

HE GAVE THEM FACTS.

J. A. McCANDLESS REFUTES THE ROYALISTS.

A Strong and Cogent Plea for the Annexation of the Hawaiian Group to the United States.

ELLENBURGH, Wash., July 15.—In the Review of July 10th there appeared a communication under the heading, "The Hawaiian Question," by Mr. Posey S. Wilson. Mr. J. A. McCandless, who was a member of the Advisory Council and Committee of Safety at Honolulu at the time of the revolution there last January, has been interviewed by the Review correspondent, having recently arrived from the Islands, and he takes issue with some of the statements made by Mr. Wilson, and as the question is one of general interest, and as the Review always desires to give all sides a hearing and fair treatment, his statement, if given a place in your columns, will no doubt throw additional light upon this question.

Regarding the assertions of Mr. Wilson, that "the quarrel there now is apparently over the spoils; the Provisional Government is made up of a lot of men claiming citizenship here, yet ambitious to rule there or annex the Kingdom to the United States, and some Englishmen or Americans who have always been influential with the King and Queen," Mr. McCandless says that S. B. Dole, the President, has resigned from the supreme bench to accept this place at a less salary. W. O. Smith, Attorney-General, gave up a lucrative law practice to stand by the new Government. S. M. Damon, Minister of Finance, is of the banking firm of Bishop & Co., the largest financial concern on the Islands, and they all enjoy the highest social standing. Captain J. A. King, Minister of the Interior, is superintendent of the Wilder Steamship Company and, like all the others, took the responsibility he did from a high sense of duty only.

The Advisory Council was made up much as a board of trade is in any live town, and is composed of the most public-spirited and patriotic men of all nationalities, and they are giving their services without any compensation. To show the class of men who stand under the banner of annexation, the following classification of the taxpayers of the Hawaiian Islands was pointed out by Mr. McCandless. It appears in the HAWAIIAN STAR of June 17, 1893, and is a list of men assessed for over \$10,000, and is taken from the official tax books. It shows that the Annexationists pay \$23,498,420; divided (companies who are partly for and partly against annexation), \$5,127,670; doubtful, \$1,151,675; Royalists, \$2,289,293; Republicans, \$270,872.

The natives and half castes paid last year one-seventh of the tax of the Hawaiian Islands, the Americans and Europeans paying the other six-sevenths. This is a statement from the tax office and was furnished at the request of Commissioner Blount. There is not a native Hawaiian holding a business license in the city of Honolulu and they do not contribute to the city's coffers.

Referring to your contributor's assertion that the autonomy of the kingdom is guaranteed, Mr. McCandless declares he is misinformed, and he quotes from the official report of the state department, 1893, entitled, "Papers Relating to the Annexation of the Hawaiian Islands to the United States," which says a treaty between England and France was signed November 28, 1843, wherein they agreed NEVER to take possession or interfere, but the United States REFUSED to join them then, and it again refused like overtures on Feb. 15, 1880, Secretary Bayard declining. Mr. Wilson says: "England, probably, has no designs on the islands, for a British Admiral years ago raised his country's flag there, taking possession only to have his act disavowed by the Government."

This same state department document says that Lord George Paulet, of the ship Caryfort, raised the British flag in 1843, on account of some fancied wrong to one of the Queen's subjects. Admiral Thomas, who was lying at Valparaiso at the time, arrived at Honolulu soon after and promptly lowered the flag, and put up the Hawaiian flag and saluted it.

Further, on July 12, 1887, Cleveland sent a dispatch (No. 52) to Minister Merrill to land troops to protect American lives and property and to keep American interests in the ascendancy. As to the "outrageous" reciprocity treaty referred to by Mr. Wilson, Mr. McCandless thinks these figures speak for themselves. Since the treaty went into effect \$75,000,000 has been saved to the Hawaiian Islands in duties remitted, and the export trade from San Francisco to the Islands is second only to Great Britain. The Government is to-day running inside of expenses for the first time in twelve years, and it is in every way superior to any they ever had there.

Mr. McCandless thinks, as a citizen of the Hawaiian Islands and an American citizen, that the Americans on the Islands have a right to expect annexation in view of the policy of the United States Government towards these Islands during the past fifty years. The Provisional Government is able, he says, to hold its own until it gets me other administration at Washington ready to take them in. He says, after

HONOLULU TREE PESTS.

A WAY FOUND TO RID US OF THEM.

The First Fruits of the Work of the Commissioner of Agriculture—A Good Offer.

