught trying to retire for the night on a balcony leading off the guest room and when his supposed wife is discovered hiding in Alice's room matters reach a climax. This is nothing, however, compared to the furor which is aroused by the arrival of Paul Carroll, Bernice's fiancé, who comes just in time to find her in the embrace of Trafton because she has decided to enact a mock reconciliation with her "husband." These are a few of the complications which follow this one lie but they do not in any way outline the full humor of the story.

There will be two single reels of comedy extra. The admission price will be 10 and 15 cents.

**NOTICE OF REGISTRATION OF TAX DEED.**  
To Robt. Johnson: Whereas the undersigned has purchased at tax collector's sale for state and parish taxes for 1910, on May 20, 1911, the following described property, to-wit:  
Eighty and thirty-six one-hundredths acres of land, being the south half of the southeast quarter of section 1, township 9 south, range 14 east, situated in St. Tammany parish, La., same having been seized for payment of taxes assessed in the name of Robt. Johnson as owner thereof, according to the tableau and assessment roll for 1913.  
Notice is hereby given to whom it may concern that I have caused the said deed to be registered in the Conveyance Book of the official records of St. Tammany parish, in the Clerk's office, in Covington, La., as per tax deed issued by T. E. Brewster, sheriff and ex-officio tax collector.

**WOODMEN GIVE BANQUET AT SOUTHERN HOTEL**  
(Continued from page 1)

ladies were deprived of the pleasure of having their Commander with them. It was nearly 11 o'clock by the time all were seated at the tables, but every one was in a merry mood, and those called upon for talks all expressed sentiments of pleasure at being present. Mr. Evans said that as the lodges were separated by only a few miles, he thought there should be closer affiliation. He was delighted to be present and hoped that in the future the members of the two lodges would become better acquainted. He said that he would pledge a pleasant time and a warm welcome to this lodge should they visit Bogalusa. His remarks were welcomed with warm applause.

Consul Commander Deley, who presided, after a few words of welcome and the opening of the banquet by Clerk R. H. Dutsch, proposed a toast to the good old U. S. A. and flag, in words that were full of patriotic sentiment. The toast was drunk standing and met with enthusiastic applause. The banquet altogether was a very enjoyable and entertaining event.

Break your cold or lagrippe with a few doses of 666.
