**Might as Well Have It**

Armco may cost a little more to buy, because it costs a lot more to make, but it lasts.

THERE is no mystery about Armco iron's resistance to rust. Simply the fact that weather cannot disintegrate a fine, solid iron of 99.84 per cent purity.

Ordinary iron is flaky and the chemical impurities combine with salt, rain and sun to quickly tear it to pieces.

**Y. M. C. A. NOTES**

Kauai Y has just received a shipment of ten illustrated lectures by Dr. Newell Dwight Hillis, of Brooklyn, which are being circulated under the Better America Lecture Bureau of New York City. These lectures are of a high order and the slides illustrating the subjects are the finest of workmanship. They interpret American life as it is to Americans and would-be Americans. It is the purpose of the Y to present these splendid lectures to as many Kauai people as can be reached, and a special committee is being formed to facilitate the enterprise.

The regular night school year begins this week and a number of new classes will be formed. At Waimea the classes will be under the direct supervision of Mr. R. C. Macdonald, and the classes at Lihue will receive the careful direction of general secretary Warner.

In addition to their duties as members of the public school athletic league Secretaries Warner and Macdonald are devoting regular hours to the conduct of calisthenics and organized games at Kekaha, Eleele, Lihue and Kauai high schools respectively. The high school has organized its own athletic association, and not being eligible to the public school league, will conduct its own organized athletics under the direction of Mr. Warner, assisted by Miss Soule and the teachers. Already some lively interclass base ball games have been played, and no doubt the high school, with its unusually large attendance this year, will have some pretty formidable teams to challenge all comers in various sports during the year.

Interest in the armory sports increases. Last Wednesday there was an attendance of 38 men and boys. Business men and lunas will do well to drop in for a frolic with the regular fellows who turn out on Monday and Wednesday nights.

**LIHUE UNION CHURCH**

The attendance at Sunday school at Lihue Union reached the number of fifty last Sunday, marking a steady increase since the vacation recess. An adult class is being formed in addition to the young men's class and a teacher training class recently organized under the leadership of Mr. Bayless and Miss Elsie Wilcox respectively. Mr. H. S. Simpson has been appointed assistant superintendent and several substitute teachers being now available a very successful year is assured.

The choir loft was well filled last Sunday and a creditable anthem, "Prise Ye the Father," from Gounod, was rendered. The pastor preached a forceful sermon, setting forth the great social reforms in the last century resulting from the influence of Christ in the world.

Invitations special and general are out for the social evening that will be the occasion at the Manse next Friday night. All members of the church and congregation and their friends are cordially invited.

**WEEKLY WAIMEA SCHOOL NOTES**

(Continued from page 3)  
children between four and six years of age.

The school kitchen is serving a goodly number of children daily and lunch to all the teachers.

The shop has equipped the kindergarten with benches, tables, sand tables, etc., beside making repairs about the school, building cottage furniture and building and placing garbage cans over the school yard.

Gardens were planted last week. Mr. Ferreira coaches athletics, and now meets the playground ball squad each afternoon for two hours.

Last Friday night many Waimea teachers enjoyed a picnic at Makawell landing. The occasion was the first meeting of the Mana-Eleele Teachers Association. Committees were appointed and a general program for the coming year was discussed.

Monday, the 27th, the Waimea School Athletic Association was organized. Over \$50.00 was realized from membership fees and other sources. The money will be used for the purchase of athletic equipment.

**GROVE FARM IMPROVEMENTS**

Grove Farm plantation has recently completed the erection of a store and warehouse, and lumber storehouse just opposite the machine shops.

**99 in 100 Miller Tires Outrun Standard Guarantees**

**O**RDINARY tires made side by side in the same factory differ in mileage enormously, because the men who build them differ in the kind of work they do.

If you get a "lucky" casing, it may run between 5,000 and 10,000 miles. The next may fail under 1,000.

Not so with Miller Tires. These wear the same under like conditions. Miller succeeded in building tires uniform by training champion workmen to build uniformly. 99 Millers in 100 outwear

guarantees. Thousands of records furnish conclusive proof of this.

Take the safe course as proved by everyday averages. Don't trust to luck. Get Miller Tires from the authorized Miller dealer in your town. Try a pair on opposite wheels. You will find that they wear alike as we say