A representative of this paper was fortunate enough to find Commissioner Marsden engaged in answering a letter recently received from Prof. Koebel, of Alameda, California. This gentleman is one of the most scientific entomologists in the United States. He is now in the service of the California State Board of Agriculture, by whom in 1888-89 he was sent to these Islands, Fiji, Samoa and Australia, under instructions from the United States Department of Agriculture, Division of Entomology, to try and discover some natural enemy of the flat d or cotton cushion scale (Icerya purchasi) Maskel which was devastating California orchards, with a view to introducing the most efficient of them into California. In Australia he made the discovery that an insect known as the Cardinaledia (Vedalia Cardinalis) mulsant was a natural and deadly enemy of the cottony cushion scale, and a number of them were taken to California, besides quantities of eggs, all arriving in good condition, and hatching out as soon as exposed to warmth. These were introduced in the orchards of Wolfskill, at Los Angeles; Dobbins and Chapman, at San Gabriel, and soon demonstrated their efficiency. The State Board of Agriculture then took hold of the work and the parasite destroyer, which is a species of lady bug, was distributed in colonies throughout Central and Northern California, wherever an orchard, garden or shrub was known to be infested with cottony cushion scale, and by December 1st, 1890, the work of exterminating the orchard pest was practically accomplished.

In Bulletin No. 54 of the California State Board of Agriculture, entitled "An Historical Sketch of the Rise and Downfall of the Cottony Cushion Scale in California," the following appears: "The money value of this Vedalia to the orange growers of this State has been incalculable. The saving of the orchards already infested, the protecting of the others that were sure to be blighted by this terrible pest, to say nothing of perpetuating an industry that it seems will be the king of all agricultural pursuits, is simply grand, and cannot be estimated in the usual dollar and cent test. In this connection, we think it proper and just that some fitting memorial should be presented to Mr. Albert Koebel, who came near sacrificing his life in his search for this lady bug and its introduction into this country. Nothing could be more appropriate than the raising of a sum not less than \$2500, with which to buy a neat cottage in Alameda, the home of Mr. Koebel, and present it to him and his wife, as a small testimony of our gratitude."

At the next fruit-growers' convention, assembled in Los Angeles, the above suggestion was adopted, the money raised and a handsome house and lot in Alameda, presented to Professor Koebel. This is one of the men to whom Commissioner Marsden has forwarded specimens of the parasites infesting our citrus and other trees, and the following is his reply:

ALAMEDA, Cal., July 6, 1893. Hon. J. Marsden, Secretary of Agriculture, Hawaiian Islands—Sir: On returning from a trip to Washington and Oregon I found your letter of June 2nd and specimens of scales and beetles awaiting me. No. 1 is a specimen of Dactylopus which are, as I have observed while at Honolulu, the most numerous coccids with you. It is also one of these insects that is so destructive to your coffee trees. I have not found any natural enemies that ever would keep this mealy bug in check at your Islands. I had promised the Secretary of Agriculture, while at your place and on my trip to Australia, etc., that I would look out for all such enemies that would prove of benefit in destroying your scale pests, and have done so. My time would not allow me to send such things destructive to dactylopus and other scales you have. In Australia many insects were found that destroy these scales. A small internal parasite, a chalcid, that lays its eggs in the scale and the larvae of which devour the same, is one of the most valuable for this particular pest, as also the larvae of a cecidomyid, which was found by the million devouring these insects. And many species of lady birds that feed upon them both in larva and imago state. These insects, if introduced into the Hawaiian Islands, would soon within a couple of years or so—free all your various trees and shrubs of these pests, and positively clean out the scale from coffee trees as well. The result would be permanent if these insects were introduced with care, i. e., with out their parasites, for in at that they preyed upon by parasites, and to introduce them with their parasites would be bad; under no circumstances should the work be entrusted to any but an expert, and then only such one who will care more for the results than the pay.

THE CLOSING GAME.

It Was an Indifferent Performance and the Hawaiiis Won.

The closing game of the season of the baseball league, last Saturday, between the Hawaiiis and Crescents, did not prove of sufficient interest to attract the general public for even an average attendance, the first thing being the fact that each nine was expected to do their best in this final tussle. How much they actually did so—rat least some of them—deponent saith not. In some respects the game was a good one, but in others the least said the better were not that when the public is charged for an entertainment, it is not the right thing on the part of any club, or any member of it, to palm off an indifferent style of performance. It is well, perhaps, that the season has closed, else the mutterings of the on-lookers would take the shape of a decided protest. But we have a patient, indulgent community, and they have shown their mild protest by simply staying away.

