ADVERTISING RATES: Rates for transient and regular advertising can be obtained at the publication office. To secure prompt insertion all advertising notices must be delivered at the business office before 1 P. M.

MONDAY, MARCH 26, 1894.

THE TREATY WILL STAND.

The news brought by the Australia in regard to the probable course of the Senate towards the reciprocity treaty acted upon the business interests of the Islands like a tonic. There was a complete revulsion in feeling from the dismal auguries of the week before; and there remains no reasonable doubt in the Hawaiian bourse that the treaty will be sustained in spite of executive pressure to the contrary.

For this cheerful outlook Hawaii has to thank, not merely the Republicans, who are in a senatorial minority, but the little group of independent Democratic Senators, headed by Mr. Morgan; the Populists, who hold the balance of power, and the coast Senators, who desire to retain for their States a rich and growing trade with Hawaii. All these elements have combined to make the treaty secure and they may be looked to in perfect confidence to defend it from all attacks.

Thus another conspiracy against the well-being of Hawaii becomes a dead sea fruit of ashes.

MOVING SLOWLY FORWARD.

In England "freedom broadens slowly down from precedent to precedent." Liberty is an evolution there and not a fiat; had it been a fiat the House of Lords would have had to go long since, and the Royal family with it. However, the slow processes of reform are at work upon the peers, and this generation may see them dispersed among their estates, surrendering their hereditary legislative privilege to the representatives of a great and masterful people. The death knell of the House of Lords was sounded by Gladstone. Later the last rites and the funeral will be had.

Once rid of the parliamentary refuge of the conservative aristocracy—a class which is a curse to any and every country—the English people may be expected to lay the hand of reform upon the medieval survivals of State and Church represented by the crown and miter. Bradlaugh was far too hasty in saying that England would be a republic in five years. That was said twenty years ago. He forgot that evolution in English politics does not progress by strides and bounds. Had he said that republicanism was England's destiny and that "destiny always arrives," he would have spoken words of truth and soberness.

Meanwhile what a pity it is that the evolution has not been more rapid—that a people like the English, which has produced political leaders such as Pitt and Fox and Disraeli and Gladstone should at this late day withhold the sovereign places from the sovereign men and keep intellectual pignions upon pedestals hewn for giants.

UNFAIR TO OAHU.

Oahu will not begin to have the number of delegates in the coming constitutional assembly which is due the size of its legal voting population. The excuse for this discrimination is that Oahu already has the Council to represent it in that body, though hitherto the Council has claimed to stand for the whole group. As a matter of fact its majority, in a very specific sense, represents the other Islands where its great properties are located. Besides, even if it were true that the majority of the non-elected Council were from Oahu, surely our people have as much right to elect members whom they favor for such important work as a reform in the organic law of the country, as have the plantation employees of Maui, Kauai and Hawaii. What has Oahu done that it should be compelled to take a minority position when it comes to exercising the right of representation in the body which is to dispose of the fruits of a revolution which Oahu patriots won?

THE Bulletin gives its attempt to answer the STAR's strictures upon the Evening Post the appropriate heading of "A Lame Reply."

THE BRAZILIAN REPUBLIC.

With the defeat of Da Gama and the wise and unselfish course of General Peixoto in calling an election which ended in the choice of a civilian and not a soldier to the Presidency, the last hope of the House of Braganza for the return of the Empire to Brazil has departed. There can be little doubt that the rebel Admirals intended, if they won the fight, to restore the throne to the heirs of Dom Pedro. Their pretense was resistance to the "military despotism" of Fonseca and Peixoto and this gave them most of the popular encouragement which they received. All this public favor, however, was taken from them by the fair and free election which made Dr. Moraes President, and their downfall became a matter of course and a thing of no distant date. It is hardly to be supposed that Brazil, after its show of republican strength, will have any more trouble with the Monarchists or any difficulty in keeping in line with the continental democracy of the Western hemisphere.

