

**Is Your
Wardrobe
Just a
Little Wilted?**

WOULDN'T a frock of cool, crisp organ-dy, of misty voile or of candy-striped dimity freshen your wardrobe?

There are so many lovely colors to brighten up the rest of the Summer—our piece-goods department is fairly garlanded with lovely loops of clear-toned fabrics. And just as important as the fabrics themselves, augmenting our mid-season prices, is the news of a wonderful new invention—

The DELTOR

—with every new Butterick Pattern
Saves you 50c to \$10
on material alone

First, because of the Deltor's professional cutting guide, you buy from 1/4 to 1 1/2 yard less material than you ever used before. This cutting guide is worked out for your individual pattern, in your size, in every suitable width of fabric, no matter what kind of garment you are making.

Then, the Deltor shows you how to put your garment together with the skill and exactness of

an expert. Every step is planned by simple pictures. As you follow with your needle a creation grows beneath your fingers.

And finally, the Deltor imparts Paris's own touch in finish. It tells how to do those important little things that only the Parisian modiste could think of—those clever finishing touches that make your frock look as though it just stepped over from Paris.
