AN OLD MAN'S STOMACH.
As we grow older and less active, less and less food is required to meet the demands of our bodies. If too much is habitually taken, the stomach will rebel. When a man reaches the advanced age of 85 or 90, you will find that he is a light eater. Be as careful as you will, however, you will occasionally eat more than you should and will feel the need of Chamberlain's Tablets to correct the disorder. These tablets do not contain opium, but strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels.

The Northwestern Dental Co.

When you go to New Orleans to get your dental work done, be sure to call at the Northwestern Dental Co., No. 912 Canal street. You will find the finest and best equipped dental office in the South, under the management of Dr. L. A. Grewater. Moderate prices; first-class work is the motto. Everything strictly first-class, and ten year guarantee on all work.

FOR A WEAK STOMACH.
As a general rule all you need to do is adopt a diet suited to your age and to keep your bowels regular. When you feel that you have eaten too much and when constipated, take one of Chamberlain's Tablets.

SOUR STOMACH.
Eat slowly, masticate your food thoroughly, abstain from meat for a few days and in most cases the sour stomach will disappear. If it does not, take one of Chamberlain's Tablets immediately after supper. Red meats are most likely to cause sour stomach and you may find it best to get them out.

NATURE CURES THE DOCTOR TAKES THE FEE.
There is an old saying that "Nature cures, the doctor takes the fee," but as everyone knows you can help Nature very much and thereby enable it to effect a cure in much less time than is usually required. This is particularly true of colds. Chamberlain's Cough Remedy relieves the lungs, liquefies the tough mucus and aids Nature in restoring the system to a healthy condition. Adv.

GROCERS HELP IN 50-50 PLAN

Explain New Wheat Ruling to Thousands of Customers—Increase Greater Food Saving.

Grocers of the nation have accepted enthusiastically the 50-50 basis for the purchase of wheat flour and are doing their utmost to explain the new regulation to the housewife. This ruling by the U. S. Food Administration requires each purchaser of wheat flour to buy one pound of cereal substitute, one kind or assorted, for every pound of wheat flour. It was necessary to regulate the use of wheat flour in order that the allies and our fighting forces should not be deprived of an adequate supply of wheat to meet their needs. This supply must come from our savings because we have already used our normal surplus.

Some confusion has resulted on the part of the consumer in construing the "50-50" ruling to mean that an equal amount in value of substitutes must be purchased with wheat flour. This is a mistaken idea. The ruling states that the consumer in purchasing flour shall "buy at the same time an equal weight of other cereals."

One exception to this ruling is concerning graham flour and whole wheat flour, which may be sold at the ratio of three pounds to five pounds of wheat flour. This provision is made because approximately 25 per cent more of the wheat berry is used in the manufacture of these flours than standard wheat flour.

Another exception is that concerning mixed flours containing less than 50 per cent of wheat flour, which may be sold without substitutes. Retailers, however, are forbidden to sell mixed flours containing more than 50 per cent of wheat flour to any person unless the amount of wheat flour substitutes sold is sufficient to make the total amount of substitutes, including those mixed in flour, equal to the total amount in wheat flour in the mixed flour. For instance, if any mixed flour is purchased containing 80 per cent wheat flour and 20 per cent substitutes it is necessary that an additional 20 per cent of substitutes be purchased. This brings it to the basis of one pound of substitutes for each pound of wheat flour.

A special exemption may be granted upon application in the case of specially prepared infants' and invalids' food containing flour where the necessity is shown.

Some misunderstanding seems to exist on the part of consumers in assuming that with the purchase of wheat flour one must purchase the additional 50 per cent substitute to one of the substitutes. This is not the case. One may select from the entire range of substitutes a sufficient amount of each to bring the total weight of all substitutes equal to the weight of the wheat flour purchased. For instance, if a purchase of 24 pounds of wheat flour is made a range of substitutes may be selected as follows:
Cornmeal, 8 pounds; corn grits, 4 pounds; rice, 4 pounds; buckwheat, 2 pounds; corn starch, 1 pound; hominy, 2 pounds; rolled oats, 3 pounds.

These substitutes may be used in the following manner:
Cornmeal, 8 Pounds.—Corn bread, no flour; corn muffins or spoon bread, one-fourth flour or one-third rice or one-third hominy; 20 per cent substitutes in whole bread.
Corn Starch, 1 Pound.—Thickening gravy, making custard, one-third substitute in cake.
Corn Grits, 4 Pounds.—Fried like mush, used with meal in making corn bread.
Rolled Oats, 3 Pounds.—One-fourth to one-third substitutes in bread, one-half substitute in muffins; breakfast porridge, use freely; oatmeal cookies, oatmeal soup.
Buckwheat Flour, 2 Pounds.—One-fourth substitute in bread, buckwheat cakes.
Hominy, 2 Pounds.—Boiled for dinner, baked for dinner, with cheese sauce.
Rice, 4 Pounds.—One-fourth substitute in wheat bread, one-third substitute in corn bread, boiled for dinner (a bread cut), as a breakfast food, to thicken soups, rice pudding instead of cake or pie, rice batter cakes.

Several grocers have stated that their customers who strictly observe the 11 wheatless meals each week find it necessary to buy substitutes in addition to those ordered under the 50-50 plan.

A FAMILY MEDICINE
In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught, Relief From Headache, Malaria, Chills, Etc.
Ringgold, Ga.—Mrs. Chas. Gerhart of this place, writes: "I am a user of Theford's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of my children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."
Theford's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit.
If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious trouble may result.
Theford's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Be sure you get Theford's original and genuine. R 28
