The DELTOR
(With Every New Butterick Pattern)
**That Saves You 50c to \$10
on Materials**

FIRST, the Deltor chart shows you how to lay out your individual pattern so as to save ¼ to 1½ yards of material. It is worked out for every width of suitable material, and in your own size.

AND THEN, step by step, you are shown just how to put your frock together. As you run your needle through the soft folds, you instinctively do the right thing, scarcely conscious of the fact that the Deltor is guiding your every stitch.

FINALLY, the Deltor tells you just how to achieve that charm that makes one's frock stand out as distinctive amid a most fashionable gathering. The finer points of finishing—the secrets of famous modistes—are all revealed to you in minutest detail, as applied to your own frock.

Each new Butterick pattern now has its own individual Deltor, to help and inspire you to create charming frocks of the alluring summer fabrics that await you here. Visit this exhibit of summer beauty tomorrow, and choose at attractive prices that demonstrate this store's leadership—both in style and ECONOMY.
