HONOLULU, H. I., THURSDAY, NOVEMBER 2, 1899.

No. 2394.

THE TREASURY BALANCE

IS BEING FULLY CONSIDERED BY FINANCIERS.

Attorney-General Cooper Says There is Nothing to Prevent it Being Loaned Out if it is Needed.

The public treasury balance and the wisdom of necessity of letting out a part of it to the banks for the relief of a real or imaginary financial stringency has been a common topic of discussion today.

There was considerable difference of view in the opinion of bankers published yesterday. The opinion of Bishop & Company is in line with the policy of Minister of Finance Damon, and is not in conflict with the expression of other bankers.

As far as can be gathered financial men are unanimous in the opinion that \$2,200,000 is a great deal of money to be kept idle in the public treasury. At the same time when the same men, come to consider the question of loaning it out they are not always in favor of it.

Besides the banks, there are the Bishop Estate, Lumahala Estate, Widemann Estate and fifty other trusts which make loans on certain classes of security.

Considerable has been said on the line of the cry, "Expend the surplus on public works." A review of the appropriation bill at the office of the Minister of Interior shows that practically every dollar appropriated by the last legislature will be expended. This applies both to the current receipts and loan accounts. No other appropriations can be made, of course, without authorization of the legislature.

In the meanwhile the customs and postoffice receipts, amounting to \$1,000,000 a year, will probably be taken over by the central government. If the legislators think in February that the cash balance is too large they can, as pointed out by leading financiers, make appropriations at once for public works and schools.

Attorney-General Cooper said this morning: "I expected a letter from the bankers but it has not come in. If the community needs the money there is nothing in the way of its getting it. There is no law for or against the government letting out its surplus. In a case like this the needs of the people should dictate the governmental course, and I am sure it will."

"My term as Minister of Finance ad interim will expire next Sunday. In the meanwhile a Minister will be appointed to succeed Mr. Damon. Therefore, I do not suppose I will have anything to do with the matter after this week. I have only to add, as my view, that the surplus public funds are available to the banks. If the people really need the money, it should be let out; if they do not absolutely require it, the best place for it is in the Government vaults."

KUBEY ESTATE.
Fred. G. Goudie, the new road supervisor, bought the lots of the Kubeys, some at auction, for the sum of \$1000. These lots are in the Diamond Head addition at Kapiolani park. S. Kubeys, who is guardian of the minors, has filed an application in the courts for the approval of the sale.

Received, ex Mohican, handsome line of carriages and phaetons. W. W. Wright.

A BIG NEW MEAT COMPANY

TO COMPETE FOR LOCAL AND ISLAND TRADE.

Halstead, Schweitzer and Others Capitalize at \$100,000 to Engage in This Business—Details.

Honolulu will likely have another meat company in the next few weeks. Whether there is room for two or not will have to be demonstrated. There is, however, a great deal of money behind the new project.

The new meat firm will be known as the Honolulu Market Company Limited. Its purpose is, modestly, to raise and market meats, build, operate and sell steamship, sailing vessels; establish and operate markets on the other islands and to engage in about every other kind of business one can think of as pertaining to the original object.

The new concern will be capitalized at \$100,000, divided into 200 shares of \$500 each. It will have the privilege of increasing this capital to \$250,000.

Edgar Halstead, president of the concern, will own ten shares of the stock. In addition to his duties as president he will be treasurer of the company. Senator A. Hocking, who is vice president, will have ten shares. L. A. Rostin, the secretary, will hold ten shares and L. Schweitzer, auditor, will have five shares in his own name. Besides, the latter will be trustee for 100 other shares. A. M. Schweitzer is mentioned as the owner of the remaining five shares.

This concern has been forming for some months. It is understood that it has some formidable connections. Meat will not only be raised but will be shipped to the islands in very large quantities from the mainland. A regular market will be opened up for fowls, such as chickens and turkeys. Fowls will be shipped chiefly from Washington and Missouri. Cattle will be brought from California and beef will also be shipped down from the west.