J. W. Winter did duty as umpire at the home plate and L. Singer served the bases. The score by innings was as follows:

Table with 2 columns: Team and Score. Hawaiiis: 5 0 3 0 0 0 0 0 0 0 8. Crescents: 0 0 1 2 0 4 0 0 0 0 7.

Responsibility for Kalalau.

The undersigned members of the Board of Health feel impelled to resent the attacks made upon the President, Mr. W. O. Smith.

Mr. Smith, in his communication to the papers, July 27th, states the situation exactly as we understand it. The responsibility for the Kalalau affair rests upon the board as a whole, not upon any one member of it; nor can any member escape his share of the responsibility.

GEORGE P. ANDREWS. J. ENA. F. R. DAY.

A Birthday Dinner.

Mr. and Mrs. Thomas Smith gave a dinner on Saturday evening last at the hospitable residence on Piikoi street in honor of the first birthday of their only son and heir. There were present Mr. and Mrs. Andrew Brown, Mr. and Mrs. Thomas F. McTigue, Mr. and Mrs. Thomas Mills, Messrs. Stephen Smith, Muirhead, Moore and Manson.

Off for Chicago.

J. S. Muirhead, a well-known engineer, formerly in the service of the Oceanic and other lines, stopping at this port, leaves on the Mowera for a trip to the N. B. route. Mr. Muirhead will probably extend his tour to Chicago and return by way of Japan.

HONOLULU TREE PESTS.

A WAY FOUND TO RID US OF THEM.

The First Fruits of the Work of the Commissioner of Agriculture—A Good Offer.

feeds upon the mealy bugs, yet I only met with a single tree upon which these scales were numerous, and here these big larvae were devouring them fast. No. 2 is a species of Pulvinaria, and specimens that I took with me from Honolulu, from guava trees, to Mr. Maskell were found to be an entirely new species. He has since named them as Pulvinaria psidii Maskell. This is also a very common insect with you, as I observed, resembling a Lecanium but it begins to exude the cotton. I have found large numbers of insects on my trip that prey upon these scales, and these are chiefly lady birds, some of which are introduced in California. No. 3 is a beetle I cannot make out positively as yet. It belongs to the Scarabaeidae. I will write you more about this later and will find out what can be done. The larvae of these insects feed upon the roots of various plants below ground, and it has been claimed by some of the entomologists here that they have destroyed them by saturating the ground with kerosene emulsion. I do not believe this to be practical, and would not recommend it since since the larvae are found everywhere. The best results will be obtained by shaking these beetles off into a cloth or into an umbrella, in the early morning, from the plants they feed on. The best natural enemies for these insects are bats and what I have recommended to be introduced into your Islands—toads. These latter would also prove of value in feeding upon your sugar-cane borer (Sphinx phorus obscurus). I should be very much interested in seeing them introduced into your island and in the results of the experiment. If the monogone does not destroy the toads they, no doubt, would increase rapidly, and one good-sized fellow could eat about fifty of the Sphenophora or of its little Scarabaeidae beetle every night. Please let me know if you want these toads and I will send you a lot of them. Now, as to recommending to you a party who would furnish you with the enemies for all your scale and other pests. I do not know of one. The work is peculiar, and with a single mist take a few years' work of such a man would almost become useless. As I have already expressed myself to some of your people, I would undertake to do the work and guarantee success. Let me know what salary you could pay me for a term of three years, the time I should want to do the work myself, without any assistance, for I could trust no one. I must examine every single insect that is introduced, and, moreover, know its habits and life history before landing.

Resin compound is the best remedy in destroying the mealy bugs (dactylopus), yet the result is but of short duration, and it will have to be repeated continually, whereas the proper natural enemies, if once introduced, will do the work effectually and permanently and without any further outlay of money.

I met with some valuable fungus diseases destructive to Lecanium and other protected coccids, which readily could be established upon these scales in the Hawaiian Islands. Hoping to be favored with an answer, I remain, dear sir, yours sincerely, ALBERT KOEBEL.

