30-1f

**NOTICE.**  
WHEREAS THE UNDERSIGNED HAS BEEN INFORMED on good authority that great irregularities exist in the taking and killing of the wild cattle on the mountains on Hawaii, belonging to His Majesty and to the Government, by parties who claim or pretend to hold rights under bills of sale from His Majesty or from the Government, and whereas, from the nature of the country and other causes it is almost impossible to place the agents to guard the interests of His Majesty and of the Government, and whereas all parties having legal claims on the said wild cattle have already had time sufficient, if they have used due diligence to remove the same.  
Now therefore, the undersigned hereby gives notice to all parties who purchased wild cattle running on the mountains on Hawaii, previous to the 1st day of January 1863, to remove the same if not already removed, on or before the 1st day of May next, after which time, parties taking wild cattle will be prosecuted in the ordinary course of law.  
L. KAMEHAMEHA.  
Jan. 24, 1858. 45-1f

**SAUCE—LEA & PERRINS' WORCESTERSHIRE SAUCE**  
PRONOUNCED  
BY  
CONNOISSEURS  
TO BE THE  
ONLY GOOD SAUCE  
AND APPLICABLE  
TO  
Every Variety of  
DISH.  
Extract of a Letter from a Medical Gentleman at Meoras, to his Brother Worcester, May, 1851:  
"Tell Lea & Perrins that their Sauce is highly esteemed in India, and is, in my opinion, the most palatable as well as the most wholesome Sauce that is made."  
Compared with the magnitude of the interests involved, and the extravagant expectations that were formed of the results of the Grey policy, it is not too much to state that, as affecting the settlement of the troubled waters of native waters, the results hitherto obtained by it have fallen miserably short of what was expected to follow the administration of the much-lauded panacea. The Governor has been not unlike the itinerant empiric of the middle ages, he has traveled among the natives with all the paraphernalia of official dignity; his attendants have litted hither and thither, vending his nostrums for universal native cure, which, like the philtres and potions of old, were to be the infallible remedy for native disorders, however chronic or however inveterate. The eloquence of the great physician himself and the feeble echoes of his attendant sprites have been enlisted in the great medicine, but the gaping natives cannot sufficiently appreciate its benefits. True, in isolated cases patients have been found willing to try the dose; and forthwith the *New Zealand* and the Ministerial press deluge their columns with astonishing testimonials—rebellious fever of long standing has subsided in Waikato, or Hawke's Bay, under the influence of the new treatment, after every other remedy has been tried without effect—chronic pains of insensibility have been cured and cases previously declared hopeless, and so on after the improved fashion of such testimonials. Certainly there has been no lack of publicity given to the illusive effects of the cordial balm, and if we were to judge merely by the list of cures, we might be inclined to think there was some value in the remedy. But unfortunately for its advocacy, we cannot overlook that there are many cases in which it has failed and failed utterly, when the spirits of the patients was supposed to be most favorable to its administration, and where the most striking effects were most reasonably to have been expected; and it has so failed, not because of any inherent destructive or dangerous elements in the specific itself, but from its unsuitableness and inadaptability to the state of the patients. The fact is, that the Maori has been subjected to so great a variety of treatment—now led by seducing crowd and cases previously declared hopeless, and so on after the improved fashion of such testimonials. Certainly there has been no lack of publicity given to the illusive effects of the cordial balm, and if we were to judge merely by the list of cures, we might be inclined to think there was some value in the remedy. But unfortunately for its advocacy, we cannot overlook that there are many cases in which it has failed and failed utterly, when the spirits of the patients was supposed to be most favorable to its administration, and where the most striking effects were most reasonably to have been expected; and it has so failed, not because of any inherent destructive or dangerous elements in the specific itself, but from its unsuitableness and inadaptability to the state of the patients. The fact is, that the Maori has been subjected to so great a variety of treatment—now led by seducing crowd and cases previously declared hopeless, and so on after the improved fashion of such testimonials. Certainly there has been no lack of publicity given to the illusive effects of the cordial balm, and if we were to judge merely by the list of cures, we might be inclined to think there was some value in the remedy. But unfortunately for its advocacy, we cannot overlook that there are many cases in which it has failed and failed utterly, when the spirits of the patients was supposed to be most favorable to its administration, and where the most striking effects were most reasonably to have been expected; and it has so failed, not because of any inherent destructive or dangerous elements in the specific itself, but from its unsuitableness and inadaptability to the state of the patients.