TRANSVAAL ROUGH RIDERS.
Harry Gillig, who has been here several times on visits and was a close friend of the late King Kalakaua, is reported to be on his way from Europe to organize a corps of Rough Riders to fight for Great Britain in the Transvaal war, as Roosevelt did at the beginning of the war with Spain. Gillig is well known in many countries for adventures of the sort and has the reputation of being the right man for such work.

WITHOUT A TUG.
Captain Macphail of the Hawaiian bark R. P. Rithet took advantage of a favorable wind this morning to sail out of the harbor without the assistance of a tug. The vessel was a pretty picture as she glided away under full sail.

Hanan creates the style and leave others to follow.

APPEAL TO THE MINISTER

CHINESE DECEIVED BY FALSE CERTIFICATES.

The Consul Here Proposes to Report to His Country's Diplomatic Agent in Washington.

The Chinese consulate here is taking steps to lay before the Government at Washington the cases of forty-nine Chinamen returned to their native land on the steamships Doric and Gaelic and of about 200 more who are likely to meet the same fate. The matter will be laid before the minister of the Celestial Kingdom at Washington with a view to pressing claims for damages against the American Government.

There were 18 Chinese purporting to be students on the Gaelic and 21 on the Doric, who were refused a landing. Those on the Gaelic were left on board while she went to San Francisco and back and they are still on, headed for home, after crossing the water to Honolulu and only succeeding in getting a glimpse of the land of their supposed destination from the deck of the vessel.

The rejected ones on the Doric are en route to San Francisco and will follow the same program.

The men came here with certificates issued here, which it was supposed entitled them to land. Agent Brown of the Chinese Immigration Bureau refused to allow them to enter the country, referring them to the law which requires that they shall secure credentials at the country they are leaving, and the certificates are all adjudged worthless.

The Chinese consul and vice-consul here have issued the following circular for the benefit of their countrymen, to prevent further mistakes:

"We the Chinese consul and vice-consul at Honolulu, Hawaiian Islands, hereby notify all Chinese residents of Hawaiian Islands, that we have received a letter from the United States Chinese Inspector, Mr. J. K. Brown, stating that those who formerly lived in these islands, possessing return certificates which were issued by the local Government, are entitled to land in accordance with law.

"Chinese persons in China, seeking entry in this country for the first time must qualify themselves according to law as teachers, students, merchants and travelers before the customs authorities in China, or qualify themselves in any other foreign Government where they resided last.

"No certificates are honored if they were sent from this country for the exempt class, who have never been here before.

"The circular then states that local Chinese have forwarded many certificates to China from here to aid their friends or relatives to land, but the papers will not be honored.

"We do not know how many of these certificates were forwarded to China, but anyhow they are no good and simply throw money away for nothing. Hoping all of our countrymen who are interested in this matter will advise their friends and relatives in China not to come with these false certificates to China.

"And therefore we also hope that hereafter any Chinese person or persons will not be cheated again by those people who are issuing these Hawaiian made certificates, which certificates could never help any others to land in the Hawaiian Islands.

"YONG, Chinese Consul.
"GOO, Vice-Consul."

The average cost to the Chinese who come here and are sent back is about \$100, including the prices charged for the useless certificate and the cost of transportation. This will make the aggregate of the loss over \$20,000. Consul Goo Kim stated last night that no step had been taken in the matter yet, as it was not known how many certificates would be used, but that the matter would be laid before the Chinese Minister at Washington as soon as possible.

TONIGHT'S OPERA.
Maritana and Don Caesar de Bazan Will Hold the Stage.

The great success made by the Boston Lyric Opera Company in its initial performance with "Said Pasha," will undoubtedly be continued with a production of Wallace's masterpiece, "Maritana."