Commissioner Marsden and the members of the Bureau of Agriculture are naturally elated at the prospects held forth for the extinction of these pests by Mr. Koebel, and the matter will be taken up by the Bureau, but the funds at its disposal are too limited to allow it to accept Mr. Koebel's offer without outside assistance, as of course we will have to be paid according to his worth. To a large extent this has already been assured the Commissioner, donations of \$500 down to a dollar a month for three years having already been offered to Mr. Marsden for the purpose of securing Professor Koebel's services, and as soon as the above letter is made public he thinks there will be no difficulty in raising the required sum, which Mr. Marsden thinks should be about \$4000 per year. It will be observed from the foregoing letter that Professor Koebel requires no assistance whatever and guarantees success. Mr. Marsden further calls attention to the fact that in the coffee districts alone more money is now being spent per annum in spraying and other measures, which are only palliative at best, than would pay for the services for three years of this skilled entomologist. The Commissioner further thinks that it is matter which should receive Government aid, as no doubt it will. Those who are willing to contribute to this purpose are invited to send names and amounts to the Secretary of the Bureau of Agriculture.

An Alarm of Fire. The fire alarm sent in at 12:15 this afternoon was from the corner of Alapai and King streets. The grass in front of a small house on Alapai street, occupied by a native family, caught fire and endangered the building. The flames were extinguished just as they reached the porch, the services of the engines not being needed.

The City of New York.

A privy letter received in this city from Yokohama states that the steamer City of New York would not leave Yokohama until the 22nd. If this be correct, she will not be due here until Wednesday or Thursday.

Football Game Postponed.

The Boston team will leave for target practice on Thursday and the football game between the sailors and the local team will be postponed until Saturday week.

An Historic Flag.

The navy flag which flew in this city during the Steven's protectorate was condemned by a board of survey on the Boston last week and purchased by Lieutenant Lucien Young.

FLOTSAM AND JETSAM.

SCHOONER TRANSIT, FOR SAN FRANCISCO.

Claudine, from Maui—The Sunday Fleet—Mokoli, for Lanai Today—Items Alongshore.

The schooner Aloha is receiving the sugar off the steamer Waialeale, and the schooner Talbot the cargoes of the Iwain and Liholilo to-day. The big hoisting shears are erected over the steamer G. H. Hall, and her boiler will probably be hoisted out tomorrow. The W. G. Irwin left San Francisco on July 21st. The American bark Annie Johnson arrived at Kahului July 27th from San Francisco. The American bark Colusa sailed from Kahului June 26th for San Francisco, well laden with sugar. The American schooner Transit sailed this afternoon with a small cargo of sugar for San Francisco.

MONDAY, JULY 31.

DIAMOND HEAD, 3:30 P. M.—Weather clear. Wind light, E.

ARRIVALS.

SUNDAY, July 30. Steamer Claudine, Davies, from Maui & Hawaii. Steamer Iwain, Freeman, from Kaula. Steamer Waialeale, Smythe, from Hamakua. Steamer Fele, Peterson, from Makalei. Steamer Mahimahi from Waialua. Steamer Kawaiiani from Koolau. Steamer Sarah and Eliza from Koolau. Steamer Liholilo, Andrews, from Waimea. Steamer Haleakala from Kona. Am bk Annie Johnson, from S. F. (at Hilo) July 27.

DEPARTURES.

MONDAY, July 31. Steamer Kaala, Gahan, for Waianae, Waialua and Kaula. Steamer J. A. Cummins, Nelson, for Koolau. Steamer James Makee, Haglund, for Kapaa. Steamer Mokoli, McGregor, for Molokai. Steamer Kaulikei for Kohala. Steamer Kawaiiani for Koolau. Steamer Sarah and Eliza for Koolau. Steamer Ka Mo for Kohala and Hamakua. Am bk Transit, Jorgenson, for San Francisco (from Kahului) for San Francisco July 26.

PROJECTED DEPARTURES.

Steamer Kinau, Clarke, for Maui and Hawaii, to-morrow at 2 p. m. Steamer Claudine, Davies, for Maui, to-morrow at 5 p. m. Steamer Iwain, Freeman, for usual Mikahala route, Wednesday at 5 p. m. Steamer Waialeale, Smyth, for Hamakua, Kilauea and Hanalei to-morrow at 4 p. m.

PASSENGERS.

ARRIVALS. From Hamakua, per steamer Waialeale, July 30—Mrs W. Grote, Mrs. H. A. Swift and two children, and 23 on deck. From Maui, per steamer Claudine, July 30—G. P. Wilder, E. Wodehouse and family, H. S. Rickard, J. Boney, E. R. Biven, Dr. G. P. Andrews, F. E. Atwater, Father Sylvester, Father Biesen, Father Boniface, L. von Tempy, wife and child, A. Ehlers, wife and 2 children, Mrs. Lansing and 2 children, H. F. Wichman, Miss Rinker, George Munday, Miss Munday, W. V. Ashford, Wm Stoddard, Ah Sing, Ah Young, C. Alama, W. A. Kiba, and 34 on deck.

