

## PINKHAM WRITES ANOTHER LETTER

Governor Pinkham has written the following additional letter to the president of Lihue Plantation Company:

"April 22, 1916.  
"Hon. Hans Isenberg,  
President, Lihue Plantation Co.,  
Ltd., Lihue, Kauai.  
"Dear Sir: Sixty homesteaders on Kapaa Series 1, 2 and 3 have in writing indicated their desire and belief that their agricultural operations require water for irrigation.  
"The superintendent of hydrography will, in the month of May, more definitely investigate the water situation, although enough is now known to indicate the only available water at an elevation that will allow water to reach most of these homesteads by gravity must come from the north fork of the Wailua river. These water are now in the sole control of the Lihue Plantation Co., Ltd., and will remain so until October 1, 1917.  
"At present, they are being used on both the Wailua and Lindemann leased lands, the Lihue Plantation Co., Ltd., fee simple lands and great quantities are being sold to the Koloa Sugar Co.  
"Legally and technically all this must cease October 1, 1917.  
"This administration desires not to work any unnecessary hardship on anyone, including the Lihue Plantation Co., Ltd., and believes it can be avoided.  
"Your company has failed to provide sufficient reservoir capacity to conserve the storm waters of the Wailua river.  
"Are you willing to advise your directors to at once grant the government access to the Wailua lands to locate reservations for reservoirs to conserve the waters thereof and to plan means of comprehensive distribution?  
"Are you willing to advocate the beginning of the construction of these utilities at the earliest possible moment the government can secure or provide the necessary funds that there may be no loss of time?  
"This administration believes in itself and its ability to handle certain principles and will insist that general principles shall prevail in place of individual, self-centered interests, small or great.  
"Respectfully,  
"LUCIUS E. PINKHAM,  
Governor of Hawaii."

### HOW DUKE FAILED

New York, Apr. 10.—Duke Kahanamoku, the Hawaiian swimming champion, failed to qualify for the final of the 220 yard national championship title, which will be decided at the New York Athletic Club tonight. In the trial heats yesterday in the Winged Foot tank he was beaten by both Herbert Vollmer and Joe Wheatley, the latter finishing first and second respectively. Arrangements have been made, however, so that those who expected to see the Duke in action will not be disappointed. He will swim in a 100 yard event against William Rame, of the New York Athletic Club and Clemence Brown of the Hamilton Club, Chicago.

The Duke took his defeat calmly yesterday. He explained that he left his home in the best of condition. The hurry and bustle since he has arrived in the States has proven too much and his defeat followed. Vollmer set a fast pace at the start. Kahanamoku followed almost at his side for the first hundred yards, with Wheatley a close third. It was not until the last fifty yards that the strain told on the Duke. Twenty-five yards from the finish Wheatley started a great spurt, which put him in second position. Vollmer won by twelve feet in 2 minutes 30 1-5 seconds.

## Military Items

(Special Washington Correspondence of THE GARDEN ISLAND)

Maintenance, repair, and operation of one automobile \$600.00.

### The Ukulele

Sir: Are you aware that an exhibition of lutes, guitars and ukuleles was pulled off yesterday afternoon in Washington Square South? I was informed by one who was there. You would confer a benefit upon me by telling me what a ukulele—or an ukulele—is.

J. K. C.  
The ukulele is a fiddle that you twiddle till it tootles. Like a lilylooloo feeding on a platter full of noodles, But it's rather more aesthetic in its nature and appeal—

Have you ever lamped a lily singing rondels to an eel?

The ukulele has a treble like a pebble when it tootles,

Or a daffodillan ditty when the faintness of it footles;

But it's rather more exotic in its esoteric phases—

Did you ever hear a throstle when its thirst flared into blazes?

The ukulele has a werble that will burble till it sobbles

Like the gastronomic guinea who is glumphy as he gobbles,

But the meaning of it's occult, like the psychics when they sizz—

Have you ever looked at wizards showing lizards how to wizz?

**G**OODYEAR Cord Tires ride with utmost comfort. Their great oversize combines the added cushion of an increased air-volume with the natural liveliness of Good-year cord construction.

They are protected from stone-bruise and blow-out because they are built of flexible cords without cross-weave, so that they yield to impact with road obstructions.

Goodyear Cord users find these advantages, and the long mileage due to the character of the tire, worth far more than the difference in price.

Goodyear No-Hook Cord Tires are fortified against:

Rim-cutting—By our No-Rim-Cut feature.

Blow-outs—By our On-air Cure.

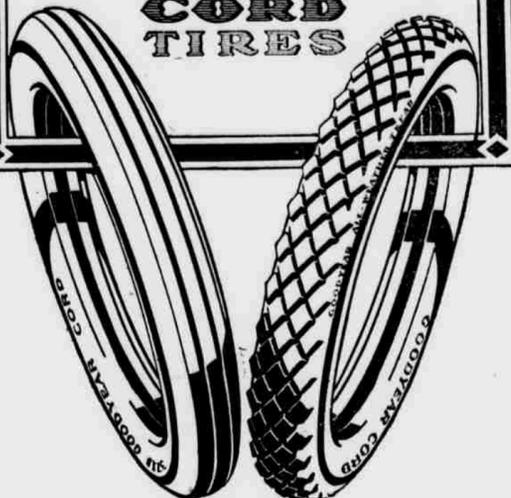

Loose Treads—By our Rubber Rivets.

Puncture and Skidding—By our Double-Thick All-Weather and Ribbed Treads.

Insecurity—By our Multiple Braided Piano Wire Base.

## CRISCO

For Frying—For Shortening  
—For Cake Making

### Frying

There is no smoke nor odor. Fried foods are free from the taste of grease. They now are tasty and crisp. They are made more digestible, for Crisco is all vegetable. The same Crisco can be used to fry fish, onions, doughnuts, etc., merely by straining out the food particles after each frying.

### Shortening

Crisco gives pastry a new flakiness and digestibility. Crisco always is of the same freshness and consistency. It's uniform quality makes for uniform results.

### Cake Making

Crisco gives richness at smaller cost. It brings cake-making back to popularity. Butter hills are reduced and cakes stay fresh and moist longer.

Has a very Creamy Lather as a result of scientific Soap-making. Does not waste.