This is a composition that appeals strongly to music lovers that delight on heavier scores than that usually attending comic opera. There is a light and airy vein of melody running through the opera, many parts of it touch closely upon the classical. The "Fair land of Poland" and "Let me like a Soldier Fare," are almost household words.

Miss Josephine Stanton will sing Maritana, and Henry Hallam, Don Caesar de Bazan, a role that has much to do with having made him famous as a singer. There will be the usual array of swaying gallants, pretty girls and brilliant costumes.

"Bohemian Girl" will be presented the Saturday matinee and the "Mascotte" at night.

A large sale is an evidence that there will be another big house tonight.

HOTEL IN BERLIN.
Captain Carl Klempe will not get away for Germany before the new year. He will go to Berlin and there open a fine hotel. The Orpheum hotel has already been taken over by Harry Klempe.

EIFFEL NOTES.
Miss Ellen Beach Yaw, who has hitherto exhibited her "Eiffel notes" only on the concert stage, is to appear in London in an opera written by Sir Arthur Sullivan.

REPORTED DANGER OF EARLY DESTRUCTION.
Too Great Haste in Construction of the Wharf is Alleged to be the Cause.

The report comes from Kaanapali that the new wharf just constructed there is falling to pieces and will have to be built over again. The wharf was built by the Pioneer Mill Company and is a stone dock, resting on a foundation of cement. It cost between four and five thousand dollars.

The dock is said to be giving way because of the softness of the cement when the building was done. The cement was packed first, in sacks, and is left to harden before any stone is put upon it. It is said that in the work at Kaanapali not enough time was allowed for the drying of the cement, with the result that the heavy stones placed above it sank in and spread it out and now there is a prospect of a general wreck. The structure placed above the cement is of great weight, consisting of very heavy masses of stone.

At the offices of the Pioneer Mill Company in this city nothing is known of any trouble with the wharf and it is thought that if there has been any damage due to the sinking of stones it is not of very great extent. The wharf is almost ready for use and the work of getting a derrick in place is going ahead.

COMMANDER TAUSSIG.
Watson's Action in Sending Home Commander Taussig.

WASHINGTON, October 23.—The incident that occurred in the Philippines between Rear-Admiral John C. Watson, commander-in-chief of the Asiatic station, and Commander F. D. Taussig in command of the Benington, owing to a misunderstanding as to the way in which certain orders of the Admiral were to be carried out, paragraph 3, of the navy regulations, it being impracticable to have a court of inquiry, and owing to the present importance of the Asiatic station it is indispensable that harmony should be maintained in his command.

"Admiral Watson's action is held to be within the discretionary authority vested in him by article 30, paragraph 3, of the navy regulations, it being impracticable to have a court of inquiry, and owing to the present importance of the Asiatic station it is indispensable that harmony should be maintained in his command.

"Commander Taussig is regarded, from the time of his arrival in the United States, as having been detached from duty in a foreign station. He was ordered home and placed on waiting orders as in ordinary cases. He has now been given appropriate shore duty in connection with the Light House Bureau, and when practicable, will have command of another vessel commensurate with his rank, to serve elsewhere than on the Asiatic station."

THE PLANTERS' MONTHLY.
The Planters' Monthly for November contains an able report on the work of the Experiment Station and laboratories from the pen of Doctor Maxwell. The paper, as usual, bristles with figures and tables, to be understood by the Agriculturalists of the country and Greek to the non-cultivator. The report is the result of a year's investigation into the question of sugar, and contains many interesting particulars and comments upon technical details tend to make an interesting number.

TROUBLE AT WAIANA'E.
More trouble was experienced at Waiana'e last night with the obstreperous Chinese laborers. During the evening the strikers set the cane fields on fire. The blaze was extinguished without special damage. A guard was kept over the field and the house of the manager all night. Today all is quiet. Tonight extra precautions will be taken and if any outburst is attempted something is liable to "drop."

HAD NO LICENSE.
Sam Hoo, a Chinese merchant, was fined \$10 in police court this morning for selling tobacco without license. He had an old license but would not believe otherwise than that it was a permit.