IMPORTS AND CONSIGNEES.

Ex Haleakala; 1 cargo firewood for James I. Dowsett. Ex Pelee; 3145 bags sugar for W. G. Irwin & Co., acct Makaweli Plantation. Ex Liholilo; 1200 bags sugar for W. G. Irwin & Co., acct Makaweli Plantation. Ex Waialeale; 3112 bags sugar for H. Hackfeld & Co., acct Pioneer Mill; 122 hides for P. C. Jones. Ex Iwain; 200 bags sugar for W. G. Irwin & Co., acct Makaweli Plantation; 19 cattles and 40 sheep for Metropolitan Meat Co. Ex Claudine; 2490 bags sugar for Theo H. Davies & Co., acct Laupahoehoe Sugar Co; 71 cattles for Metropolitan Meat Co, 32 hogs for Hop Yuen, 18 hogs for Sing Chung, 20 hogs for F. F. Porter, 14 hides for F. F. Porter, 27 hives for McChesney & Sons, 114 bags potatoes for McChesney & Sons, 114 bags potatoes for F. C. Cooke, 26 blis fruit for Haw's Fruit & Taro Co, 157 bags potatoes for various, 106 bags corn and 688 bags sundries for various.

EXPORTS AND CONSIGNORS.

Per Transit; 536 bags sugar by F. A. Schaefer & Co, 4735 bags sugar by Castle & Cooke, 4048 bags sugar by T. H. Davies & Co. Total 9919 bags (1,263,738 lbs). Value \$49,143.

VESSELS IN PORT.

Concert To-Night.

The regular Monday evening concert of the Hawaiian Band, Professor Berger conducting, will be given this evening at 7:30 at Emma square, the following selections being rendered:

- PART I. 1. March—"Vienna".....Schrammel 2. Overture—"Bandit Tricks".....Suppe 3. Miserie—"Il Trovatore".....Verdi 4. Selection—"Rose of Castille".....Balle PART II. 5. Selection—"Patience".....Sullivan 6. Euphonium solo—"Long, Long Ago" 7. Waltz—"Pretzliball".....Strauss 7. Waltz—"Doctoring".....Strauss 8. Galop—"From House to House".....Faust "Hawaii Poni".

THE SUPREME BENCH.

Where the Justices Will Spend Their Midsummer Vacation.

Mr. Justice Frear is to be married to Miss Dillingham on Tuesday and the couple will make a wedding journey to Kahuku, at the northern end of this island.

Mr. Justice Bickerton and family are expecting to spend a few weeks at Spreckelsville and at Makawao, on Maui, leaving here per Claudine on Tuesday.

Chief Justice Judd and family intend going on Wednesday next to Kuaioa, twenty miles from town, to spend most of the month of August at the ranch owned by his brother's family. This will be the first time since the Supreme Court was organized in 1852 that all the Justices will be away from the city of Honolulu for any length of time. The Court having now, by the Judiciary Act of January 1, 1893, solely appellate jurisdiction, and the District Judges having concurrent jurisdiction with the Justices of the Supreme Court in regard to the issuing of special writs, the absence of the Justices together will not embarrass the community.

C. H. Braag is the only passenger booked for the steamer City of New York, due to-night. Mr. and Mrs. E. Wodehouse returned by the Claudine from their bridal trip to Maui. A. Ehlers, the Fort-street dry-goods merchant, with his wife and two children, returned yesterday from a visit to Maui. The Duke of Newcastle and valet, Gambier Bolton, and S. E. Damon returned from Kauai yesterday on the Iwain.

CANT SERVE TWO MASTERS.

A Deserter From the Adams Enlists in the Provisional Army.

Captain Juen captured a deserter from the U. S. S. Adams on Saturday night under rather peculiar circumstances. The man had been missing for over ten days, but his whereabouts are explained when it is stated that he had enlisted in the army of the Provisional Government and had been in the Executive building. Captain Juen found him outside the railings of the building in citizen's clothes and arrested him forthwith. The man strenuously denied his identity, but was recognized at once by the sergeant-at-arms of the ship. In fifteen minutes after his arrest he was on the way to his old quarters.

