No. 2782

COL. OLCOTT OF MADRAS

HEAD OF THE THEOSOPHICAL SOCIETY.

Will Give a Number of Public Addresses—Tells of the Founding and Work of the Society.

Col. H. C. Olcott, president of the Theosophical Society arrived by the Rio this morning, on his way to the mainland on a tour of inspection of the various branches of the society. He will remain here about a week, continuing his journey on the Ocotia.

Tonight he will meet the members of the Aloha Branch of the Theosophical Society at a meeting for members only, at the residence of Miss Nellie Rice, on Berea street. Saturday evening there will be a meeting to which the public is invited at Knights of Pythias hall and Monday evening another one at Progress Hall. As yet no other meetings have been arranged for, but other meetings will be held at which Col. Olcott will speak. At one of the meetings to be held, Col. Olcott will speak of the dangers of hypnotism.

"The Theosophical Society," said Col. Olcott this morning, "was founded in New York in 1875 by myself, Madame Helen Blavatsky and about a dozen others. The objects of the society are to help religion against materialism; not to help one religion or one sub-division against the rest, but only to take the part of religion as a whole in the fight with skepticism, irreligion, or nihilism as you may choose to call it. In short against that school which teaches that matter is the only reality and physical life the only existence.

"The society is therefore entirely non-sectarian and being such, it has succeeded in drawing together for common work and mutual help, the most learned and clever men in the principal world religions.

"It has now been in existence a little over twenty-five years and from a little handful gathered in a New York drawing room, has expanded into an organization having between 500 and 600 branches existing in thirty-two different countries."

Col. Olcott was a lawyer in large practice in New York at the time the society was organized. About three years later, he abandoned his practice and went to Madras, India to live. India is the home of theosophy, he says. So absorbed has he been in his work in the east that he has been prevented until now from making this tour in his native land.

Col. Olcott is a man of commanding figure, strong, rugged and genial looking. He is 59 years of age, the father of Elizabeth, New Jersey, but living most of his life in New York. The early years of his manhood were spent in newspaper work. In the civil war he served his country with honor and distinction. He was a year with Burnside in the field at the beginning of the war, when he was made a war commissioner and worked with Stanton for four years. He was also held a similar position with the navy, his duty or part of it being to inspect the arsenals and navy yards.

From Madras, he came by way of Colombo, Singapore, Hong Kong and Yokohama in order to catch the Rio to enable him to spend a week here before the time set for his arrival in San Francisco.

THE WEATHER.

Weather Bureau, Punahou, 1 p. m. Wind light west to calm; weather thick and rainy; will not clear up this evening.

Morning minimum temperature, 68; midday maximum temperature 72; barometer, 9 a. m., 29.79 irregular (corrected for gravity); rainfall 24 hours ending 9 a. m., 2.87; dew point, 9 a. m., 69; humidity, 9 a. m., 94 per cent.

CURTIS J. LYONS, Observer.

THE POLICE COURT.

There was a long string of drunks on the police court calendar this morning, and they were disposed of in one, two, three orders. Most of the prospective patrons of the prospective territorial dispensaries, pleaded guilty and were fined the regulation \$1 costs. The others "being three times solemnly called, came not, nor any one for them," whereupon it was ordered, adjudged and decreed, that their bail be forfeited.

A TENT SHOW.

Paul Jordan, one of the "Flying Jordans" who appeared in the Hawaiian Opera House several years ago, recently passed through here on his way to New York. His variety show now in the Colonies will play a season in Honolulu during the month of March. Jordan gives his performances under a large tent.

KAHULUI ROAD WASHOUTS

THE RAILROAD DAMAGED BY FLOODS.

The Claudine Gets Back From Her Maui Run—The Mauna Loa at Lahaina.

The steamer Claudine, Captain Parker, arrived this morning from her Maui run. She reports continued heavy storms all over Maui and considerable damage from floods. The vessels that have left Honolulu are doing all right and the Claudine was able to discharge at all her ports except Hamoa and Kihapahu. The Hamoa freight she put off at Hana, so that she brought back very little of what she took from Honolulu.

