LIHUE PLANTATION BUYS CONTROL OF MAKEE SUGAR

The deal whereby a controlling interest in the Makee Sugar Company will, in a short time, pass to the Lihue Plantation Company, Ltd., was consummated at Honolulu last week, the final exchanges being made on Friday.

Colonel Z. S. Spalding makes the sale and the purchaser for the time being is George Rodiek, of Hackfeld & Company. It is generally understood, of course, that the interest involved will shortly be transferred to Lihue Plantation Company.

Colonel Spalding sells 2501 shares of the stock of his company and retains 2499 shares, thus giving the control to the purchaser.

Lihue Plantation Company will continue the development of Makee in connection with Lihue and Hanamaulu. Details as to how the scheme will be worked out remain to be formulated.

It is understood that Colonel Spalding will remain at Kealia until next spring and will then probably remove to Los Angeles.

BASEBALL GAMES IN N. G. H. LEAGUE

Third Trims First And Medicos Lose To Second

Although the battalion contests in the military baseball league are now on, small crowds witnessed the contests at Lihue and Kealia Sunday afternoon. This was unfortunate, for a very good article of ball was put up at both places, and there were periods of excitement sufficient to satisfy the most ardent "fan."

At Lihue park the pick of the third battalion met the first battalion which consisted, however, almost entirely, of the players of Company B. The contest was fast and furious, although in one inning the first battalion went in the air and the thirders piled up four runs. This dis-

Pleased With Building

While in Honolulu Miss Mumford, of the Lihue school, inspected some of the school buildings and premises. A city paper has the following concerning her visit there:

Miss Charlotte A. Mumford, principal of the Lihue, Kauai, school, has returned from a vacation tour in Canada. She will leave the city for the Garden Island today. In the course of her visit here Miss Mumford inspected with deep interest the new building erected this summer on Central Grammar grounds.

Her interest was especially aroused by reason of the fact that a \$40,000 school structure is to be built at Lihue next year. The money already is available, having been appropriated for the purpose by the last legislature.
