

IDAHO WORLD.

W. A. ANSLIE, EDITOR.

IDAHO CITY, I. T.

THURSDAY, NOVEMBER 9, 1871.

TEXAS ELECTION.—Notwithstanding the overwhelming Democratic majorities in the four Congressional Districts in Texas, the Radical scoundrels who constitute the State Board of Canvassers have shown themselves equal to the emergency. By throwing out the vote of several strong Democratic counties and counting in registered votes, which they say ought to have been cast for the Radical candidate even if they were not, they figure out three of the Democratic Congressmen elect, and the telegraph informs us that Conner is the only Democrat who will receive a certificate of election as a member of Congress. There is one honest Radical, however,—Mr. Degener—who was a candidate for Congress who has the decency and manliness to openly denounce the action of the Board of Canvassers and to refuse to accept the certificate of election. He says he was fairly and squarely beaten by Hancock, his Democratic opponent, and like an honest man he refuses to be a party to a fraud in depriving him of the position to which he was elected by the people. The Sacramento Union and other leading Republican papers attribute the defeat of their party in Texas to the defection of the German element, it appearing that the Germans, as a body, voted the Democratic ticket. Our Radical neighbor at Boise City, quoting from some scurrilous sheet published in the interests of the carpet-baggers at Houston, Texas, raises the old cry of "intimidation" of the Radical voters. If the latter were in a majority, they certainly must be a cowardly set of curs to be intimidated by the minority. That idea is about "played out." The Radical Governor of Texas took every precaution and used every endeavor to carry the election for his party, even going so far as to virtually declare martial law throughout the State; but the Radicals hadn't votes enough by some thirty or forty thousand, and now the Radical Board of Canvassers propose to trample under foot the rights of the people, and foist upon them, as their representatives in Congress, men who were defeated by thousands of votes.

ARREST OF INTERNATIONALS.—The Spanish Government has made a raid on the Internationals by arresting a batch of conspirators at Barcelona. A large lot of arms, bombs and other warlike implements were discovered and taken possession of by the officers. The members of this order appear determined to make war upon every government, and prompt measures should be instituted everywhere to suppress this society of assassins and incendiaries.

NEWS.—A Washington Territory paper says that Miss Susan B. Anthony has a husband and is the "mother of children." This will be news to many, as Susan has been palming herself off as a spinster all over the country. If the report is true, domestic infelicities may have something to do with her terrific onslaughts on the male sex generally.

DEAD.—General Robert Anderson, who was in command of Fort Sumter at the time of the bombardment by the Confederates under Beauregard, died, October 26th, at Nice, in France. General Anderson had been in bad health since 1861, and for several years had been residing in Italy and France in hopes of recovering his health.

TERRIBLE MURDER.—Patrick Sullivan, of Bay Point, Contra Costa county, Cal., was shot and instantly killed, on Oct. 28th, by his sister-in-law, Mrs. James Sullivan. James Sullivan, his wife and the deceased were at dinner when some words passed between Mrs. Sullivan and the deceased, and she rose from the table and taking a shot-gun she blew the top of his head off.

LITIGATION.—Over one hundred civil suits have already been commenced against the Staten Island Ferry Company by persons injured in the Westfield explosion a short time ago, and about one hundred and fifty more suits are in course of preparation and will soon be commenced. The damages claimed vary from \$1,000 to \$5,000 in each suit.

RESIGNED.—Gov. Bullock, of Georgia, has resigned, and Benjamin Conlay, President of the State Senate, has been installed as his successor. Bullock is accused of every species of rascality, and he doubtless would have been impeached and removed from office at the next session of the Legislature.

RELEASED.—David Calderwood, who was fined and sentenced to imprisonment for 510 days by Judge Stanley, for contempt of court, has been released by the Supreme Court, on a writ of habeas corpus, on the ground of a technical flaw in the affidavit.

DISCOVERY OF MARBLE.—An extensive marble ledge or quarry has been discovered lately in Churchill county, Nevada, the quality of which is said to be superior to any in America, and the rock can be laid down at the railroad for one cent per pound.

STEEL PENS.—A manufacturing establishment in Sheffield, England, uses annually 631 tons of steel in the manufacture of pens, and one ton is said to make 1,000,000 pens.

BOISE BASIN BEDROCK FLUME.

This important enterprise is now being pushed forward and, as we predicted four months ago, the parties who have interested themselves in the matter mean business. The active placer mining season being about over, the Trustees named in the articles of incorporation met at the Court House, in Idaho City, November 1st, and effected a temporary organization by electing Mr. J. G. Bryant temporary President and Hon. W. C. Whitson temporary Secretary, after which a draft of the By-Laws was submitted and adopted by the Board.

On November 4th, the regular annual meeting of the stockholders of the "Boise Basin Bedrock Fluming Company" was held at the same place, at which time the By-Laws were amended in several respects, and the number of Trustees increased to nine; after which the election took place, whereupon the following named persons were elected Trustees to serve for the ensuing year: B. M. DuRell, W. C. Whitson, C. S. Kingsley, W. B. Noble, and G. W. Crafts, of Idaho City; J. V. R. Witt, of Placerville; Ben. Willson, of Pioneer City; C. W. Moore and A. Rossi, of Boise City. An election for officers of the company then took place which resulted as follows: President, B. M. DuRell; Secretary, W. C. Whitson; Treasurer, J. M. Burkett.