The Kahului railroad is crippled by several washouts and large freights are threatening greater damage if the storm keeps up. Tremendous rainfall is reported at all points. The Mauna Loa arrived at Lahaina all right and was able to discharge there. Last night the Lehua was off Lahaina, but the Claudine did not get any communication with her. The Lehua was to try to make connections with Molokai ports today.

The Claudine brought quite a large list of passengers, in spite of the storm, but she did not get much of a cargo. Thirty-six bags of taro and 44 bags of corn were all she loaded aside from 82 miscellaneous packages. She will remain in port until next Tuesday, her regular sailing time.

GILL CASE POSTPONED.

The Grand Jury to Take Up the Matter.

The Gill case was again continued in the police court this morning by Judge Wilcox, this time to Friday morning at 9:30 o'clock.

When the case was called this morning, Lorin Andrews, who has been specially retained to prosecute the case said that he had received a telephone message from Deputy Attorney-General Catcart asking that the case be continued a few days, as the grand jury was expected to take up the matter probably today. Mr. Andrews suggested that the case go over until Monday morning as by that time it would be known what the grand jury would do.

Judge Wilcox said he too received message from the Deputy Attorney-General, but the request he received was that the case be continued for "two" days, not for a "few" days.

Mr. Andrews replied that he understood Mr. Catcart to say a "few" days, and he thought it might as well be a few days so that the parties would not be kept coming down to the police court. Judge Wilcox said he was quite sure the message to him was "two" days, for it had been repeated "one or two" days. "I do not think I can be accused of shirking work," continued the Judge, "but I don't want to do work that isn't necessary. I don't know that I have any right to hear the case anyway while the grand jury is in session." Mr. Andrews controverted this proposition, saying that he thought the court could hear the case and commit or not as the evidence warranted, to the next grand jury.

Mortimer I. Stevens, the prosecuting witness was not in the court.

GILL CASE TAKEN UP.

The case of Editor Gill, charged with assault with a dangerous weapon, was taken up by the grand jury yesterday afternoon. As yet no report has been made. It probably would have been submitted this morning had the jury not been called off on the case of the police court clerk.

CONSUL-GENERAL WILDMAN.

United States Consul-General R. Wildman of Hongkong is a through passenger on the steamship Rio Janeiro. He is on his way from his post to report to the State Department at Washington. The consul is said to have been called to be consulted regarding the Chinese crisis. He was stationed at Hongkong all through the recent troubles.

JOURNALIST FROM JAPAN.

Russell Harper, a newspaperman of Japan, representing the Kinshu Hincide Shinbun of Nagasaki, and a syndicate publisher several other newspapers in the Sunflower Kingdom is a through passenger on the Rio. Though an American Harper publishes his papers in Japanese, with one column of English matter. He was formerly a San Francisco journalist.

The Golden Rule Bazaar has just received the Hawaiian Scenic Calendar for 1901, and as usual it is the best Scenic Calendar published—Price 50c.

Meet your friends and spend a pleasant hour at the St. Germain.

BITTING GETS TEN DAYS

LAWYER BEHIND THE BARS FOR CONTEMPT.

Crossed the Bow of Judge Humphreys This Morning and Is Seriously Muled—The Story.

Lawyer C. C. Bitting is in jail for ten days for contempt of court. This sentence was imposed upon him by Judge Humphreys this morning.

The whole proceedings, which was over in two minutes, took the breath away from the lawyers in the court room. They have since been discussing it in the court corridors and on the streets. Some side with the court, although they are hardly able to decipher the extent of the offence, while others criticize in strong terms the judicial proceeding. The thing happened in this way:

The grand jury was called in on a special case. It was instructed to at once suspend all other investigations and matters and to investigate the accounts of Clerk Benjamin Zebian, of the police court. The court had been informed that civil cases in the lower court had been withheld for as much as two years, and that the reason of it was that the clerk had used the money deposited on appeal. The jury was instructed to call J. M. Vivas as a witness.

Mr. Bitting arose and asked the court if the charge had been taken down by the stenographer.

The court replied that it did not know.

