

IDAHO WORLD.

IDAHO CITY, I. T. THURSDAY, NOVEMBER 2, 1871.

SENSIBLE COURSE.—The Radical members of the Council in the Washington Territory Legislature were somewhat disgusted at the course pursued by the Democratic members in the organization of that body.

CHINAMEN HUNG IN LOS ANGELES.—A terrible riot took place in Los Angeles, Cal., on the evening of Oct. 24th, originating in a peace officer attempting to arrest a Chinaman for shooting another, when he was resisted by the Chinamen, and on calling another man to his assistance, the Chinamen commenced firing upon them from both sides of the street.

THE SOCIAL EVIL.—The National Police convention, which was recently in session in St. Louis, adopted a resolution, declaring that the treatment of the social evil by the legal authorities in St. Louis has worked beneficially, and they recommend its general adoption by other cities as a mode which has proved salutary in its effects upon society, and has tended to ameliorate the condition of the unfortunate class without working any prejudice to the morals of the community.

WALLA WALLA RAILROAD.—The question of granting a subsidy to a company to build a railroad from Walla Walla to Wallula having been defeated by a small majority at the special election at which it was submitted to the people, the Statesman says that a new proposition is now being agitated which gives promise of being successful.

JUST IN TIME.—A member of the Washington Territory Legislature having introduced a bill on Woman Suffrage, Miss Susan B. Anthony and Mrs. A. J. Duniway packed up their "duds" and started for Olympia, where, upon their arrival, Miss Anthony, on motion of one of the members, addressed the Legislature on the subject, while Mrs. Duniway went to work in the lobby.

THE COLUMBIA RIVER.—The Oregon Steam Navigation Company have given notice that the steamers between Celilo and Wallula will cease running on the first of next December. The low stage of water in the Columbia river will be liable to stop navigation between those points much sooner.

N. P. R. R.—The Northern Pacific Railroad Company have advertised for proposals for grading, bridging and track-laying for thirty miles of road north, commencing thirty-five miles from Kalama, which will make sixty-five miles of road to be finished as soon as possible.

EIGHTH VOLUME. With this number the WORLD enters upon its eighth year. For seven years, as a Democratic journal, has it labored to advance the interests of the people of the Territory, and of Boise county in particular.

We have never allowed political considerations to so blind our judgment as to lead us into the advocacy of measures the tendency of which would work an injustice to any class of our people or any section of our Territory; but on the contrary we have labored, to the extent of our ability, to harmonize local differences, smooth over and obliterate all traces of discord and animosity consequent upon the result of political contests for official positions, and have striven to maintain and cultivate those feelings of sociability and friendliness which should exist between our people without regard to politics or religion.

Many and great changes have taken place since the first issue of the WORLD was laid before our readers. The public pulse has frequently been at fever heat over local issues as well as over political questions of National import. While the WORLD has been always found doing battle for the Democracy, though good and evil report, it has ever counseled a cheerful obedience to the laws under any and all circumstances.

Established on a substantial basis, the WORLD is one of the fixed institutions of our Territory, as a seven-years publication fully demonstrates. Our circulation is gradually, but surely, increasing, and by a steadfast devotion to principle and to the material interests of the people of Idaho, regardless of their politics or of political considerations, we hope to merit and receive in future, as we have in the past, a continuance of that liberal support from our free-hearted and generous people, to whom we return, one and all, our sincere thanks for the support and patronage which they have ever extended to the IDAHO WORLD.

PEACE RIVER MINES.—The Deer Lodge New North West says that David Horn has recently returned from the Peace River country, and pronounces it "a bilk of the first water." He stated that there were about two thousand men there when he left, but they were leaving as fast as they could get away.

EXPULSION.—The Radical County Committee of Sacramento county, Cal., recently expelled one of their members, named Orn, for treachery to his party.

NEWS SUMMARY.

