CHARTER OF THE
COVINGTON PAINT COMPANY,
INCORPORATED.
United States of America, State of Louisiana, Parish of St. Tammany.

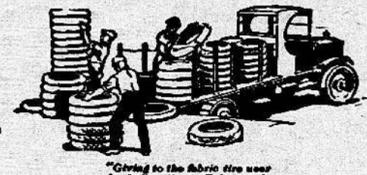

Before me, W. T. Blossman, a Notary Public, duly commissioned and qualified in and for the Parish of St. Tammany, State of Louisiana, personally came and appeared the persons whose names are hereto subscribed, who declared to me, Notary, that, availing themselves of the provisions and the laws of this State, relative to the organization of corporations, and more especially of Act 267 of the Acts of the General Assembly of the State of Louisiana, for the year 1914, they have covenanted and agreed, and by these presents do covenant and agree for themselves, their successors and assigns, to form themselves into a corporation and body politic for the objects and purposes, and under the stipulations hereinafter set forth, to-wit:

ARTICLE I.
The name and title of this corporation shall be
Covington Paint Company, Inc., and its domicile is hereby established at Covington, St. Tammany Parish, Louisiana; and under its corporate name, said corporation shall have power and authority to contract, sue and be sued, to make and use a corporate seal, and the same to break and alter at pleasure; to hold, receive, have, purchase, improve, alienate, sell, borrow, pledge,

THE U.S. USCO TREAD
Here is the U. S. Usco Tread, with a long-established standard of service among motorists who have an eye to value, as well as to price. While selling for less than the other tires in the U. S. Fabric line, the Usco has earned a reputation for quality and dependable economy which is not exceeded by any tire in its class.

From the makers of
U.S. Royal Cords
to the
users of Fabric Tires

In all of modern merchandising the biggest conundrum is the fabric tire situation.
Around 70% of all car owners use fabric tires.
Their instinct for quality is as strong and insistent as any one else's.
Why, then, are they offered such hodge-podge stocks of "discount tires," "odd lots," "seconds," "retreads" and other so-called bargains of uncertain origin?

People have gotten very close to the U.S. policy. Felt it. Benefited by it. And passed the word along.
It's a policy settled to one standard for all U. S. Tires. Whether fabrics or cords. Small sizes or large.
Giving to the fabric tire user fresh, live tires. Being made now. Being shipped now.
All the original U. S. vitality and service comes through when you buy a U. S. Fabric Tire.

Sooner or later the public always seeks out quality. As a matter of self-protection—if for no other reason. The out-and-out opinion in favor of U. S. Fabric Tires has spread more this year than it ever did.

"Usco," "Chain," "Nobby." Three different treads.
Built by the same brains, the same policy, the same quality ideals that have made U. S. Royal Cords the standard measure of tire worth.
