

Constitution and By-Laws of the Idaho City Philharmonic Society.

SECTION 1. This Society shall be known as the Idaho City Philharmonic Society.
2. The officers of this Society shall be a President, Secretary, Treasurer and Steward.
3. It shall be the duty of the President to preside at all meetings of the Society, and to enforce order among the members at such meetings.
4. It shall be the duty of the Secretary to keep a record of all motions, resolutions and proceedings of the Society, and a list of the members thereof; and to keep and preserve the same in some book suitable for that purpose, together with the Constitution and By-Laws of the Society.
5. It shall be the duty of the Treasurer to collect and receive all initiation fees, and to make regular semi-monthly reports of receipts and disbursements; and to pay out all moneys received by him upon a vote of the members of the Society, or a majority thereof.
6. It shall be the duty of the Steward to keep the room of said Society in order, light the same and have it in readiness for comfortable meetings to be held therein.
7. The officers of said Society shall be elected by a majority vote of the members, and hold for the term of one month, dating from the 25th day of November, 1864, and monthly thereafter.
8. The regular meetings of said Society shall be weekly, on _____ evening of each week, and oftener, at and by any subsequent resolution of said Society; said meetings to commence at half past seven o'clock, each evening of said meetings.
9. Each member of said Society shall be entitled to bring a friend, or one invited guest at any meeting of said Society.
10. All persons admitted to this Society as members, exclusive of those whose names are hereunto annexed, shall be proposed by some member of the Society, and receive a majority vote of all members present at this meeting at which such proposition for admission is made.
11. All members of this Society shall pay an initiation fee of one dollar to the Treasurer before he shall be entitled to a membership.
12. All members of this Society shall pay a regular weekly assessment of fifty cents to the Treasurer, said assessment to be due and payable at the expiration of each week from the date hereof.
13. This Constitution and By-Laws may be amended at any time hereafter, by a two-thirds vote of the members of the Society, at any regular meeting thereof, upon one week's previous notice of such amendment being given.
14. It shall be the duty of the members of this Society to attend the regular meetings of the same, or render a satisfactory excuse therefor, and to preserve good order at said meetings.
Idaho City, November 26th, 1864.

It is a curious propensity in most dogs to howl at the moon, especially when shining the brightest. In the same manner, it may be observed that any eminent person who is striving to enlighten the world is sure to be assailed by the ferocious clamor and abuse of the bigoted and envious. This is a thing disgusting in itself—as the howling of dogs is an unpleasant sound; but still it is a sign and accompaniment of a man's success in doing service to the public. And if he truly is a wise man, he will take no more notice of it than the moon does of the howling of the dogs. Her only answer to them is to shine on.

VALUABLE "SECRETS."—The unpleasant odor produced by perspiration is frequently the source of vexation to persons who are subject to it. Nothing is simpler than to remove this odor much more effectually than by the application of such costly perfumes as are in use. It is only necessary to procure some of the compound spirits of ammonia, and place about two table-spoonfuls in a basin of water. Washing the face, hands, and arms with this, leaves the skin as clean, sweet, and fresh as one could wish. The wash is perfectly harmless, and very cheap. It is recommended on the authority of an experienced physician.

A TRAVELER confesses to have ridden forty miles with the sweet and interesting Mrs. Grimes, whom, notwithstanding his fastidiousness, he would have kissed, but for three reasons, which he thus gives: "First, I am such a good husband I wouldn't even be guilty of the appearance of disloyalty to my sweet wife; secondly, I was afraid our fellow passengers would see me and tell Grimes; third, I do not think Mrs. Grimes would let me."

POETRY.—Ebenezer Elliott says: "Poetry, like truth, is a common flower; God has sown it over the earth like daisies, sprinkled with tears glowing in the sun, even as he places the crocus and the March frosts together, and beautifully mingles live and death."

The question was recently proposed to a "down East" editor, "Are hoop skirts dangerous?" He immediately answered that "they are always dangerous when they have anything in them."

CARLYLE says that each man carries under his coat a "private theater," wherein is acted a greater drama than is ever performed on the mimic stage, beginning and ending in eternity.

An exchange, commenting on the fact that a number of Cincinnati young ladies have been married and carried away to other places, says no city has a better claim to supply "spare ribs" for the immense West.

A LADY in Connecticut gave birth to her twenty-first child last month. Her husband is as well as could be expected.

THE 9th, 19th and 29th days of every month have been adopted in San Francisco as the time of departures for steamships North.