It is learned on trustworthy authority—from one who saw Minister Willis recently—that all evidence and papers in the Hawaiian controversy were in and the case finally closed in the Senate on January 19th, and the Island problem will be finally disposed of as soon as silver matters are finished.

An American paper observes that if President Dole was a citizen of the United States it would be hard for him to dodge the Republican nomination for President in 1896.

So the Royal Arthur is coming! The more the merrier. A first-class European warship is worth about \$10,000 a month to Honolulu.

Hilo has a conservative Union club and a people's American Union club. They propose to get harmony if they have to fight for it.

BUSINESS HOUSE FAILS.

THE TEMPLE OF FASHION CLOSING OWING OVER \$10,000.

Local Firms Want \$10,000—An Agent From the Coast—Outside Ventures Involved Mr. Ehrlich.

S. Ehrlich, Temple of Fashion, has failed. The big dry goods and notion house at Fort and Hotel streets is closed. Signs, in three languages, say that stock is being taken and that business will be resumed in a few days.

Mr. Ehrlich owes about \$45,000. It would take about \$10,000 to satisfy the local creditors. The Honolulu houses are Hackfeld & Co., Davies & Co., Grimbaum & Co., and E. Hoffschlaeger. J. M. Rothchild, a leading attorney of San Francisco, is here for the liabilities of Coast people. The visiting lawyer and the local creditors held a meeting with Mr. Ehrlich at Hackfeld & Co.'s Saturday afternoon. By the consent of all an effort will be made to make an adjustment without court process. Mr. Rothchild said to a STAR reporter that there was no clash between the Coast and Honolulu creditors. Nothing will be known about the assets until the inventory is complete, and this may require some weeks.

The Temple of Fashion has apparently been doing a good business. Mr. Ehrlich does not claim to have lost money. He mentions one investment of \$14,000 made in a foreign country and turning out bad. It was in the fertilizing business. S. Ehrlich has been in Honolulu about twenty years. He was first a clerk, then in business for himself. Next, he had a partner, who died. For years Mr. Ehrlich has devoted himself closely to the Temple of Fashion.

MR. STEVENS IN MICHIGAN.

Portions of His Address Before a Big Republican Club.

Following are the concluding paragraphs of a Minister Stevens' recent address on Hawaii: "Let us not forget to remember that already the commerce of these Islands with the United States is nearly twenty millions of dollars per annum. Let us not forget that in the North Pacific our commerce under the American flag largely exceeds that of any other nation—a fact which holds good as to our commercial marine in no other part of the globe. If we do not continue to largely exceed that of any other nation in increased proportions it will be our own fault. I repeat—in no other part of the two hemispheres have we the same commercial advantages and opportunities. (Applause.)

"These Islands belong to us by location. (Applause.) They stand at our gates. They belong to us by the right of colonization and civilization. (Applause.) By seventy years of American effort, American sacrifice, American benevolence, and American Government encouragement, Hawaii has been fairly, honorably won. (Applause.) Forty years ago we invited the people of these Islands to come under our flag. Then there were obstacles and objections to our full acquisition of them which do not now exist. Then the reasons for annexation were far less than they are to-day. The American wealth on the Islands at this time is four times what it was then, while the native population is very much less, and is rapidly passing away. The native monarchy has ceased to exist. It died by its own hand. It can never be revived. The Islands must come to us or go to some other strong power. They are not large enough to constitute a nation. We have no right to be a dog in the manger. (Great applause.) We have no right to make Hawaii a foothold of an uncertain, vacillating policy. We are bound to accept the Islands as they are offered to us, or let them go where they can make a part of a strong nation, who aid in their protection and help secure to them the priceless blessing of good government. This valuable prize is offered to us on our own terms, without the cost of a single life

of a single dollar. Never a shot of cannon has been fired, nor another shed an example of a valuable territorial acquisition. (Applause.) It is an American colony in its interests, its civilization, its education, its political aims, its hopes. (Applause.) To refuse her fair and generous offer, to throw away this rich prize, to drive her people into foreign arms, would be moral treason akin to the absurdity and the infamy of trying to force upon them a worn-out, useless and corrupt monarchy, by the use of American diplomacy and the menace of American bayonets. (Applause.)

