HOW TO PREVENT COUGH.

With many people taking cold is a habit, but fortunately one that is easily broken. Take a cold sponge every morning when you first get out of bed—not too cold, but a temperature of about 90 degrees F. Also sleep with your windows up. Do this and you will seldom take cold. When you do take cold take Chamberlain's Cough Remedy and get rid of it as quickly as possible. Obtainable everywhere.

INSOMNIA.

Indigestion nearly always disturbs the sleep more or less, and is often the cause of insomnia. Eat a light supper with little if any meat, and no milk; also take one of Chamberlain's Tablets immediately after supper, and see if you do not rest much better. Obtainable everywhere.

Auto-Intoxication Causes Death

Do you know why you have sick headache, diabetes, neuralgia, rheumatism and liver or kidney troubles? It's because you are being poisoned by products of your own body. Your organs of elimination are not working properly. Waste material that should be thrown out is being retained to poison and intoxicate your system. That could not happen if the bowels were kept open with Granger Liver Regulator. This splendid preparation is purely vegetable and non-alcoholic. Demand Granger Liver Regulator at your drug store—25c a box—and take no other. There is nothing "just as good."

DANGER SIGNAL

If the fire bell should ring would you run and stop it or go and help to put out the fire? It is much the same way with a cough. A cough is a danger signal as much as a fire bell. You should no more try to suppress it than to stop a fire bell when it is ringing, but should cure the disease that causes the coughing. This can nearly always be done by taking Chamberlain's Cough Remedy. Many have used it with the most beneficial results. It is especially valuable for persistent coughs that so often follows a bad cold or an attack of the grip.
