

## School Notes

### WHAT THEY ARE DOING AT OUR SCHOOLS

(Continued from last week.)

By the time we finished our visit to the Koloa school it was past 11 o'clock, so we had to pass right by Kalahoe school in order not to keep Mrs. Pugh waiting at lunch for us at Elelee. We stopped at Kalahoe school on our way back in the afternoon, but as it was after 2 o'clock we did not have the pleasure of a visit. However, Mr. Pugh has promised that we shall call in there on our next trip.

We arrived at Elelee a little afternoon, and after partaking of a delicious lunch prepared by Mrs. Pugh, we paid our respects to Principal Brodie, and visited that wonderful branch of this institution, the school kitchen, which is presided over by that most efficient domestic science instructor, Miss McKay. After a survey of this kitchen I mentally resolved that some day I am going to happen around there at 12 o'clock and see if they won't invite me to lunch with them. Miss McKay, by the way, is to take over the domestic science department of the Kauai high and grammar school next year in the absence of Miss Lindsay, who is going back to college.

Mr. Pugh next took me down into Hanapepe valley to inspect the banana grove that Mr. Brodie and his school boys have planted on the old school site, next to Mr. Brodie's home. These bananas were planted properly and are being properly cared for, with the result that they have shown a wonderful growth, and the fruit has every promise of being of a superior quality.

This was as far as we got on this visit, as it was now after school hours. Some day, in the near future, I hope to again accompany Mr. Pugh upon his rounds and visit the rest of the schools.

### KAPAA SCHOOL

A new bug invaded our gardens in great numbers last week and nearly put us out of business. Kerosene oil however, stopped the advances, and the situation is now under control.

Contractor Goss and his carpenters arrived on Monday to begin the construction of our new shop. It is expected that the job will be finished in three weeks.

Although we are having an unusually large crop of corn, the demand is exceeding the available supply.

R. M. Allen of the Kilauea Sugar Co. talked to the upper grades last Thursday on the subject of plantation irrigation.

Rev. Bayless of Lihue and Rev. Schenck of Honolulu paid us a visit last Thursday.

We are buying large quantities of milk from the Mahelona hospital farm for the benefit of the school children.

The first regular game of the 1922 volleyball season will be played on Friday, with Lihue coming to invade us on our home grounds.

### LIHUE GRAMMAR SCHOOL

The Lihue school shop is selling all kinds of toys to the school children. They are enjoying them very much. We made an office for the shop and have almost finished it except the painting. We also made a number of book racks, waste baskets, typewriting tables, screens, sign boards and other school necessities. In the shop we also have a tool room. The tool room is fine and dandy with the tools in their proper positions and checked by a monitor from each grade whenever they enter the shop to work.

They are going to make a new school building in the new yard. They haven't enough lumber to start yet but they will begin to build in the near future.

The boys and girls of the Lihue school are practicing hard for the coming carnival at the armory. We are busy making posters.

The kitchen is serving delicious lunches to the children.

There are many fresh vegetables to sell at the Lihue school garden. And orders can be taken at the shop.

### WAIMEA SCHOOL

The boys have shown great interest in the annual Home and School Garden contest. The size of the garden has been somewhat cut to make room for the new shop, but more time will be given to the space that is left.

The new shop will be done in about a month. The shop classes are anxious to try the new building and equipment. The move from the

### WAIMEA SCHOOL TO STAGE A VAUDEVILLE

Saturday evening, March 11, promises to be an interesting one at the Waimea hall. A first class vaudeville performance will be offered. From the first crash of the orchestra, followed by the usual Pathe News Weekly and the comedy to the final act by the Japanese trapeze experts, the program will be a winner. The show is being put on by the school and the young men of the community. Proceeds are for the shop, athletics, the junior high school laboratory, and for song books for the school. The advance sale of tickets already assures a packed house. The vaudeville will be followed by a dance. Waimea Jazz orchestra.

The following program will be offered:

- A—Pathe Weekly.
- B—Comedy: Charlie Chaplin.
- C—Manikin Parade.
- D—Indian Club Drill.

- P—Trapeze and Horizontal Bar Acts.

### INTERESTING FACTS CONCERNING THE Y.W.C.A.

The commission which has been appointed by the Commissioner General of Immigration W. W. Husband, has been studying conditions at Ellis Island, and their recommendations for the improvement of care for immigrants detained at the island are to be put into effect immediately.

As a member of the general committee of immigration aid and because of its widely distributed work in this country and abroad, the Y. W. C. A. has had the opportunity to co-operate with the commission.

Some of the work which they are interested in is in the appointment of interpreters for service among the immigrants waiting inspection, and the development of a plan for the exchange of information between immigrants and their friends, and an insistence that when aliens are debarred and deported the reasons shall be explained to them.