WHERE DUTY CALLS.
Lots of men go where duty calls, then stand around with their hands in their pockets after they get there.

JAPANESE CELEBRATION.
The Japanese will have a great day tomorrow in honor of the birth anniversary of the Emperor. From 10 a. m. to 6 p. m. there will be almost a continuous reception at the Consulate. From 7 to 10 p. m. there will be a reception and entertainment at the Japanese club on Nuuanu street. The Hawaiian band will play from 10 a. m. to 12 m. and from 4 to 6 p. m. at the Consulate; from 1 to 2 p. m. at the Japanese hospital on Lili'uokalani, and from 7 to 10 p. m. at the Japanese club on Nuuanu street. The general public is invited to attend the reception at the hospital from 10 to 1. At the entertainment in the evening there will be speeches, dancing and refreshments.

CRUELTY TO ANIMALS.
A Portuguese is under arrest at the station house for cruelty to animals. This morning he took a horse from the American Stables to try him. The animal was not in condition, as was stated to him. When detected he was riding the horse at a break neck rate over a street in Kaka'ako. He was warned, but later repeated the same experiment. At the station house Manager Carty, of the American Stables, stated that the horse was practically ruined.

A DOZEN MAKES.
L. B. Kerr, Queen Street, has for sale a dozen different makes of the best sewing machines, which he offers for sale at low prices for cash or on the installment plan.

RUBBER TIRES.
Get your rubber tires put on at Gus Schumann. None better than Morgan and Wrights.

HIS VERY GREAT SURPRISE

HOW A. K. ELDRIDGE KNEW HE WAS SWINDLED.

It Was When He Saw a Man Knocked Down by a Blow With a Padded Glove.

Mr. Eldredge experienced a surprise at the prize fight.

He had never seen one before, but he testified this morning that though he had had lots of fights himself and had seen lots of them, he had never seen one like that between Denny and Armstrong. And when he saw Armstrong knocked down by a blow with a padded glove he knew he had been swindled. It was impossible in his opinion for a man to be hurt with the gloves used.

The case of the Republic of Hawaii vs. Armstrong and Denny, charged with conspiracy, wherein A. K. Eldredge is complaining witness, came up before Judge Wilcox this morning. The complaint was again amended and the charge promoted from conspiracy in the third, to conspiracy in the first degree.

On this charge the case went to trial. Eldredge was the first witness. He told how he casually met Denny at Long Branch a few days before the fight. From that point on he gave in endless detail his daily life. Denny's first proposition was that Eldredge should back him, and if he won they would share what they earned equally.

But the evening before the fight, in a conversation held with bated breath as the two walked back and forth on King street in front of the Arlington hotel, first on one side of the street and then on the other, Denny disclosed the plot to him, Eldredge having first sworn Kaea, who seems to have been his fidus Achates, to secrecy under threat of "cutting his face open." Denny according to this testimony was "sore" on his backer and he wanted to "give him down," receiving assurances from Eldredge that the latter could raise \$500, the witness said he proposed that Eldredge should bet on Armstrong and he (Denny) would give the fight to Armstrong. Eldredge seemed afraid Armstrong would not accept the bet, and wanted assurances from the latter that he would. This Denny promised to secure.

By appointment Eldredge and Denny met at Long Branch early the next morning, Eldredge ordering his phaeton for \$20 a day and incidentally the faithful Kaea did not show up on time. At Long Branch, Denny assured Eldredge that he had seen Armstrong and the actor fighter had agreed to accept victory. But that Eldredge might have taken from Armstrong's own lips he would "give him down," receiving assurances from Eldredge that the latter could raise \$500, the witness said he proposed that Eldredge should bet on Armstrong and he (Denny) would give the fight to Armstrong. Eldredge seemed afraid Armstrong would not accept the bet, and wanted assurances from the latter that he would. This Denny promised to secure.
