Seven days are allowed registrants after receipt of the questionnaire to fill it out and return it to the local board. Officials believe that classification by the boards will be a routine process requiring little time. Best estimates indicate that Class I of the five classes into which all draft registrants are to be divided will contain more than 2,000,000 men subject to duty with the colors before any man in any other class will be called up.

It is regarded as practically certain that Congress will take up the question of extending the draft law to cover men who have attained the age of 21 since it was enacted. Should this be done and provision made for the registration thereafter of every man as he reaches that age, it is probable that perhaps 600,000 would be added to Class I automatically by next March. In that event no present plans for the army would reach the men in Class 2.

In this time of turmoil and strife, when every American citizen is called on to be loyal to his country, to conserve its resources and make sacrifices for the good of the country, it is our aim to help carry the burden of existence. We believe in our Country, we believe in our State, we believe in our Parish. St. Tammany parish is making history as well as the Nation and we consider ourselves an integral part of the parish.

Our large resources place us in position to serve our friends in time of war as well as peace.

AN OLD MAN'S STOMACH. As we grow older and less active, less and less food is required to meet the demands of our bodies. If too much is habitually taken, the stomach will rebel. When a man reaches the advanced age of 85 or 90, you will find that he is a light eater. Be as careful as you will, however, you will occasionally eat more than you should and will feel the need of Chamberlain's Tablets to correct the disorder. These tablets do not contain opium, but strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels.
