

"HE WHO LOOKS BEFORE HE LEAPS BUILDS UP CYPRESS AND BUILDS FOR KEEPS."

This is the time to sharpen your pencil for some close figuring on any building jobs ahead of you, new buildings or repairs to old ones. The very first question that will confront you will be—"What lumber shall I use?" There's only one answer to that—

"TIDE WATER" CYPRESS "THE WOOD ETHERAL" —"OF COURSE."

For farm houses, barns, outhouses, fences, walks, gallery supports, columns, rails, floors and steps, and all "exposed-to-weather" uses, no other lumber gives such ever-lasting satisfaction as Cypress, the "prized wood of the Southland."

Here is something else to remember, too.

For many uses the lower grades will answer just as well and save you some real money. Your lumber dealer will know what your work calls for and will advise you to

"Buy the Grade That Fits the Job."

Write us for list of FREE PLANS for farm buildings—but in the meantime insist on "CYPRESS and no substitutes" from your local lumber dealer—no matter for what purpose you buy.

TAKE MOTION PICTURES AT SHOOTING GROUNDS

The opening of the Public Shooting Grounds at Pass-a-l'Outre has attracted attention throughout the country, and sportsmen generally are much interested in the project, which is regarded as unique in the hunting history of the United States. So much interest has been aroused in the establishment of this hunting ground that Field and Stream, one of the leading sportsmen's papers of the country, determined to add to its series of motion pictures, hunting scenes the duck shooting at the Pass. To this end Hy. S. Watson, editor-in-chief of the magazine, recently came to New Orleans, accompanied by an expert cameraman, to take pictures.

The two went to the Pass, and two days later were followed by Commissioner Alexander, of the Conservation Department; H. H. Kopman, superintendent of the information division of the department, and Senator W. L. Bagwell, of West Carroll parish, in a hydroairplane. The party flew down the river 96 miles to the Pass in one hour and a quarter, and while they were there the cameraman secured some excellent pictures, which will be shown throughout the United States and abroad, wherever the series of Field and Stream pictures are presented.

After the pictures were secured from the ground, Mr. Alexander took the cameraman up in the plane and views were taken of the ground, showing its division into marsh, ridges, ponds and bays. These pictures will be of incalculable value to the Department of Conservation, as additions to the maps of the grounds already in its possession. Altogether the trip was a profitable one and will prove of much value to this latest addition to the sporting life of the State.