ENERGETIC AND LUCKY.—There is a woman in Troy, New York, who has been married four times to soldiers since the war commenced, and is now a widow with four pensions.

WHAT medicine does a man take for a bad wife? He takes an E-L-I-X-I-R!

Description of Ledges at Owyhee.

RUBY CITY, Nov. 28th, 1864.
ED. IDAHO WORLD:—Since my last, I have been on an exploring expedition over the mountains, and as the snow has been continually falling for the last three days, it was a difficult undertaking to climb over the steepest and most rugged portion of the Owyhee mountains; but being determined to make the adventure, and examine some of the most famous ledges in this section, a long tramp brought me to the vicinity of the most noted ledge in the mines, and one which will, I apprehend, be as famous as the Gould & Curry of Washoe notoriety. I mean the

ORO FINO.
This lode is justly considered the first ledge in this section. It is so in every respect—in richness, extent, and the amount of labor performed upon it. I have seen rock taken out of the shaft of Moore & Fogus which would pay a man in the neighborhood of \$200 00 per day with a hand mortar; this, of course, is not a fair sample of the entire ledge. It is supposed that the work men have struck upon a rich chimney. This rock yields about \$11 00 per ounce, in gold; that is the value of bullion. The Oro Fino ledge crops out for a distance of nearly a half mile, and is about three feet wide; in some places it widens to five feet, and contracts again to two feet. There are about fifty men at work on various portions of the ledge, some tunneling, some sinking shafts, and others prospecting to find the extension of the ledge, nearly all, however, are getting out ore. Moore & Fogus are taking out splendid rock; nearly every piece taken out would be considered a specimen—the gold can be plainly seen all through the rock. This portion of the Oro Fino ledge appears to be the richest part of the lode yet struck. Moore & Fogus are crushing this ore now, and are piling up the bricks. The ore on other portions of the ledge looks well, and will no doubt pay handsomely; the deeper the work is being prosecuted the better the ore appears. The Oro Fino, as far as worked by Moore's mill, has netted between \$50,000 and \$60,000. This is encouraging and highly flattering and may be set down as the commencement of the new gold and silver era of Idaho Territory. The owners of this ledge can readily sell for \$100 00 per foot, and in less than a year may realize \$1000 00 per foot.
Here, also, is located another equally rich and equally fine looking ledge, which many disputes are likely to spring from. I am not capable of judging between the theorists of ledges; many claim the simple ledge theory, and, again, as many oppose it with apparently as good arguments, but to this ledge or spur, or whatever it may turn out to be. It is now popularly known as the

NONDESCRIPIT.
And is a ledge of about six feet wide, and has been followed up for a distance of several hundred feet; it is as rich as the Oro Fino and the ore resembles the rock of the Oro Fino exactly. I am informed that a portion of this lead is in dispute and likely to lead to a heavy law suit. An injunction, restraining the proprietors from further work on said ledge, was ordered by the District Court—case now pending.
Two other rivals to the Oro Fino and Non-descript begin to loom up in this quarter. They are respectively known as the

MONTEZUMA AND MINNESOTA.
The Montezuma is a large and well defined ledge, in a straight line south of the Non-descript, and is unquestionably a part or extension of said ledge. The rock resembles it in every respect. The owners are now at work sinking upon it with every prospect of success.

The Minnesota is a rich gold and silver ledge, but not much labor done upon it yet, beyond assessments. It is sure, in my opinion, to turn out a first rate ledge.

In this quarter, also, is the None-such and the Stonewall Jackson, good promising ledges in gold and silver. Many other ledges of lesser note are located here, but little of anything is known in reference to them. It will take time and capital to develop the richness of this quarter of Owyhee, but it will be done. There are many rich and well developed ledges here, in my next I will attempt to give a slight description of the most noted of them.

LAW & C.
Several Chinese have been hauled up for counterfeiting dust, and one of them has been bound over in the sum of \$1,500. It has been ascertained that "John" has been made the dupe of another party, but is suffering now for putting his confidence in the "American man."

PROVISIONS.
There is plenty of the staples of life in this camp, and more coming. Flour is worth \$24 00 per hundred; potatoes, 10 cts. per pound; sugar, 50 cts.; beef, 20 to 25 cts.; wood, \$10 00 per cord, and other matters in proportion.

BULLION.
J. M. Moore left here yesterday with three hundred pounds of bullion, from the Oro Fino, worth \$40,000. Minear's mill is crushing Allison rock; I have not learned with what success, but understand the rock looks well.

The snow is about a foot deep in town, and still pouring down, making things slightly disagreeable.
ONCE A WEEK.

