DEMobilIZATION OF "Y" MEN NOW AT A STANDSTILL

Only 400 Remain in Southern Department—Activity on Mexican Border.

San Antonio, Tex.—Demobilization of Army Young Men's Christian association secretaries in the Southern Military department has about reached a standstill for the present, according to J. H. Eckford, departmental supervisor of personnel. About four hundred wearers of the Red Triangle remain in the six states composing this department, more than six hundred having been released since the signing of the armistice. It is believed that, with the numerous camps in the department demobilized down to practically the smallest possible working force, coupled with the demands of the regular army men and the returning soldiers from overseas, there will be a need for at least four hundred secretaries for at least several weeks.

Seventy secretaries are serving the towns and outposts along the Mexican border, this phase of Y. M. C. A. activity having been materially enlarged since the armistice. Apparently 2,000 miles of border territory is now being covered, the greater part of it by itinerants in light delivery cars, in which the secretaries carry a full supply of books, stationery, portable motion picture machines, athletic equipment. In a number of the isolated villages where troops are stationed the Y. M. C. A. hut is the only entertainment feature and the soldiers share their privileges with the civilian populations. Every border outpost is now being reached by the "Y" men, and the work will continue as long as there are soldiers to serve.

Y. M. C. A. ENLARGES WORK IN RUSSIA

Doubles Personnel in Non-Bolshevik Sections—Large Sums Being Expended.

An urgent cable has been sent from Vladivostok to the Y. M. C. A. national war work council headquarters in New York requesting that 200,000 feet of up-to-date English comedies and dramas and an enormous repertoire of Russian titled films be rushed to that part in addition to 725 reels of committee on public information educational films.

In response to appeals made by the Omsk government and other allied authorities, the Y. M. C. A. has doubled its personnel in non-bolshevik Russia, and has enlarged the scope of its work proportionately. There are now 97 American Red Triangle workers in Siberia and 50 on the arctic front in European Russia. In addition there are more than twice this number of Russian and Czech secretaries.

The national war work council is now expending \$150,000 a month for Y. M. C. A. work among allied and American troops in Siberia, and an additional \$50,000 a month among the troops in northern Russia.
