Dr. Dodson Warns Against Use of Treacherous, Dangerous Calomel.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea. If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you

up better and quicker than nasty sides, it may salivate you, while if calomel and without making you will wake up feeling great, full of money. If you take calomel today you'll be sick and nauseated tomorrow; be ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.—Adv.