SILVER CITY, Owyhee County,
November 16th, 1864.

ED. WORLD—Permit me, through you, to congratulate the people of Idaho Territory, of having our Democratic Press reared within her boundaries. The citizens of this Territory have, heretofore, been compelled to feed upon the garbage of Black Republicanism so long that many have already contracted fearful symptoms of political dyspepsia; but, at this last Territorial election such an effective purgation was administered, that it is hoped the body politic will convalesce, and by a careful Democratic regimen may regain its natural vigor and strength. The Democracy of this Northern Country should hail with rejoicing, the advent of a new era in the history of our Territory. It is rich beyond estimation, in mineral, agricultural and pastoral wealth, and what we most need is honest, sensible men to represent us in our home and national legislatures, and to properly execute our laws when made. It is confidently believed that our Delegate to Congress elect, will keep constantly in view the interests of this Territory. With proper legislative encouragement, our mines, when developed, will, doubtless, prove the most productive on the Pacific coast; and how dependent the East is upon us for a sound National Democratic currency. The people have become supremely disgusted with the fabrics of the New England paper mills with which to buy store goods. But if the mines are to be put up to the highest bidder and sold or leased, Wall Street brokers and Yankee capitalists will monopolize the entire mining interests from the Colorado to British

Columbia; and we, like the doomed convicts of Siberia, may ignominiously bow to the imperial ukases of Abraham I., and his thieving adjutors. Working men, you that wield the pick and shovel from day to day, under the scorching sun of Summer, and breast the freezing blasts of Winter, "Dost thou like the picture?" Go preach nigger equality and miscegenation, take greenbacks at par, work for those moneyed vampires in the East until your backs break, but don't repine; call it, rather, Liberty and Union! Already the die is cast that settles, for a certainty, the destiny of our nation. Nerve your backs for new burdens of war and taxation. The lightning driven message has arrived that tells us that millions of lives more are to be slaughtered, and billions of treasure to be expended; and what else is left but to pounce upon the mineral lands to raise revenue to sustain the squandering propensities of these one idea amalgamationists? The greatest wonder is, that Republican legislation has not enforced the Constitutional (?) right ere this. But woe the day, when the calamity overtakes us.

LOCAL ITEMS.
In this department, I have little to communicate. This camp, I suppose, is about as quiet as places are generally, occupying the same altitude at this season of the year. Old Boreas got up a squall yesterday, (15th,) on rather a grand scale; snow flies, and wind blows hugely. Little is done save preparing firewood, cooking grub, etc., necessary to keep the corpus in running order. Now and then a free fight is gotten up to amuse outsiders, and give circulation to strychnine whisky. Nothing serious, however, has occurred in that line. The M. M. mill is grinding out quartz and doing a good business. So far as the rock has been tried from the different ledges, it proves favorable. A little more competition in the mill business, and experience on the part of the operators will, doubtless, prove beneficial to the interests of this mining community. The prices charged for crushing, at the mills already erected, are from \$50 to \$100 per ton. Whether those prices are exorbitant, is respectfully left to those having more knowledge of the business than the writer of this article.

OWYHEE.
WRITE upon a piece of paper with a certain kind of ink, and the writing will be invisible until brought out by being held to the fire. And thus a man may have secrets written in his bosom that can be read by no one till the pouring of a fiery liquid into his stomach exposes them all.

An enterprising quack has managed to extract from sauses a powerful tonic, which he says contains the whole strength of the original bark. He calls it the "sulphate of canine!" He anticipates a great popularity from it.

Public Notice.
THIS is to certify that we have lost, or had stolen from our possession, a certain NOTE, or due bill, given in Idaho City, T. T., by Hemingway & Landon, in favor of Carter & Co., on or about the last of Sept., or the first of Oct., 1863, and given for or about the amount of \$1645.00. This notice is to warn all parties not to negotiate for the above mentioned note or due bill, and we fully cancel the above obligation and release the said Hemingway and Landon, or either of them from the payment of said note or due bill.
G. W. CARTER & CO.
Buena Vista Bar, I. T., Nov. 23, 1864.

William McGroarty
OFFERS FOR SALE ONE OF THE LARGEST stocks of merchandise ever offered to a discriminating public, and at prices which will defy competition—viz:
Flour, Soap, Sugar, Beans, Can Fruits, Hams, Peaches, Clothing, Apples, Tobacco, Coffee, Boots, Candles, Shoes, Nails, Quicksilver, Shovels, Butter, Spades, and Cheese, Etc., Etc.
