A LETTER FROM C. SCHULTZ

(Continued from page 1) Give Mr. Mason my address, for the "Old Farmer" looks good to me, and write often as possible—I am homesick for some news from home. Just think, I haven't heard from home in over a month. I wrote cards to ever so many in Covington, but I get more mail from New Orleans than I do from there.

Again hoping this will find you all well, and write me a long letter of all the news of the past month—you can't make it too long.

CHRIS. COMMANDER IN CHIEF OF SERBIAN EXPEDITION NOT YET DECIDED ON.

Press interview of the Secretary of War, August 8, 1918: "I went West to confer with Gen. Graves. Gen. March announced to you yesterday that he was going to head the force to Vladivostok, and I had him meet me in Kansas City so that we might have a conference.

"While in the West I visited Leavenworth. I have always been very much interested in the problem there, and I am especially interested in it now, because with this very large increase in the Army of course the number of young men who are likely to go there for breaches of military regulations will be increased. I have long regarded Leavenworth as one of the most progressive and hopeful institutions for dealing with delinquents that there is in the world. I know no place where I think the discipline is more helpful than at Leavenworth, and the return of men to the Army through the disciplinary barracks is really just as fine a thing as I know of anywhere.

I do not know of any reformatory institution that does as fine work as Leavenworth. I saw the disciplinary battalion training, about 500 men sent to Leavenworth for various infractions of military law, and they are a body of the most splendid, supple-bodied, bright-eyed young men you can find anywhere.

Reporters Not Indispensable. "I do not see why conscientious objectors at Leavenworth; I think most of them have gone to Fort Riley.

"With regard to the question as to whether newspaper reporters are men engaged in nonessential work, I do not hesitate to say that the gathering of news is an indispensable industry, but whether a certain person is indispensable to that industry I think must be determined upon the facts. I think the question of his indispensability would depend upon the possibility of replacing him. I know the situation in Cleveland rather better than in most places, and there are on each of the newspapers there men of considerable years, beyond the draft age, and I should imagine there were a good many men in Cleveland who would be able to do pretty expert newspaper reporting. If you can get enough older men to take their places, the younger men would not be indispensable.

Serbian Expedition. Regarding the commander in chief for the Serbian expedition, the Secretary said: "I should suppose the ranking officer would be the Japanese general. I understand they are going to send a lieutenant general, and undoubtedly the officer of the highest rank will preside at any conference. Whether there will be any more definite command in chief I do not know. I infer from the President's statement that the size of the Japanese force will be approximately the same as our own.

"The enlargement of our military program was based upon a study of the subject made by the military representatives of the supreme war council, and recommendation from them.

"An announcement regarding the remaining parts of our enlarged program will be made soon.

"The Secretary of the Navy and I have discussed the question of extending the draft to cover the men needed for the Navy informally but no conclusion has been reached. I should not be willing to say anything on this subject except by conference and concurrence with him."

LIGHTLESS TWO NIGHTS ORDER

(Continued from page 1)

Heretofore orders and declares, until further order of the United States Fuel Administrator, and subject to modification hereafter from time to time and at any time.

1. No city, village or town and no person, firm or corporation under any contract with any city, village or town, shall use or consume any coal, oil, gas or other fuel for the maintenance of lights in the streets, parks or other public places of such city, village or town, except under the following restrictions and limitations:

(a) Street illumination automatically lighted, maintained by or for any such city, village or town, in the streets, parks or other public places thereof, shall not be lighted before sunset and shall be turned out not later than sunrise.

(b) Street illumination lighted by hand in any city, village or town shall conform as nearly as may be to the requirements hereinabove prescribed for automatic lights:

(c) The amount of public lighting in any city, village or town shall by only so much as may be necessary for safety, and the use of lights commonly known as cluster lights for purposes of display or decoration shall be reduced to such portion only of the cluster as is necessary for safety.

2. The Local Fuel Administration for the territory within which any city, village or town is located shall arrange with the proper municipal or town authorities of such city, village, or town for the regulation of public lighting in accordance with the provisions of paragraph No. 1 of this order. Regulations for public lighting so arranged shall in each case be subject to the approval of the proper State Fuel Administrator, and in case regulations in accordance with said paragraph No. 1 for the public lighting of any city, village or town, satisfactory to the State Fuel Administrator of the state within which the same is located, shall not have been arranged between the Local Fuel Administration and the proper municipal or town authorities hereinabove provided, within ten days from and after the effective date of this order, said Fuel Administrator is hereby authorized and directed to prescribe such regulations for such city, village, or town, and the same shall be valid and binding.