Prince Napoleon has recently visited Corsica and on October 24th delivered a violent speech before the Council-General at Ajaccio. The bill for the emancipation of the slaves in Brazil has become a law and the Benedictine Order promptly set free at once all its slaves numbering 1,600.

Late advices from Chili announce the inauguration of President Large. Some Americans and Englishmen are about to start a newspaper in Lima. The Secretary of War has dismissed from the Military Academy several cadets, for being guilty of violent treatment of other cadets.

The preliminary attack on the Tammany ring in New York city, October 25th, commenced by a bill in equity filed by Charles O'Connor against Tweed, Ingersoll and Garvey, the arrest of whom was to immediately follow and they were to be held to bail in the sum of \$2,000,000 to answer any judgment that may be rendered against them.

A servant girl named Kate Leehan, aged about eighteen, was outraged and murdered in Boston, October 25th. Three persons were arrested, charged with the crime. The municipal election in Baltimore, recently, resulted in the choice of Joshua Van Zandt, Democrat, for Mayor by 18,137 votes to 10,923 for Charles Dunlap, National Reform candidate.

At a negro Convention held lately in Columbia, South Carolina, a letter was read from Senator Sumner urging the negroes to insist upon such privileges as equality in public conveyances, hotels and schools. The number of Paris communists released by the Court is about 10,000.

Another colliery explosion has taken place near Newcastle, England. Thirty-three men, who were in the pit at the time, are supposed to be killed. The immense petition received at Washington from the women of Utah turns out to be in favor of polygamy instead of against it, and represents that the Federal officials are creating all the disturbance.

Victor L. Powell, Clerk in the Second Auditor's office in Washington, has been arrested for frauds in connection with bounty claims against the Government. After his arrest ex-Congressman Wm. B. Stokes, of Tennessee, the present Supervisor of Internal Revenue in that State, was also arrested on the same charge, and on being arraigned before Commissioner Johnson, in Washington City, he waived an examination and gave bail in the sum of \$15,000.

Thomas Ewing, Sen., died at Lancaster, Ohio, on Oct. 26th. The United States authorities are still engaged in making arrests by the wholesale in New York and other counties in South Carolina, of men suspected of being members of the Ku-Klux. Numbers of men are leaving the State. Business of all kinds is suspended, and many families are suffering.

Brigham Young has applied to Wm. M. Evarts to act as his counsel in the prosecutions against him, in Salt Lake City. The work of rebuilding in the burnt district in Chicago is being rapidly pushed forward.

MONTANA.—We take the following items from our late Montana exchanges: The great Indian buffalo hunt has proven a success this fall. Millions of buffalo were found between the Missouri and Yellowstone rivers, and the slaughter by the Indians was terrific.

The settlers in Gallatin valley are in constant fear of raids by the Indians and the Avant Courier says that, "unless adequate protection is afforded them, we fear that the best portion of Gallatin valley will be given up next spring." Mr. Wm. Palmer, a farmer of Deer Lodge county, is engaged in capturing mountain sheep for the purpose of domesticating them. He has already captured five, which are doing well.

Fifty or sixty lodges of Flathead Indians have gone to the Yellowstone on a buffalo hunt. Captain Andrew Dusold, Deputy U. S. Marshal at Deer Lodge City, recently returned from Boulder valley, bringing with him on the coach four "road agents," captured by him on the night of Oct. 11th. They gave their names as Darling, Speerling, Geogan and Bean.

Joseph Keating, of Radersburg, had a gold bar cast at Rumley's assay office, recently, of the coin value of nearly \$8,000, which was the product of quartz from the Keating lode, near Radersburg. The heavy fall of snow in the mountains in Montana will, it is said, enable the miners to continue work for a month longer, at least.