NEWS IN A NUTSHELL.

The Honolulu Iron works are crowded with work at present.

Consul-General Wilder has been recognized by the President.

The trial of J. Machado for assault and battery has been set for to-morrow.

Seventy thousand dollars in gold for the local banks were cleared last week.

There is a fine collection of San Francisco photographs and views on exhibition in Thrum's window.

The charge against M. Correa for furious and heedless driving has been dismissed for want of prosecution.

Judge Whiting will hear the petition for the approval of the accounts of the estate of H. A. P. Carter to-morrow.

A meeting of the Reciprocity Sugar Plantation Directors is called for to-morrow at Hon. W. O. Smith's office.

Road Supervisor Cummings has a force of men at work to-day repairing Merchant street, between Nuuanu and Fort.

Two drunks forfeited \$6 bail each in the District Court this morning, and two others were fined \$2 each and \$1 costs.

The argument on the demurrer in the case of the Honolulu Soap Works vs. T. W. Rawlins, has been set for Thursday at 10 A. M.

Very little business has been transacted to-day at either Government building, this being the end of the month and salary day.

A stone sidewalk is being laid in front of the new Safe Deposit building to-day, and the unsightly scaffolding will be torn down during the week.

Objections to the amended complaint in the Katzenjammer case were overruled by Police Judge Foster and a hearing of the action was set for three o'clock this afternoon.

In the opium case against Sen Chew and Ack Chan this morning the latter pleaded guilty, and was fined \$50 by Judge Foster. The charge against Sen Chew was dismissed.

In the matter of the bankruptcy of Antonio Borja, of Wailuku, Maui, a petition for final discharge has been filed this afternoon. The hearing is set for Wednesday, August 16th.

There were eight arrests to-day, divided among three nationalities—Chinese, Hawaiian and Portuguese. Three were for che-fa, three for assault and battery and two for a street affray.

Mrs. Eliza Prescott Luce, mother and heir of George Harry Luce, deceased, was this morning appointed administratrix of his estate without bonds. The estate is valued at \$5600.

The case of Chow Pen, charged with extortion, which has been dragged along in the District Court since July 5, has been dismissed, counsel for defendant agreeing that his client shall not bring any civil suit on the same matter.

In the case of W. C. Peacock vs. Geo. W. Lincoln, S. C. Allen, John Nott and the Hawaiian Hardware Co., the plaintiff has filed an indemnity bond on injunction in the sum of \$2000, with C. A. Peacock and J. G. Rothwell as sureties.

NOTICE.

A Special Meeting of the Stockholders of the RECIPROCITY SUGAR COMPANY will be held at the office of W. O. Smith, Merchant Street, on TUESDAY, AUGUST 1st, at 9 A. M.

W. R. CASTLE, Secretary.

PERSONAL.

L. Von Tempy and family are in the city. Dr. G. P. Andrews has returned from a trip to Maui.

Captain Ferguson and family and H. Focke moved to Sans Souci last week.

H. F. Wichman, V. V. Ashford and G. P. Wilder returned yesterday from a trip to Maui.

Mr. and Mrs. G. P. Wilder, of Maui, will leave shortly for a three-months trip to Chicago.

C. H. Braag is the only passenger booked for the steamer City of New York, due to-night.

Mr. and Mrs. E. Wodehouse returned by the Claudine from their bridal trip to Maui.

A. Ehlers, the Fort-street dry-goods merchant, with his wife and two children, returned yesterday from a visit to Maui.

The Duke of Newcastle and valet, Gambier Bolton, and S. E. Damon returned from Kauai yesterday on the Iwain.

C. A. Peacock and wife, Dr. Campbell and family and Miss J. Renwick are booked for the Mowera, due to-night from the Colonies for Vancouver.

Rev. J. B. Wakefield, rector of Trinity church, San Jose, accompanied by his daughter, arrived on the Mariposa and will spend a month on the Islands.

Charles W. Day, business manager of the STAR, is confined to his house by an attack of the grippe, the result of a cold contracted in going to see the Monowai off.

FOREIGN MAIL SERVICE.

Steamships will leave for and arrive from San Francisco on the following dates, till the close of 1893:

The next steamer from the Orient en route to San Francisco, will be the City of New York. She will be due here on the 31st inst.

Table with 2 columns: FROM HONOLULU TO SAN FRANCISCO and FROM SAN FRANCISCO TO HONOLULU. Lists ship names, dates, and times.
