## TRIES TO MURDER, THEN KILLS SELF

Kilauea was the scene of an attempted double murder and suicide last Thursday afternoon, as a result of which Esteben B. Cabanobias, Filipino, aged 24 years, is dead and two women are wounded in the breast. One of the women is the wife and the other the sister-in-law of the suicide.

Cornelia Salanov Cabanobias, the wife, and Eugenia Salanov, the sister-in-law, were fired upon unexpectedly the bullets in both cases entering the breasts of the victims. Both women will recover.

After shooting his relations, Esteben retired to his room, wrote a statement, then put the revolver to his head and fired, the bullet entering the brain and causing practically instant death.

A coroner's jury found to substantially the above facts.

In his written statement, which is in the possession of the Sheriff, Esteben accused his wife of having had improper relations with one Belay Ipiq, and stated that the matter had proved on his mind a great deal. Ipiq, according to him, had been a good man in the Philippines, but had gone to the bad here. Here he (Esteben) had supported him (Ipiq).

He went on to say that the purpose of writing was to acquaint his relations at Dolague, Cebu, Philippine Islands, of the reasons for his acts.

His children are consigned to the care of four friends, by name, Jose, Enig, Patol and Pedro (the writer evidently thought when writing that he had killed his wife and sister-in-law), and Esteben expresses the hope that he and his errand wife may meet in the same place hereafter.

The letter is scrawled in pencil upon two sheets torn from an ordinary office journal.

## Ladies' Tea Party

Mrs. Harold Morgan entertained a number of ladies at tea St. Patrick's Day, the affair taking place at 5 o'clock in the afternoon. Among those present were: Mesdames W. H. Rice, Sr., W. H. Rice, Jr., S. W. Wilcox, Chas. Wilcox, K. C. Hopper, Fred Carter, R. W. T. Purvis, H. D. Wishard, Omanney, J. M. Lydgate, R. Wilcox, Dean, Misses MacIntyre and Omanney.

## Alleged Thief Skips

A Filipino named Eduardo Garcia is being looked for by the Waimea police on the charge of stealing clothes and about \$3 in cash from the room of friends in Camp 2. It is claimed that Garcia skipped to Honolulu, and the sheriff of Kauai has requested the city police to pick him up down there and send him back.

Sheriff Rice received a wireless this morning (after the above was in type) that the Honolulu police had nabbed Garcia, and that he would be sent back to Waimea by tonight's Kinau.

## Baseball Next Sunday

There will be some hot baseball at Eleele next Sunday afternoon, beginning at 1:30 o'clock, when the Makaweli team will run up against the McBrydes in the first of a series of three games. These games have been arranged for the purpose of gaining a little heavy practice before the season opens.

## NEW POSTMASTER FOR LIHUE IN MAY

There will almost without doubt be a new postmaster at Lihue after the expiration of the time of Frank Crawford in May.

THE GARDEN ISLAND has information of an official character to that effect.

It is stated, in connection with the matter, that there is not the slightest objection to the way the affairs of the local postoffice have been conducted—in fact it has been one of the most successfully and satisfactorily managed offices in the Territory; nor, it is declared, is it a matter of politics.

The reason assigned for making the change, it is claimed, is a rule of the present postoffice authorities at Washington that a postmaster must confine himself exclusively to the postoffice billet. It is pointed out, for instance, that D. C. Lindsay was removed from the office of postmaster at Paia, Maui, solely for the reason that he had other employment, being cashier of the Baldwin Bank, at Kahului. Mr. Travers, postmaster at Waipahu, Oahu, it is further stated, was asked to resign for the reason that he, too, was otherwise employed, being bookkeeper for Oahu Sugar Company.

The information received goes on to say that Mr. Crawford would have been asked for his resignation before now for the same reason were it not for the fact that his term of office expires so soon.

It is added that the person to succeed Mr. Crawford here has the endorsement of the Kauai Democratic Committee and the Territorial Democratic Committee. The Kauai Democratic Committee is supposed to be Mr. Chandler, of Koloa.

## Hilonian Takes Copra

Sixty-six bags of copra were shipped from Port Allen by A. D. Hills in the steamer Hilonian last Friday, the destination being San Francisco. Other shipments were 30,000 bags of sugar and six crates of pigs, the latter for Kahului, Maui.

The Hilonian arrived at Port Allen Thursday morning, bringing 209 tons of inward freight. She sailed the following day for Kahului.

## Dickey To Washington

Judge L. A. Dickey will leave Kauai on April 6 and take the Matsonia from Honolulu for Washington to appear as attorney before the United States Supreme Court in the old and famous Atcherly case. Permission for him to make the trip arrived from Washington about a week ago.

At Honolulu he will be joined by Attorney S. E. Hannestad, who will leave by the same steamer for Philadelphia.