The company being fully organized and ready for business, the importance of the enterprise was fully discussed by different members of the corporation, and many suggestions as to the future operations of the company considered and passed upon by the stockholders who were present, or at least received their endorsement as a guide to the Board of Trustees who had just been chosen. Two hundred thousand dollars of the capital stock of the company was subscribed on the spot by the incorporators, and measures agreed upon for the immediate inauguration of work on the surveys, preparatory to the commencement of active work on the flume itself. The unanimity of sentiment among the incorporators, as to the advisability of an immediate commencement of operations, augurs well for the success of the enterprise, and is conclusive proof of the earnestness of purpose with which the incorporators enter upon this important work.

Not a dollar of the stock has been, or will be, thrown upon the market until the work is far enough advanced to satisfy the company that their enterprise is a success beyond a peradventure. They intend to invest their own time and means in carrying out this most important undertaking, and it may be considered a question, and an extremely doubtful one at that, whether a share of the stock will ever be willingly parted with by the persons who inaugurated, and are now interested in this important work.

It is the intention of the company, as we are advised, at once, to commence the surveys, and have the diagrams and plans and specifications of the work embodied in a report to be prepared by the Surveyor in charge of the work, and submit that report to Congress at its next session with a bill granting the right of way for the flumes and ditches; and in all probability the company will ask of Congress the right to take from the public lands the necessary timber to be used in the construction of their works. No grant of land will be asked; nor is it necessary to have a grant in order to complete the work. The company only require the timber necessary to construct their flumes, and in order not to be trespassers in that respect they will ask the legal right to do that which every miner and resident of the mineral regions has done, without authority of law—cut the necessary timber from the unoccupied public lands, to be used in carrying out this important enterprise.

An adjourned meeting of the stockholders was held at the Agency of the First National Bank, in this city, on last Monday night, at which all unfinished business was disposed of, and the Trustees announced their intention to at once procure the services of a competent surveyor and commence that portion of the work within, probably, ten days.

That a bedrock flume would be a paying institution is now admitted by every one, and that the undertaking will be carried through by the parties who have undertaken it, there can now no longer be any doubt. If the action of Congress at its next session is favorable to the enterprise, the surveys being completed this Fall, work will be immediately commenced thereafter.

SWEETING.—An order has lately been issued from the Russian War Office placing all the male population of the Empire on a war footing. The Czar evidently expects trouble from some quarter.

COUNSEL APPOINTED.—The President has appointed William M. Everts and Benjamin R. Curtis counsel for American claimants before the Tribunal of Arbitration at Geneva, to act in conjunction with Caleb Cushing.

SUICIDE.—A German portrait painter named August Hertel, committed suicide, recently, in San Francisco, by shooting himself in the head with a pistol.

DESPOTISM.—President Grant, in his proclamation suspending the writ of habeas corpus in about a half a dozen counties of South Carolina, included the county of Marion as being one in which the Ku Klux were so powerful as to defy all attempts of the civil authorities to maintain the supremacy of the laws. It now turns out that there have been no outrages committed in Marion county and that no such order as the Ku Klux has ever disturbed the peace and good order of that county. The Radical Senator from Marion county, after reading Grant's proclamation, wrote the following letter:

OFFICE OF LAND COMMISSIONER,
COLUMBIA, S. C., October 17, 1871.
Hon. D. T. CORBIN, United States District Attorney,
South Carolina.
DEAR SIR: My attention has been called to the proclamation of the President calling on the Ku-Klux in certain counties to surrender &c. Among them the county of Marion appears. This may be a typographical error; if not, I desire that you have this changed if possible, as it is but just and fair to the people of Marion, as no Ku-Klux outrages have ever been committed in the county.
Hoping that you will give the matter your earnest and prompt attention,
I am, respectfully, &c.,
H. E. HAYNE,
Senator from Marion county.

The matter was "brought to the attention of the President, who referred it to Attorney General Akerman, and that learned functionary, after investigating matters, concluded that Marion county, was included in the proclamation by mistake, but decided not to rectify the error; so that the law-abiding and peaceable inhabitants of that quiet county are consigned to the tender mercies of Grant's minions, under martial law, and are liable to arrest and imprisonment, denied the right of trial by jury, and refused any relief from the courts or civil authorities, through a blunder of the muddle-headed occupant of the White House; and when satisfied of the mistake, Grant refuses to make amends by exempting that county from the rule of military law. Such is but a prelude of what will follow under the operation of the Ku-Klux law passed at the last session of Congress. A law which virtually makes Grant a military dictator, responsible neither to Congress nor the people for any arbitrary act of which he may be guilty; and, yet, Radicals call this a Constitutional Government by and for the people.