"But this intelligent, strong, loyal American colony is not to be sacrificed by American pig-headedness and superficial stick-in-the-mud officialdom. The recent strange behavior of certain Washington officials toward our American brethren in the North Pacific, their attitude of stupidity and shame in American history which the American people repudiate, and which will never be repeated. (Cheers.) That clear, certain light of the luminous star of American destiny, one can now read the language of the hand which will forever unite these fair and happy States, the light of the Mediterranean sea, to the European nations that now hold them and have held them for thousands of years." (Prolonged applause and cheers.)

Although Mr. Stevens' voice was somewhat weak, he managed by unusually distinct articulation, to make himself understood in all parts of the hall. At the close of the ex-Hawaiian Minister's speech Mr. Spaulding and the Mendocino Quartet sang "Hawaiian Memories" which had been composed by a member of the club for this occasion. The song made such a hit that the last verse had to be repeated, and Mr. Stevens was again called to his feet to bow acknowledgments. Here is the song which was sung to the tune of "The Bowery."

Friendship cannot, set in waste, Scratching the scalp of his big bald pate, Looking as wise as an owl on a stump, Or a Sultan called all ready to bump; Liliuokalani, the latest of soot, Turned his soul from his feet, Back in her throne this old gal in it, In Honolulu-in-it.

CHORUS. Kailani, Kailani, O Liliuokalani, is quick and she's brawny; Kailani, Kailani, She'll never be a queen any more, Oresham, the mangrove and tergate too, Tries to be funny with Honolulu; Every move he endeavors to make Is simply a stab and a stab and a stab; He, with Grover, is stuck on Lili, But let your boots they will both get their fill; Their policy doesn't fill the bill For Honolulu-in-it.

CHORUS. Grover, for Grover, 'Twill soon be all over for Paramount Grover; For Grover, for Grover, Both here and in Honolulu-in-it.

President Dole is quite fit to the scratch, For Dole is certainly more than a match. Even with Grover and Gresham thrown in, Doesn't the three in American win, Thurston is keen and he knows what he's at, He can't be caught talking wind through his hat. Built just right for a diplomat From Honolulu-in-it.

CHORUS. Stevens, our Minister, tuas teakay, Viewed the American banner on high, Emblem so fair with its stripes and stars Guarded in honor by Uncle Sam's boys, He'll never be our guest any more, We'll show his praises with all our might; Stevens asserted humanity's right In Honolulu-in-it.

CHORUS. Working Overtime. They have been working overtime at the Honolulu Iron Works for a week. Several large jobs are on hand and much small work has accumulated. The Company is doing repairs on the Philadelphia, has just finished a job on the Claudine and has several heavy ship and plantation contracts.

CHORUS. The Olympia. It has been reported several times that the Olympia would bring the new American admiral to this station. Possibly it will. The Olympia has not been commissioned yet.

Do You Use Any of the Following Articles?

If you do, call on us and examine same, and we know quality and prices will suit you.

Paints and Oil.—By the bark "Nantilus" we have added to our large stocks in this line. Good weather will soon set in and you will want to paint your house, and when you do, use pure paints, not some cheap article that will "peel" or "chalk" off in a few months.

Hubbuck's White lead Zinc, and Pale Boiled Oil, have stood the test in these islands for years, and the quality to-day is as good as when it was first introduced. We get these Paints and Oils direct from Hubbuck & Son, and thus know that they are genuine. We also keep Hubbuck's Green, Yellow, Black, Oxide and Mast Color in 25 lb kegs.