In the state of Travancore, India, the Y. W. C. A. has 120 members, is entirely Indian-Syrian Christians, with a few Anglo-Indian members. This organization has been running for three years. Mrs. Lukose, the president and first girl from the state of Travancore to go abroad to study, spent seven years in London studying medicine. She is the head of the Women's and Children's hospital, the best equipped hospital, save one, in all India.

Girl Reserve high school clubs in Kansas City, Mo., are taking younger girls in the city for their charges. Each club will have three girls, some of them will be tuberculosis patients, some girls who have to stay at home day by day and who need friendship and happiness brought into their lives. The names of these were secured through a school visitor.

One special feature of the community Y. W. C. A., of Van Wert, Ohio, will be the classes in corrective gymnastics for children who were examined last May during the crippled children's clinic in the Y. W. C. A.

The Y. W. C. A., sent Marcia Dunham, first women's worker, into Russia with Colonel Haskell. A late dispatch from Col. Haskell states, that the number of men, women and children actually face to face with starvation is estimated at 15 millions. The first effort is being made toward saving the children.

old building to the new one will make another class room available and relieve a class at the Japanese school.

Rev. Hall and Rev. Schenck, of the Hawaiian Board of Missions, made the upper classes a visit on Tuesday last. Rev. Schenck addressed the classes on "The Four keys to Success." He said that the four most important keys were courtesy, kindness, industry and loyalty. Rev. Schenck makes an impression on the school each time he visits. They were sorry to learn that this was his last visit for perhaps more than a year.

Washington's birthday program was extended over Tuesday and

### KAUAI SCHOOLS' MUSIC FESTIVAL

This year's music festival will be held at the Tip Top theater on Saturday, May 27, according to information given by the board of governors composed of Mrs. Sinclair Robinson, Mrs. W. H. Rice, Jr., and Mrs. A. Menefoglio. This board has also appointed the judges for this year's festival and each judge will have five schools to pass upon and pick out the best chorus for final judging in Lihue.

The board of governors have formulated the following rules to govern the festival.

#### Rules and Regulations Governing Music Festival for the Kauai Public Schools.

Section 1. The annual singing contest shall be known as the Music Festival.

Section 2. The silver cup presented by the Star-Bulletin shall be won three times by the same school before it may be retained permanently by that school.

Section 3. The school districts shall be five in number, as follows:

District No. 1—Mana, Kekaha, Waimea, Makaweli.

District No. 2—Elelee, Kalahoe, Omoa, Koloa.

District No. 3—Huleia, Lihue, graded, Hanamaulu, Lihue grammar.

District No. 4—Wailua, Kapaa, Oloheua, Anahola.

District No. 5—Kilauea, Koolau, Hanalei, Haena.

Section 4. There shall be five judges selected. These judges shall select a day in May most convenient for them to visit each school and shall notify each principal beforehand.

Section 5. No chorus shall consist of more than 35 voices.

Section 6—(a) Each chorus shall present three songs, one of which shall be "America," one Hawaiian song and the other optional with the music director of each school.

(b) There shall be no instrumental accompaniment to the songs.

(c) The songs sung at the primaries shall be sung at the finals.

(d) The music director shall not sing with the chorus during the contest.

Section 7. The points on which the chorus shall be judged are as follows:

1. Accuracy.
2. Rhythm.
3. Pitch.
4. Expression.
5. Enunciation.

Each point counts 20 per cent judging the work of each chorus on a 100 per cent basis.

Section 8. Each school shall finance the transportation of their respective choruses.

Judges of the Festival. The judges of the festival this year are as follows:

District No. 1. Mrs. Sinclair Robinson.

District No. 2. Mrs. Waterhouse.

District No. 3. Judge Achi.

District No. 4. Albert Horner Jr.

District No. 5. Mrs. Wood.

It will be noted that the change from the "Star Spangled Banner" to "America" is a good one for two reasons, first because very few children could sing the high notes of "Star Spangled Banner" effectively; and secondly, that the confusion caused by a large number of people suddenly standing up after the first two or three words of the song creates a sudden embarrassment on the part of the chorus and causes them to waver momentarily.

It should be noted that the date on which the festival is to be held is also the same as that of the county fair, which is announced in another part of this paper.

The first annual exhibit of industrial work from the schools will also be held upon this date at the fair.

Eighth grade examinations this year will be enlarged to cover shop work and domestic science.

In view of the present financial stringency the board of commissioners at their last meeting decided to eliminate all extra classes in shop and kitchen and incidentally the extra \$20 per month that goes with these classes.

Thursday as it was too long for an outside exercise at one period. Each class contributed an interesting and patriotic number. Mrs. Wright led the school singing.

The school yard equipment now consists of one tight wire outfit, one flying ladder, one merry-go-round, one climbing rope, five swings, four horizontal bars, two climbing bars, five saw-saws, and eight trapeze. The entire school of boys are doing well on the bars and trapeze, tight wire and other apparatus which carries with it interest and daring.

Special practice is carried on regularly by the novelty teams who will appear on the vaudeville program in March.