A SEDUCER SHOT.—A young woman named Miss Swindell, aged 18, recently shot and fatally wounded a young man named Henry H. Howell, in Lincoln, Illinois. She had commenced a suit against him for seduction and they had just effected a compromise when, as he was about leaving a lawyer's office to have the agreement acknowledged before a Justice of the Peace, she shot him in the back.

A GOOD FAMILY PAPER.—The Golden City comes to us filled with a mass of interesting reading matter, and if kept up to its present standard it will undoubtedly rank as the leading family newspaper of the coast. The proprietors, Messrs. Gus, De Young & Co., offer very liberal inducements to lady canvassers, as they propose to give fifty per cent of the subscription price. Now is the time to get up clubs.

I. O. G. T.—The Grand Lodge, I. O. G. T., of Idaho Territory, will hold its annual session in Boise City, commencing on Tuesday November 21st, at 10 o'clock, A. M. Jonas W. Brown, Esq., G. W. C. T., and quite a number of the Order will be in attendance from this county.

LIBEL SUIT.—The libel suit of R. C. Ball against the Oakland (Cal.) Transcript for \$50,000 damages, resulted in a verdict of ten cents damages for plaintiff. Going to law to obtain a character is proving to be anything but a paying business.

AN OLD TRICK.—An insane man was recently taken to the asylum in Philadelphia, by an officer, and upon his arrival he told the persons in charge of the Asylum that the officer was insane, whereupon he was seized and locked up, the crazy man escaping.

WOMAN'S RIGHTS.—Mrs. Carrie F. Young, of San Francisco, delivered a lecture on "Woman's rights," lately, in Portland, Oregon, the proceeds from which she donated to the sufferers by fire in the Eastern States.

A DELICATE OPERATION.—Prof. Simon, of Prussia, recently performed a wonderful surgical operation on a lady from Georgia, by taking out her entire left kidney. This makes the third time he has performed the operation.

FULL.—The Penitentiary at Steilacoom, in Washington Territory, is full of prisoners, and new convicts arriving are sent back to the counties from which they came, to be confined in jail. Washington is a Radical Territory.

CONVICED.—The trial of Doctor Medlicott, at Garnet, Kansas, has resulted in a verdict of guilty. The prisoner has applied for a new trial.

DEAD.—Phil W. Thomas, formerly State Senator from Placer county, Cal., died in Auburn, October 24th.

ANOTHER COLONY.—Five hundred Portuguese are about to emigrate to and settle on a tract of land in Virginia.

MORE POETRY.—The wife of Joaquin Miller, the Oregon poet is about to publish a volume of poems.

A FAILURE.—The Oregon State Fair, recently held at Salem, turned out to be a failure.

Bowker, who had formerly been engaged in running the express from Lewiston to Elk City, had purchased two dollars worth of rope for Moran, sometime before, and for which Moran still owed him. Bowker, who had quit the express, while on his way to Elk City, stopped at Jackson's bridge and asked Moran for the money, which was paid, and then, without any provocation whatever, Moran said, "Now I'll mark you," or words to that effect, and drawing his revolver he knocked Bowker down, and taking out his pocket-knife he slit both of his ears, gashed his forehead and gouged and cut the division between his nostrils, at the same time cursing and declaring his brutal intentions to mutilate him as much as possible. This was done on the evening of October 19th, and on the following morning Moran was found hung up by the neck.

MARRIED.

In Idaho City, I. T., November 2, 1871, by Hon. W. C. Whitson, Associate Justice of the Supreme Court of Idaho, DRYDEN MCCLINTOCK, Sheriff of Boise county, to MRS. SARAH T. FITZGERALD, all of Idaho City.

On the same day and by the same, A. B. MORRILL to Miss LIZZIE KILDER, all of Idaho City.

Two weddings on one day is pretty good for Idaho City, especially when two old bachelors like our friends McClintock and Morrill are the ones who take the "new departure." They had revealed in bachelor freedom for a long time, but retribution has at last overtaken them and they have fallen willing victims on the altar of matrimony. Sam was on hand to bid his "pard" good-bye, and his countenance indicated the conflicting emotions of sorrow and joy which agitated him—sorrow at being separated from his "bundling" pard and joy at his chums good fortune. The numerous friends of the two couples put in an appearance on the interesting occasion, and during the night a musical entertainment on an immense scale done honor to the occasion. Among the pieces rendered we recognized the "Ole Can Polka," "Sleigh-bell Gallop" and the "Anvil Chorus" well performed with a club on a huge circular saw. The tin bugles chimed in splendidly, and a pyrotechnic display added relief to the occasion. The Wound was remembered by a bountiful supply of bridal cake and Heidsick, and in bumpers of the latter we drank long life, happiness and prosperity to our happy friends and their blooming brides.

DIED.

At Soda Springs, Oueda Co., I. T., on Oct. 26th, HARRY MEYERS, a native of Carlyle, Pa., aged about 37 years.

George and Harry Meyers were both well known in the Basin, having been for a long time residents of Idaho City, where they had a host of friends; and both of them, in the prime of life, have died within the past twelve months.