Cartridges.—If you use a shot gun we can give you your choice of black or nitro powder cartridges, all carefully loaded. We have a few shells loaded with "Walsrode" powder, a very strong powder that has been adopted for warfare by three great nations (not including the P. G.) It is said to be the most reliable of all smokeless powders and very safe in any well made gun. The charges are in bulk one third of any other powder, and is "guaranteed good for five years in any climate damp or dry." If you are interested in the numerous Rifle Matches or enjoy largest practice either with Rifle or Revolver use U.M.C. cartridges for best results; 50 out of a possible 50 can be made with this brand, provided the rifle, and the man are in good order. We have all sizes of U.M.C. cartridges from 22 to 56 cal.

Everything we have mentioned is to be had for the asking (and a little hard coin) at the old stand on the corner of Fort and King streets.

PLATFORM

Of the American Union Party.

For the promotion of the best interests of all the people of the Hawaiian Islands and for the organization of a party having only this object in view, the following is adopted as a declaration of the principles upon which the organization to be known as the "American Union Party" is to be established, and upon this platform we invite the co-operation of every friend of good government.

1st. REPRESENTATIVE GOVERNMENT.—The American Union Party is smaller, simpler in its form of organization, and declares its full allegiance to the Provisional Government, endorsing the proposal for a constitutional convention looking to the extension of popular representation in the Government.

2d. POLITICAL UNION.—We declare our principles to be the recognition and establishment of a political Union with the United States of America and the maintenance of a stable and honest government.

3d. PUBLIC LANDS.—We favor such legislation as will promote the occupancy of all public lands, including those heretofore known as "crown lands," upon which the organization to be known as the "American Union Party" is to be of vital importance, believing it to be of vital importance that "many acres" should be for "many men."

4th. CITIZEN'S RIGHTS.—We declare that all citizens are equal before the law, and we are opposed to monopolies or privileged classes, favoring participation in the government by every loyal citizen and declare for a liberal suffrage law that will, first of all, guarantee a vote to every man who rendered satisfactory service in the military or police departments of the Provisional Government.

5th. IMMIGRATION.—The evils of Asiatic immigration are so apparent that we declare in favor of its restriction by positive and prudent methods, declaring in favor of such American, Portuguese or other European immigration as will supply the necessary labor and furnish the country with permanent settlers.

6th. PUBLIC WORKS.—We favor the immediate establishment of a comprehensive system of public improvements that shall be of permanent value to the country and afford needed employment to the laboring classes, but we declare against importation of labor and material of any kind whatsoever for use on public works which can be obtained in the home market, and materials which must be obtained from abroad should be obtained through local dealers in open competition.

7th. PUBLIC OFFICES.—We hold that no person should occupy a position of trust or profit under the Government who is not loyal to the same.

8th. PRISON LABOR.—We oppose the employment of prison labor in any mechanical pursuits.

9th. TAX SYSTEM.—We favor a revision of the tax system whereby all property, improved and unimproved, shall be taxed on an equitable basis.

10th. LABOR.—We declare that in the Constitution and in legislation thereafter the rights of the wage-earner should be fully considered.

11th. EDUCATION.—We favor the enlargement of the scope of the free-school system to the end that a university course may be available to the youth of the country.

12th. TELEGRAPHIC LINES.—We favor the establishment of an inter-island as well as a foreign cable system. The organization committee are: First District—J. A. Magoon, J. H. Fisher, C. H. Luther. Second—Chas. L. Carter, Mr. J. A. Cassidy, J. S. Martin, Thos. L. King, C. T. Rodgers, Jas. Nott, Jr., Fourth—J. Walter Jones, Dr. Cooper, W. P. O'Brien, Fifth—J. A. Low, J. Lecker, J. L. Carter, Asst. Surg. Major, A. W. Keech, C. T. Rodgers, G. W. Smith, J. W. Pratt, A. V. Peters, L. C. Ables. It is expected that all of the wards of the city will be organized during the week.