INJURED AT A CONCERT.—A grand concert was given lately, at the Skating Rink, in Portland, Oregon, the proceeds of which were donated to the sufferers by fire in Wisconsin and Minnesota. While the Concert was under way an alarm of fire was given, and a terrible scene ensued: People rushed for the doors and windows, and in the general rush and scramble to get out, many persons were seriously injured, among whom was Judge Deady, who had a shoulder dislocated, and an ankle sprained, besides receiving other cuts and bruises of a more or less serious character. After the fright was over the Concert proceeded and \$1,500 was realized from it.

OWYHEE ITEMS.—We take the following items from the Arelanche of Oct. 23th:

Work is progressing on the Mahogany mine. The main shaft is down 95 feet below the third level and it will be pushed down to the fifth level so as to have two levels opened ready for work at the same time, affording facilities for taking out sufficient ore to keep a 20-stamp mill in constant operation for twelve months.

The Golden Chariot, in charge of Superintendent Minear has taken charge of the South Chariot mine and intends to work it through the Mahogany, the levels of both mines being on the same grade. A fine building, 30 x 55 feet, has been erected over the shaft on the Minnesota, which is 160 feet deep and well timbered. Some of the ore selected from near the bottom of the shaft assayed \$354 11 per ton.

The Ida Elmore is being again thoroughly prospected by running drifts north in the fifth and seventh levels, and also from the cross cut in the sixth level. Little can be said, as yet, in favor of the Elmore, although there is no lack of energy on the part of the Superintendent to bring the mine out. The mill is still running on tailings, which pay well.

A. P. Minear has purchased the south half of the discovery ground on the Oro Fino, including the discovery shaft, paying therefor in the neighborhood of \$20,000, and has commenced taking out ore from both ends, and a better opportunity to get out ore does not exist in any mine in the camp.

Doc Waldref is taking out ore from the northern portion of the Home Retreat, which is situated on the southern slope and near the summit of War Eagle. The ledge is fully two feet wide, the quartz decomposed and shows well in gold. The Owyhee boys claim to have "bagged" about \$10,000 on the race between "Old Ben" and "Yakama."

Chas. A. Thompson and Wm. McDonald were buried at Silver City, October 25th, being the first time in the history of the camp that two funerals took place on one day. G. W. Grayson has returned from South Mountain and gone to Winnemucca to meet his family on their return from Missouri. They propose to reside in Oakland, Cal., during the winter.

Camp Three Forks was sold at auction, Oct. 23d, for \$90, to John Farnaman and A. C. Springer. Hon. W. H. Van Slyke has been appointed Deputy U. S. Marshal for the District of Idaho. Wells, Fargo & Co. shipped from Owyhee, last Thursday, two bars of bullion valued at \$8,631 56.

Hon. George W. Connell, State Senator from the Fourth Pennsylvania District, died in West Philadelphia, October 26th. His death will cause a tie between the Radicals and Democrats in the State Senate.

A NEW GOVERNOR.—The latest news in regard to the Governorship of Idaho is that Thomas W. Bennett, of Indiana, has been appointed. This lets Reynolds out again. He has been very persistent in his efforts to become Chief Executive of Idaho, but his great services to his party and pre-eminent abilities and qualifications for the position, in his own estimate, have, as yet, failed of recognition at the hands of the Administration.

RAILROAD ACCIDENT.—The train bound East, on the Central Pacific road, ran off the track, about two miles from Latrobe, on Oct. 20th, throwing the sleeping car down an embankment fifteen feet, badly injuring about seventeen persons but, fortunately, killing no one.

TELEGRAPHIC COMMUNICATION.—The Deseret telegraph line was completed to Pioche, on October 23d, thus placing that section in communication by telegraph with the outside world.

LIST OF LETTERS. Remaining in the Postoffice at Idaho City, on the 1st day of November, which, if not called for within thirty days, will be sent to the Dead Letter Office: Armstrong Robt Holman L L Lautenshlager C Buchanan Flora Irwin James O'donald Wm Fitchner H H Hoff Wm Taylor S N Green Edm Kels Miss Dore Thompson S B Glispe A A Knapp N White Chas Harrison John
