

St. Tammany Farmer

D. H. MASON Editor and Proprietor
Entered at the Covington postoffice as Second-Class Matter

VOTE FOR GOOD ROADS.

As we approach the time of election for good roads new developments speak more strongly than ever of the necessity for them.

Washington parish will issue \$700,000.00 for good roads. Tangipahoa parish will build good roads. St. Tammany parish will soon be surrounded with good roads branching in all directions and connecting with the big highways of the country.

Under these circumstances, would any man be justified in voting against a 3-mill tax for good roads to save a few dollars?

WOULDN'T HE LOSE A GOOD MANY DOLLARS INSTEAD OF SAVING A FEW DOLLARS, BESIDES HAVING THE HUMILIATION AND EXPENSE OF TRAVELING IN THE MUD?

Is there a man who is not willing to shoulder his gun and go out and fight for the protection of his country, his home and his family, even to the sacrifice of his life? WHEN YOU VOTE FOR GOOD ROADS YOU ARE FIGHTING FOR YOUR HOME.

The tax on a gallon of whisky is \$6.40. If there is any man who still pays this tax on whisky who will not vote for good roads because he is taxed 3 mills, we ask him to stop and think a minute.

There is not much doubt that the election will carry, because most people realize that not only the roads are needed, but money spent in construction and employment of labor in the parish will be a big thing at this time when unemployment is so hurtful and undesirable.

The good citizens of New Orleans may thank the Times-Picayune for exploding the bomb that blew up the disgust of the police grafters in New Orleans. The wonderful thing is, that such a condition could be possible without the knowledge of the chief officials.

If instead of trying to overwhelm Capt. Wilson for what is imagined to be a breach of ethics the officials will use his information, which seems so hard for them to obtain for themselves, the public may again have something to be thankful for.

POLICE JURY.

(Continued from page 1) taxes, etc., collected by me for above mentioned funds from the 1st day of March, 1919, to the 31st day of March, 1919, inclusive.

Dr. H. D. Bullock, interdiction of Mary Davis and Sarah Gomez \$25.00. Ed. Lacroix, serving summons, \$3. J. R. Elliott, conveying prisoners Sildell to Covington, \$10.00.

The following report was read:

SOME FACTS CONCERNING THE PROPOSED GOOD ROADS ELECTION TO BE HELD ON TUESDAY, APRIL 15, IN THE PARISH OF ST. TAMMANY.

- First—The Police Jury's proceedings in to-day's Farmer show that they have placed the building of these roads in the hands of a highly competent road commission composed of J. D. Grant, of Slidell; John Poitevent, of Mandeville, and Wm. F. Oswald of Abita Springs. Second—These bonds were sold in the face of the impending uncertainty of the stock market, for future delivery, at a premium of \$6,000.00 above par. Third—The proceeds will provide sufficient machinery and material to maintain these roads for years to come, without additional charges, out of the general parish road funds. Fourth—These roads will be surfaced with gravel or some equally durable road material, if it can be obtained as cheaply as gravel. Fifth—After the roads are constructed, competent district boards will be created to insure that each section of the parish will receive proper maintenance. Sixth—Each year the Police Jury is required by law to appropriate a certain fixed amount for every mile of hard surfaced road by naming the amount to be required and the road to be maintained, specially in the budget. Seventh—If conditions are the same, when the time for road building commences, as they are at present, the road building will be conducted by the Road Commission and not sub-let by contract. Eighth—Road building machinery and road maintenance machinery will be purchased and owned by the parish under control of the Commission. Ninth—New surfaced roads will receive Government aid and will be built according to Government requirements. Tenth—Any defects in the way of drainage or road beds now existing with some of the parish roads will be corrected before the said roads are surfaced. Eleventh—Traffic ordinances preventing the abuse of the roads, or the dangerous use of the roads, will be prepared and enforced from the time that the new building commences. Twelfth—The cost of maintenance of modern surfaced roads will be less than one-third of the cost of maintenance of the roads now existing in St. Tammany Parish. Thirteenth—The tax on the first year's assessment will not exceed three mills or three mills and a fraction. This millage necessarily decreases in subsequent years. An instance showing the decrease in millage is cited with regard to the 1914 bond issue for the present roads, which was two mills the first year. Next year it will stand reduced three-fourths of a mill. When the first tax for good roads was voted, the assessment of the parish was less than six millions. In the last four years, since these roads were put down, the property has increased in St. Tammany Parish to the value of \$16,000,000.00. Fourteenth—Do not follow half-baked opinions or be misled by statements of persons who have some selfish reason in opposing the good road movement. Fifteenth—Remember that Washington Parish has already voted one-half million for surfaced roads; that Tangipahoa Parish and other neighboring parishes are already bringing up surfaced roads to our line. We cannot continue to remain "stuck in the mud and hid in the dust" when all of our neighbors are progressing swiftly all around us. Sixteenth—For the information of the voters of the First, Third, Fourth and Tenth Wards, it should be understood that the First District Road Bonds voted August 27, 1918, have not been negotiated and that the tax now being collected will be credited on next year's assessment for these respective wards. Published by order of the Police Jury. F. J. MARTINDALE, Secretary.

PATECEK SAYS: "Milady Would Rather wend her way hither for a pair of pretty Boots than go to the Matinee" AND WHAT PATECEK SAYS IS SO.