3. Out-door lights within a city, village or town, other than those mentioned in paragraph No. 1 of this order, shall be directly or indirectly, the use or consumption of coal, oil, gas or other fuel, shall not be lighted until thirty minutes after sunset.

4-a The use of light generated or produced by the use or consumption of coal, gas, oil or other fuel, for illuminating or displaying advertisements, announcements or signs, or for other external purposes, in any building shall be entirely discontinued on Monday, Tuesday, Wednesday and Thursday of each week, within New England and the states of New York, Pennsylvania, New Jersey, Delaware, Maryland and the District of Columbia, and shall be entirely discontinued on Monday and Tuesday of each week in all the remainder of the United States.

Exception: Bona fide roof gardens, flower beds, and outdoor restaurants, also establishments devoted exclusively to the exhibition of out-door moving pictures at which admission is charged, are exempt from this section.

4-b The use of light generated or produced by the use or consumption of fuel for illumination or displaying any shop windows, store windows, or any signs or show windows, shall be discontinued from sunrise to sunset and shall also be discontinued on the nights specified in paragraph 4-a.

5 The State Fuel Administrators within the several states are hereby directed and authorized to see that the provisions of this order are observed and carried out within their several states, to report violations thereof to the United States Fuel Administrator, and to recommend to him action to be taken with respect to such violations.

This order shall be effective on and after July 24, 1918.

Signed, H. A. GARFIELD, U. S. Fuel Administrator.

THE GERMAN BEATTITUDES.

It is not known whether the following creed was composed by a German or by a foreign student of Germanism. It has the ring of genuineness; it is not far-fetched or overdrawn. The military masters of Germany have acted upon this creed and the German armies, their disciples, has lived up to it.

"Ye have heard how in olden times it was said, 'Blessed are the meek, for they shall inherit the earth;' but I say unto you, 'Blessed are the valiant, for they shall make the earth their throne.' And ye have heard men say, 'Blessed are the poor in spirit;' but I say unto you, 'Blessed are the great in soul and free in spirit, for they shall enter into Valhalla.' And ye have heard men say, 'Blessed are the peacemakers;' but I say unto you, 'Blessed are the war makers, for they shall be called, if not the children of Jehovah, the children of Odin, who is greater than Jehovah.'"

THE FOURTH LIBERTY LOAN.

The campaign for the Fourth Liberty Loan will begin September 28 and close October 19. The result of the loan will be watched with keen interest in Europe, not only by our associates in the war against the Teutonic powers but by our enemies. It will be regarded by them as a measure of the American people's support of the war.

The Germans know full well the tremendous weight and significance of popular support of the war, of the people at home backing up the Army in the field. As the loan succeeds our enemies will sorrow; as it fails short they will rejoice. Every dollar subscribed will help and encourage the American soldiers and hurt and depress the enemies of America.

The loan will be a test of the loyalty and willingness of the people of the United States to make sacrifices compared with the willingness of our

W.S.S. Twenty Years Test Our bank has been in business just twenty years. We opened our doors for business the year in which the Maine was sunk and we sent our brave boys across the waters to Cuba, where they made short work with our enemies the Spaniards. Since then our Country has progressed, our community has progressed, our bank has progressed. During that time our resources have increased from \$15,000 to practically \$1,000,000. Relatively speaking, we have grown even faster than the resources of our Country at large. Our Country is now engaged in another war, a tremendous war. We have already sent more than a million of our best young men to fight on a foreign soil in order that civilization might not be destroyed. And our institution is glad to know that its large resources stand behind these men. Our bank, its stockholders and depositors all stand ready to sacrifice in order that our boys might fight successfully and be brought back to us in safety. COVINGTON BANK & TRUST COMPANY (ST. TAMMANY'S BIG BANK)

Stop Using Dangerous Drug Before It Salivates You! It's Horrible. You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels. Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tonic and take a spoonful to-night. If it doesn't start your liver and straighten you up better than another salve without gripping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tonic to-night and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.

A CLOSE SHAVE IN FRANCE. While on his way to a Y. M. C. A. but in France where he was booked to lecture, C. Grant Robertson, an Oxford professor, saw two houses struck by a shell. Both houses collapsed. Professor Grant's motor car stopped and a moment afterward another shell struck the ground at about the same spot which the car would have reached if it had proceeded. In a jiffy the car was off in a detour of the crater thus made, and the next instant a third shell dropped at the point which the car had just left.

ARMY VOLUNTEERING SUSPENDED BY ORDER OF SECRETARY BAKER. No candidates either will be considered for Officers Training Camps Pending New Legislation.

