GETTING STARTED.

Someone has said that "Getting the thing started is one-half of the success, and the other half is to get the thing done." Starting the thing into operation and doing it to a complete finish—that is the only road to successful results. This advice can be very well applied to saving. When a savings account is once started the battle is half won. The finishing is by far the easier half. It is certainly worth while to get a savings account started and keep adding to it regularly and persistently. Remember that a savings account is your best friend, and in time will take care of you. Peace, Comfort and Independence will be yours if you take the proper step now. No better time of the year could be found than the present, and no better year than this one. To-day is the best day. Start now.
