RESULT OF EXAMINATION FOR DISEASE IN THE PUBLIC SCHOOLS.

Covington is noted as a health resort. Thousands of people have been benefited by her climate, by her waters of unequalled purity...

Being informed of statements to this effect, the Association of Commerce of Covington started a sanitation campaign, reorganized the board of health, invited prominent physicians of New Orleans and St. Tammany parish to a conference...

Among other things, it was decided to have the pupils and teachers of the Covington schools examined to ascertain if infectious or contagious diseases of any kind existed.

We advise the New Orleans parents who have expressed a dread of coming to Covington for fear of their children mixing with others infected with tuberculosis...

The people of Covington should be especially grateful to the physicians who have taken so much pains to aid us in our fight for perfectly sanitary conditions, and who in their efforts to purge all trace of disease from the schools have demonstrated that the disease does not exist there.

Covington is not only the healthiest place, but the safest place in the world. That is what brought one of the most successful sanitariums in the country here...

Covington cures tuberculosis, but it does not breed it. Our sympathy for the unfortunate afflicted has not allowed us to refuse to receive them, but we are not anxious to have them come.

THE HUMILIATION OF DISLOYALTY.

We have heartfelt sympathy for those States that have been unfortunate enough to be represented in the United States Senate by men so lacking in the sentiment of this country...

It is to be hoped the President may accept the legal advice that he has the power to act under the Constitution, regardless of the failure to act by Congress.