The following statement is authorized by the War Department: The War Department to-day has suspended further volunteering and the receipt of candidates for officers' training camps from civil life. This suspension will remain in force until the legislation now pending before the Congress with regard to draft ages is disposed of and suitable regulations drawn up to cover the operation of the selective system under the new law.

This action is taken in order to prevent the disruption of the industry of the country and the impairment of the efficiency which would follow the indiscriminate enlistment of men up to the age of 45. It is the intention of the department to present to the President for promulgation regulations in connection with the operation of the selective system which will make it truly selective and leave it to the Government to determine whether men can be spared from their present occupations for military service.

THICK, GLOSSY HAIR FREE FROM DANDRUFF. Girls! Try It! Hair Gets Soft, Fluffy and Beautiful—Get a Small Bottle of Dandruff.

If you care for heavy hair that glitters with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Dandruff.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fash, or loosen and die; then the hair falls out fast. Surely get a small bottle of Dr. Knowlton's Dandruff from any drug store and juts try it.

SECRETARY SUSPENDS NAVY AND MARINE ENLISTMENTS.

Secretary Daniels gave out this statement: "The large increase in enlistments in the Navy and Marine Corps has made it possible to suspend further enlistment until pending legislation affecting the draft for the Army is disposed of. When it is resumed it will be in full co-operation with the War Department under arrangement which will secure all the men needed for both services."

Secretary Daniels sent the following order to the Chief of the Bureau of Navigation and to the major general commandant of the Marine Corps: "Until further orders no enlistments or enrollments will be accepted in the Navy or Marine Corps. Please notify all recruiting stations and offices by wire to accept no new enlistments or enrollments. This order does not apply to those who on or before Thursday, August 8, had filed application for enlistment or enrollment or were being examined with a view of their acceptance."

LOUISIANA HERO PRAISED Y. WORK.

Lieut. Dave Ewing, of Baton Rouge, who met death in action in France a few weeks ago, graphically described in a letter received by a friend a previous engagement in which he participated. The communication, written a fortnight before Lieut. Ewing met death, after telling of the fighting, refers to the excellent manner in which the American troops are fed. "We are getting the finest kinds of meals up at the front," he said. "We have steaks for dinner that you would pay \$2.50 or \$3.00 for in the States. Our men are well clothed and looked after, and the Y. M. C. A. follows us right into the trenches with candy, cakes and tobacco for sale. Fred, my estimate of that institution has been elevated about 500 per cent since I have been over here. It is doing a truly wonderful work." The Y. is recruiting men now to "follow" U. S. heroes to the trenches, furnishing uniforms and defraying expenses of men having the proper qualifications.

SEAMEN INSURANCE.

Practically 80,000 officers and sailors on American owned and registered vessels trading in the waters where the German submarines operate have been insured by the Treasury Department. The aggregate of the policies total well over \$100,000,000.

This insurance is made compulsory by law, and since the submarines began to infest the American waters it applies to all vessels trading to or from our Atlantic and Gulf ports. Small fishing vessels are excluded.

LOANS TO OUR ALLIES.

The United States Treasury has extended additional credits of \$100,000,000 to France, \$90,000,000 to Belgium, and \$30,000,000 to Serbia. The total of credits advanced to our associates in the war against Germany is now \$6,492,040,000.

PREFERS CHAMBERLAIN'S

"In the course of conversation with Chamberlain Medicine Co.'s representative today, we had occasion to discuss in a general way the merits of their different preparations. At his suggestion I take pleasure in expressing my estimation of Chamberlain's Cough Remedy. I have a family of six children and have used this remedy in my home for years. I consider it the only cough remedy on the market, as I have tried nearly all kinds."—Earl C. Ryan, Publisher Hamilton County Republican-News, Syracuse, Kan. —Adv.

A COVINGTON WOMAN'S EXPERIENCE.

Can you doubt the evidence of this Covington woman? You can verify Covington endorsement. Read this: Mrs. A. M. Kohlman, 1922 Jackson street, says: "I believe exertion caused my kidneys to become weak and disordered, as I have often done work that I know was too heavy for me. I suffered awfully with my back. Dressing gowns pressed down on my hips and made it very distressing for me to be on my feet. I had severe headaches, my sight blurred and I was nervous. As another of our family had used Doan's Kidney Pills and had been benefited by them, I began taking them and they helped me, too. I felt perfectly well in about a week and any time I have needed a kidney remedy since, Doan's Kidney Pills have always brought the same, fine results. I gladly endorse Doan's."