### HERE ARE SOME MORE OF THOSE THRIFT ESSAYS

The four prize winning thrift essays were published in this paper last week. But there are a number more essays, in the honorable mention class, that are almost as good as the first four. Here are a few of them:

#### THRIFT

By Ah Sun Dang, Elelee school, age 15, 8th grade.

Thrift week was set aside on Benjamin Franklin's birthday because he was a great and thrifty statesman. He invented many things that are useful to all the people.

We should always work and not be idle. We must always find something to do even though we have thousands of dollars and large estates.

We should spend wisely. We should only buy things that are necessary in life. A thrifty person does not spend his money on anything that he sees. A person who is not thrifty would spend his money on whatever he sees whether he needs it or not.

We must pay our bills promptly and on time so that we do not have to pay interest to the stores. The longer we owe the money, the more interest we have to pay.

We should save all that we can but that does not mean that we must keep everything for ourselves. We can share everything that we have with others, but we must not waste anything. We should not throw away any clothes that can be worn. We should not waste any paper or anything that can be used.

We must throw away any rice, bread, cake or any kind of food. If we have a nickel or a dime we must not spend it on candy, ice cream or gum but we should save it. Instead of going to the moving pictures every night we should save the money. We should put our money in a savings bank where our money can work for us. If we keep our money in a stocking or an old shoe or in the corner of our house robbers might steal it, but if we keep it in a bank it is always safe.

#### HOW TO BE THRIFTY

By Kaneyama, 15 years of age, 8th grade, Kekaha school.

Thrift means to save anything that is useful and when you are saving, you are also earning. Save time, food, and clothing, and you have saved money. Suppose you had a piece of cloth worth 25 cents and throw it away, you don't want to throw 25 cents away, do you? Well, it is just the same as throwing money away.

You must save almost everything that is left. You must save some food that is left, a piece of cloth or anything useful. You must not waste time. Always do something when you have leisure time. When you waste time you can't get it back again.

The result of being thrifty is that you become wealthy, wise and noble.

#### THRIFT

By Vincent Fernandes, age 13, 6th grade, Makaweli school.

Thrift means prosperity and gain, not to spend foolishly. To save does not mean to save all and to go hungry, but to save just enough. We must not only think of ourselves, but help others if they are in need. We should earn some money honestly each month.

We should also have good habits. Some good habits are: "Early to bed, early to rise makes men healthy, wealthy and wise," mind your own business, work steadily while you have strength and courage and you will be promoted to a higher position, pay your bills promptly, keep out of debt, keep a budget, plan before spending. Spending without thinking means a great deal of trouble to you and others, and if you do not succeed at first try and try again.

If you have a lot of money, put it in the bank, because if you do not you may be swindled. Work honestly and eat nourishing food. We should make a will, this will help others. We must also save money till we succeed like Marshall Field.

Marshall Field was a little boy who lived on a farm. One day his father took him to a friend who was a storekeeper. His father said that he would like to have Marshall work there. After a month his father came back and asked how his son was getting along. The storekeeper said, "Your boy is no good for a store-keeper. He hides under the counter every time a customer comes in. You had better put him on the farm again."

Marshall Field had been listening and said to himself, "I will show them if I can't become a store-keeper," and after that he became so used to it that he would not hide under the counter any more.

All the time Marshall Field had been saving his money. When he became a little older and had enough money he went to Chicago and got a position in a big city store, still he saved.

One day he had enough to buy out the store and after that he enlarged the store. Now today it is one of the largest stores in America.

Marshall Field lived until two or three years ago.

#### THRIFT

By Yutaka Moriaki, age 12, 5th grade, Hanamaulu school.

Thrift is a sensible saving of money, time and self, so that one becomes successful and prosperous. Benjamin Franklin was one of our thrifty men. He learned how to use electricity and helped his country.

An old man was watching some children who were well dressed, and he shook his head and said, "No patches any where but patches put me through college." That shows he was a thrifty boy and became a thrifty man.

Waste is an enemy to any country. The great war showed America what waste means.

Until 1917 the United States had the fattest garbage can in the world. That is they wasted more food than any other nation.

After the United States went into the war—we learned how to save. Now we are becoming a thrifty nation.

There are many helps for persons who wish to save. Among these are savings banks, insurance companies, postal savings banks, war savings stamps.

Every dollar that is placed in a savings bank is a help to the country which we live in.

Save your old clothes and patch them when they are torn.

Do a thing and stick to it. Don't give it up.

Do your work carefully first and you will save time.

Everyone ought to be thrifty, to give out to the poor, to do good shows how to spend your money wisely and save time.

There were tribes of pygmies. One tribe was working all the time and the other tribe was playing all the time. The tribe that worked all the time was changed into bees and the ones that played all the time was changed into flies.

The tribe that worked all the time was thrifty, and the other tribe was not thrifty.

When you earn your money don't spend it all but put it in the bank.

You must read good books, talk good things and be honest and truthful.

Everyone must be thrifty. Try and be thrifty.