## Judge Ashford Here

Judge Clarence W. Ashford, of the First Circuit Court, Honolulu, arrived at Lihue by the W. G. Hall Friday on a purely pleasure and sight-seeing trip. He was accompanied by G. C. Bartels, a judge of the state of Colorado, who is touring the group, Judge Ashford and his friend left in the early hours of Friday morning for the Hanalei side of the island.

R. Harry Worrall, who is doing some special auditing for Messrs. Theo. H. Davies & Co., returned to Honolulu Saturday night after a business visit to Kauai points.

## TURKS SINK THREE SHIPS OF THE ALLIED FLEETS

News came in in sections Saturday and Sunday of the sinking by the Turks of three ships of the Allies at the Dardanelles, although whether the ships struck mines or were torpedoed seems still to be in some doubt. The ships destroyed were all of the older battleship type, small and now considered out of date. The largest, Irresistible, of the British navy, was 15,000 tons. She was finished in 1902 and carried 781 men. The British ship Ocean was still smaller, being 12,950 tons, and was of a still older model. Smaller still was the French ship Bouvet, 12,007 tons, also an older ship. All three were rated as battleships of the third class.

Sunday night four Zeppelins attempted a raid upon Paris. Two succeeded in passing over the city and dropped a dozen bombs. Little damage was done in Paris, although a few houses in neighboring towns were wrecked.

Yesterday afternoon London reported that the Austrian stronghold of Przemysl, after a siege of several months, surrendered to the Russians. There were 6,000 Austrian prisoners and 6,000 dead. The original garrison was 80,000 men.

Russia has launched simultaneous attack from Baltic to Black seas. Next move will be against Cracow.

Austria attack on Serbia and Montenegro resumed. Memel, in the extreme north of east Prussia, has been retaken by the Germans.

Italy stops all railway freight traffic with Germany through Switzerland.

## LOST OVER NIGHT IN CANE FIELDS

Mrs. Thornton, mother of Mrs. Harold Morgan, Lihue, wandered from home about 3 o'clock yesterday afternoon, and was not found again until about 8 o'clock this morning when a prisoner belonging to a searching party discovered her asleep in the cane field near Nawiliwili. Sheriff Rice, police and practically the whole neighborhood took up the search early last evening, and continued it until midnight, when it became so dark that it was decided to wait until morning.

At daylight the prisoners were sent out, with the result above noted.

It appears that the chickens of the Morgan home nest in the neighboring cane field, and Mrs. Thornton had been in the habit of going there to collect the eggs. She went out on one of these expeditions yesterday afternoon, got "turned around" somehow and lost her way.

## CONGRESSIONAL VISITORS IN MAY

Following is a full list (at last accounts) of the Congressional party which will visit the Territory in May and which the Kauai Chamber of Commerce will invite to this island:

**Senators.**  
William J. Stone of Missouri, Democrat.

Ollie M. James of Kentucky, Democrat.

(Continued on page 8.)

## Reservoir Completed

The great Kamoaloa reservoir of Grove Farm, located above the Halfway Bridge on the Koloa road has been completed, work on it having taken up most of the past year and a half. This reservoir will hold 300,000,000 gallons of water and will serve the neighboring lands of Grove Farm.

## An Evening Picnic

A picnic supper was given by a number of young people of Lihue at Lawai beach house Sunday evening in honor of Mr. S. E. Hannestad, who will leave shortly for Philadelphia.

## GRAND JURY WILL REPORT TOMORROW

The Grand Jury will meet again tomorrow morning, and while, of course, nothing of a definite character is known, it is figured, from general circumstances, that indictments of interest will be returned. All of them will probably strike over in the Hanalei neighborhood. Sheriff Rice went to Honolulu last Tuesday night, with the result that Deputy Attorney-General Scott appeared on the scene Friday morning and forthwith took charge of the government's end of the Grand Jury's business. The entire jury, together with Mr. Scott, proceeded to Hanalei where investigations were held that and the following day, the party returning home Saturday afternoon.

The jury was unable to report Saturday, and as Judge Dickey was obliged to go to Honolulu that night, adjourned over to tomorrow. In the meanwhile, Attorney Scott has been very busily engaged upon something—presumably indictments and the evidence relating thereto.

## Lieut. Lyman Here

Lieutenant C. K. Lyman, U. S. A., stationed at Sheffield Barracks, Oahu, arrived in the Kinau last Wednesday morning to visit for a week with the S. W. Wilcoxes, who are relatives. He is accompanied by Mrs. Lyman. They will be here about a week. Lieutenant Lyman is a son of Rufus Lyman, of Hilo, and is a graduate of West Point.

## Cleaning The Bay

Work of cleaning the rock and debris from the area at the Nawiliwili landing over which the small boats maneuver began yesterday morning, and will be carried out under the auspices of the Harbors Committee of the Chamber of Commerce, of which H. D. Wishard is chairman. E. H. W. Broadbent has general supervision of the work.

## Moler To Go East

Harry A. Moler, head carpenter of the McBryde Sugar Company, Eleele, will leave in about a week for a visit to the fair in San Francisco, and also for a visit to his old home in Virginia.

