We Must Guard Our Girls

On the threshold of womanhood comes the crisis which means health or invalidism. Three generations ago an old southern doctor wrote a prescription for the ills of women, which has become known to fame as 'Stella Vitae'...

Saved An Operation

Mrs. W. F. NELSON, a merchant of Dixon, Tenn., says: 'That the daughter of one of his neighbors, Mr. James Roberts, was in such a condition with female trouble that an operation was advised, and the young lady was sent to Chattanooga for its performance. She dreaded the operation, and STELLA VITAE having been recommended, decided to try that first. She has taken six bottles and is happily on the road to recovery. She is able to do her usual work and is in better health than for years before, but continues to use it. She writes: "STELLA VITAE will do all you claim." Her father says "She began to improve at once, after taking STELLA VITAE."'

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from the bottom of feet. A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

INVESTING IN FOREST CROP

Less Actual Cash Called for Than in Any Other Form of Enterprise on Many Farms.

A forest crop calls for less actual outlay of cash in proportion to the final income than any other form of enterprise. An investment of \$10 to \$15 an acre, with a small annual carrying charge, in 40 to 50 years will produce a return equivalent to from 4 to 6 per cent compound interest for the period involved.

Indigestion

Many persons, otherwise vigorous and healthy, are bothered occasionally with indigestion. The effects of a disordered stomach on the system are dangerous, and prompt treatment of indigestion is important. "The only medicine I have needed has been something to aid digestion and clean the liver," writes Mr. Fred Ashby, a McKinney, Texas, farmer. "My medicine is

Theford's BLACK-DRAUGHT

for indigestion and stomach trouble of any kind. I have never found anything that touches the spot, like Black-Draught. I take it in broken doses after meals. For a long time I tried pills, which griped and didn't give the good results. Black-Draught liver medicine is easy to take, easy to keep, inexpensive."

Tire Mileage Increased and Cost Reduced—for Small Cars

You can buy Goodyear Tires today at prices which are no higher than they were ten years ago.

And from these tires you can now obtain more actual mileage due to advancements made by Goodyear in their construction since 1910.

The present cost of Goodyear mileage therefore is decidedly less and this fact applies to all the line, including the 30x3-, 30x3½- and 31x4-inch size Goodyear Tires built especially for small cars.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires—get exceptional mileage at very low cost.

30 x 3½ Goodyear Double-Cure Fabric, All-Weather Tread \$23.50
30 x 3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50
Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? \$4.50 30 x 3½ size in waterproof bag.

GOOD YEAR

Even the prisoner was satisfied

THE CASE was over. AND WE jury-men. WERE LOCKED in a room. AND ONLY one of us. WAS FOR conviction. AND HE stuck to it. ALL THAT day. AND AT supper time. WE FELT like sending. FOR ELEVEN suppers. AND ONE bale of hay. AND THEN all through. THE LIVELONG night. WE TALKED and fought. BUT NO argument. WOULD SATISFY him. AND MORNING came. A GRAY and cheerless dawn. AND OUR stubborn friend.

WAS OUT of smokes. AND I talked to him. AND GAVE him one. OF MY cigarettes. IT MAY have been. JUST A coincidence. IT MAY have been. BUT I rather doubt it. HE FINISHED the smoke. AS I finished my talk. AND HE said, "All right. YOUR ARGUMENTS. ARE LIKE your smokes. THEY SATISFY."

CHESTERFIELDS "satisfy." And yet Chesterfields are mild. With "body" enough to satisfy a cigar smoker, Chesterfields are mild enough to suit any cigarette smoker. They're mild and yet they "satisfy." That is doubtless why Chesterfields have so many friends among both classes of smokers.

ENGINE FOREVER BLOWS BUBBLES

Not Condensation of Gas, as Owner Thinks, but Lack of Vaporization.

LABORATORY TESTS AT AMES

Established That Carburetor Does Not Vaporize Gasoline, but Mixes It With Air—Adds to Tendency of Engine to Make Carbon.

If the motorcar owner could watch the flow of gasoline from the carburetor into the intake manifold, he would discover that his car, as one of the ditties of the day harmonizes it, is "forever blowing bubbles." He would find that what he thinks is condensation of gasoline is not condensation at all, but lack of vaporization.

The steam carburetor has a vital relation to this "blowing of bubbles" in the gasoline intake manifold, and it enables the intake manifold to accomplish a complete vaporization of the gasoline, eliminating what the owner thinks is condensation of gasoline. The steam carburetor, put to test at Ames, Ia., agricultural college, revealed there seemingly is no such action as condensation of gasoline in the intake manifold.

Merely Mixes Gas With Air.

These laboratory tests, made by Ames engineers, established that the carburetor does not vaporize the gasoline. All it does is mix the gasoline with air. This mixture then passes into the intake manifold.

In the center of this stream as it passes into the manifold the engineers observed a bluish, cloud-like vapor, while to each side of this was gasoline in sprayed form.

The gasoline sprays at each side of the blue vapor cloud were drawn toward the cylinders by the suction of the motor. As they passed in they presently struck against the wall of the intake manifold. At this point the sprays turned into tiny globules of gasoline or air—in other words, into bubbles. These bubbles cling to the wall of the manifold, finally being drawn into the explosion chambers in that form.

Waste of Fuel.

This bubble formation of the gasoline represents the average owner's waste of fuel. It also adds to the tendency of the motor to make carbon. The steam carburetor shoots hot, live steam into the manifold just above the carburetor proper, and this steam eliminates the bubble formation of gasoline and converts all the gasoline into vapor form.
