HER MOTHER'S GIRL.
A bright, handsome girl on the borderland between childhood and womanhood, is at once a source of pride and anxiety to her mother. But she has grown fast and is still growing. Nature makes stern demands upon the slender body. The skin is dull, the eyes lustreless, the cheeks and neck are sunken, the appetite is capricious, and the movements languid. The trouble is impurity and sluggishness of the blood. It needs the life giving elements from which alone the body derives its vigor and health. The remedy is

WAMPOLE'S PREPARATION,
of the nutritive properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with Syrup of Hypophosphites, Extracts of Malt and Wild Cherry Bark, has saved many such girls. It contains all the flesh-forming and strengthening qualities of the oil without its loathsome taste. *The most sensitive and feeble can take it, as they take syrup, and digest it perfectly.* Taken before meals it creates an appetite, stops the emaciating process, puts flesh on the thin and bony body, and ruddy cheeks soon tell the story of pure blood, good digestion and recovered health. Girls and women gain weight and vigor by the use of it. To give it a trial is to believe in it always thereafter. It is food and medicine combined. Genuine only gives results from the first dose. Sold by all chemists.

WHAT SAILOR MEN TALK OF

BRIG W. G. IRWIN HAS A CLOSE CALL OUTSIDE.

Alice Cooke Arrives From the Sound. Lumber Laden—Rights of the Port Surveyor—Gossip.

Rough weather is reported on the Kaula coast. It is believed that the storm is general over the Islands.

After lying in the stream for a fortnight, the British bark Aethelbert has hauled alongside the railroad wharf, where she will discharge her nitrate cargo.

The Ke Au Hou arrived late last evening from Lahaina, bringing up the merry-go-round from that place. She will sail at 4 this afternoon for Eleehoe, taking down fifty tons of coal and a new boiler.

The bark Columbia hauled over to Allen & Robinson's wharf yesterday afternoon and there got out the remnants of her lumber cargo. She is now taking ballast, and will probably get away for the Sound tomorrow afternoon.

Nearly 200,000 feet of lumber was taken off the Jessie Minor's deck yesterday—a big day's work. Captain Whitney says he will have his vessel discharged by Friday noon. Before leaving port he will bend his sails and make some repairs, so that he does not expect to get away before the middle of next week.

The James Makee returned this morning from Kaula, after landing her coal cargo at Kapua, with difficulty. The weather was very rough on the Kaula coast, and Captain Tillet did not attempt to secure any freight, so that the Makee returned empty. The channel was choppy and disagreeable last night.

The bark C. D. Bryant will finish discharging her grain cargo at the railroad wharf this week, and will then tie up to undergo general repairs while awaiting the new sugar crop. Some of the mills have already commenced grinding on the new crop, but it is not likely that the Bryant will be able to secure a full cargo before the middle of December.

The schooner Alice Cook, Captain Penhallow, arrived this morning, 23 days from Port Townsend, with 1,100,000 feet of lumber, to Levers & Cooke. Mrs. Penhallow accompanies her husband. Good weather was enjoyed during the greater portion of the passage. The island was sighted last night, but too late to get in, so the Alice Cook stood off, and had a pretty good slaking up in the Molokai channel. Since she was last here the Alice Cooke has made a voyage to St. Michaels.

A careful perusal of the law shows that the Port Surveyor is given explicit authority to search all vessels, domestic and foreign, together with freight, baggage and passengers on them, within twenty-four hours after their arrival in port, without being in any way liable to prosecution. The impression has prevailed hitherto that an innocent passenger subjected to search might have recourse to law to recover damages from the government.

The American brig W. G. Irwin, Captain Williams, was towed in this morning, after lying outside all night. She is twenty days from San Francisco, and brings 680 tons of general merchandise to Irwin & Co., ten mules and seven horses, three of the latter consigned to Hyman, and the remainder of the stock to Irwin & Co. The Irwin has gone alongside the Oceanic dock to discharge. It is likely that she will have quick dispatch, as there are 5000 bags of sugar awaiting her in the warehouse. The Irwin brought down ten passengers in her cabins.

The W. G. Irwin arrived off port last evening, but owing to the thick weather Captain Williams decided to anchor. The wind blew hard last night and the brig dragged her anchor. She was anchored pretty close in, and rumor says that she had a close call from scraping her ribs on the reef. Fortunately she was not loaded deep. It is impossible to secure anything of a definite nature concerning the affair, as all concerned profess ignorance. It is sufficient to say that the Irwin arrived in safe and sound, and has met with no serious mishap.