Koloa had .25 inches of rain Sunday night—quite light but very acceptable.

## SCHULTZE SAVES MCBRYDE BRIDGE

The Kukuia bridge of the Kauai Railway Company was probably saved from destruction by fire Sunday afternoon by the cool and quick work of Head Linn W. K. Schultze, of Makaweli, who happened to be on the scene at the moment of an unusual accident.

It appears that a train was engaged in moving a lot of nitrate of soda, and (presumably) sparks from the engine set fire to the cargo. The burning stuff fell from the train to the bridge and ignited the latter.

According to information at hand, the men on the train became very greatly excited and seemed uncertain as to what should be done. At that juncture Mr. Schultze arrived, took charge of the gang and in a short time had the fire out.

Soda is quite a dangerous article to handle where there is fire, and had the blaze of Sunday gotten headway the Kukuia bridge would doubtless have been ruined.

## DANCE AT ELEELE SATURDAY NIGHT

Mr. and Mrs. Richard L. Hughes, Eleele, had an informal dancing party at their home Saturday evening, which turned out to be one of the most enjoyable, small affairs of the season.

For the occasion the grounds were brilliantly illuminated and the scene of the festivities appropriately decorated.

Among those present were: Mr. and Mrs. B. D. Baldwin, Mr. and Mrs. H. N. Browne, Misses Ella and Etta Lee and Messrs. Deverill, Banham, Joe Fassoth and Douglas Baldwin, of Makaweli; Judge C. B. Hafgaard and wife and E. E. Mahlum, of Waimea; A. Frodie and wife, of Kekaha; Mrs. Johnson and Miss Marie Anderson, of Hanapepe, and Mr. and Mrs. Roendahl, of Eleele.

## HIGH SCHOOL WINS ITS FIFTH GAME

Friday afternoon the High School won its fifth successive game in the interscholastic soccer series, defeating the fast Lihue School team. The first half was closely contested, but one goal being scored in that period. In the second half High School came back strong and scored three goals, making the score 4-0.

On Saturday Eleele and Koloa battled to a tie, at Koloa. Eleele was the faster team and continually threatened their opponents' goal, but their inability to drive the ball between the posts cost them a victory. Koloa was very strong on defensive play and kicked out of some tight places. This is the second tie game between these teams.

Next Saturday the final games of the series will be played at Lihue. The first game will begin at 1 o'clock, with Koloa and Lihue School fighting for second place. The game should be a good one as Koloa has a victory over Lihue to her credit, while the local team is ambitious to land in second place. The second game between Eleele School and the High School will follow. Mr. D. Donald of Koloa, who has so generally contributed to the success of the series, will referee.

## JUMPS FROM CAR AND LOSES LIFE

While alighting from a train near Lihue mill at about 2:30 Friday afternoon, a Filipino laborer named Feleciano de la Cruz sustained such injuries that he died two hours later, from the shock, in the Lihue hospital.

It appears that upon the arrival of the train in the camp de la Cruz jumped out before a stop was made. There is another track at the point and he struck a car standing there and was thrown back against the moving train which he was trying to leave. His left leg was caught in the wheels and badly crushed.

The injured man was rushed to the hospital and given prompt attention, but the strain proved too great.

A coroner's jury brought in a verdict in accordance with the above facts, attributing the accident to the carelessness of the man in springing from a moving train.

The Lihue plantation makes every effort to enforce its rule against men boarding or leaving cars in motion, and this is the first accident of the kind that has occurred in a long while.

## SICK IN WOODS FOR FORTY DAYS

Water luras found an old, sick Japanese among the guava bushes near the junction of the Shortcut with the Koloa road yesterday, and the matter developed an interesting story.

The man had been a patient in the Koloa hospital, and left there about the first of February. When round yesterday his mind seemed to be in bad shape, but Deputy Sheriff Blake elicited from him the statement that when he left the hospital he started to walk to Lihue, but that his strength had given out. He had since lain around in the bushes and subsisted on guavas. The police figure that he had been there in that condition for about forty days.

He was taken back to the hospital, and is again under treatment.

## Lots of Liquor

A Hanalei policeman arrived in Lihue Saturday afternoon with a wagon load of liquors, seized (or caused to be seized) by the Grand Jury in the Hanalei district as evidence. It is rumored that no less than a baker's dozen of "blind pigs" were more or less definitely located in that district by the judicial inquisitors.

## Showers At Waimea Side

Quite nice (and welcome) showers fell at the Waimea side of the island Sunday night, the fall at Makaweli being .74 inch. The precipitation tapered off to Lihue, dwindling here to one light shower.

## Mormons "Celebrate"

The Hawaiians of Koloa and neighborhood had an unusually large rally at the new Mormon church, recently erected on Puni's lot, at that place—Sunday. A luau was among the features.

The A.-H. steamer Mexican will arrive at Port Allen tomorrow, probably early in the morning, from Honolulu. She will likely get away on Thursday, taking sugar and pineapples, the quantities of each not yet determined.