Mr. Bitting, continuing, said that the reason he asked was that he wished to protect his client and did not wish to lose any point at the start; that there would be an investigation and there might be an indictment in this "peculiar matter."

For a moment there was silence, the court seeming surprised at the turn of events. Finally calling Mr. Bitting to the front the court said that it considered his remarks insulting and that he was in contempt.

Mr. Bitting replied that he meant no reflection on the court either as a court or personally.

The court was obdurate however, and sentenced the offender to ten days imprisonment.

The case produced a profound sensation among lawyers. With the profession a sentence of one day for contempt or anything else is a very serious matter.

Mr. Bitting is a very capable lawyer in business. The ill of the occurrence of this morning has not been recorded since the sensational sentencing of Lawyer George A. Davis to ten days imprisonment at Christmas time two years ago.

After being taken into custody Mr. Bitting addressed a letter to Judge Humphreys. The letter was sent to the High Sheriff without comment. It read as follows:

"I wish to hand you this paper as an apology for the remarks to which you took exception and for which you punished me by a sentence of ten days in jail.

"Personally you ought to know that I have the highest respect for you professionally and judicially; I have always tried to conduct myself as became your position.

"Very respectfully,
"C. C. BITTING.

"Please give orders which will relieve me from common search such as is usually given to common criminals."
"C. C. B."

GROUND CONNECTION COMPLETE

The following which makes itself very clear, was received from Mahukona:

Wireless Telegraphy: Communication with Honolulu "broke off." On 4th instant the telegraph mast of the Wireless Telegraph Station broke off about half past four, carrying with it the CROSS yard to the ground, making the ground connection complete.

WARRIMOO HERE.

The Warrimoo, which arrived today from Sydney and Brisbane, brought no further advices regarding her having been sold to the Union Steamship company of New Zealand. The Auckland newspapers have reported the sale as having taken place, and it was reported in Sydney when the Warrimoo was there, but so far it is not confirmed.

The Warrimoo arrived at about ten o'clock this morning, being just on her schedule time. She had rough weather the last few days. As the Rio was at the Pacific Mail wharf the Warrimoo docked at the Oceanic wharf. She leaves at four o'clock this afternoon for Waikiki. E. J. Cline was the only passenger she brought to Honolulu.

CIRCUIT COURT TODAY.

In the matter of Yamagata and Ogata, convicted in the district court of malicious injury, the Attorney General today entered a nolle prosequi in the Circuit Court.

George R. Carter, guardian of the Charles L. Carter minors, filed his annual accounts today, showing receipts to have been \$18,827.19 and expenditures \$16,965.12.

Kamiki, charged with larceny, pleaded guilty. He will be sentenced next Monday morning.

Judge Humphreys is a bit under the weather this afternoon and as no cases were set for the time will not have any further business until tomorrow.

A CONVINCING ANSWER.

"I hobbled into Mr. Blackmore's drug store one evening," says Wesley Nelson of Hamilton, Ga., "and he asked me to try Chamberlain's Pain Balm for rheumatism with which I had suffered for a long time. I told him I had no faith in any medicine as they all failed. He said, 'Well if Chamberlain's Pain Balm does not help you, you need not pay for it.' I took a bottle of it home and used it according to the directions and in one week I was cured, and have not since been troubled with rheumatism." For sale by all dealers. Bonson, Smith & Company, general agents Hawaiian Islands.

LISHMAN WANTS DAMAGES

SUES ADVERTISER FOR THE SUM OF \$20,000.

Expects to An Editorial in Issue of January 29—Accusing Petitioner of Doctoring Milk.

Robert Lishman is after the scalp of the Advertiser. He this morning filed in the circuit court a suit for \$20,000 damages on account of an editorial that appeared in the Advertiser on January 29, accusing the plaintiff of doctoring milk sold by him. Mr. Lishman says he has been injured in peace of mind and in business.

Homes & Stanley appear for the petitioner. The papers were served on the Gazette Company at noon today. The following is the editorial complained of as it appeared in the Advertiser.

"A MILK FRAUD.
"A housewife makes the following statement which the Advertiser, knowing her responsibility, is glad to publish:

"Some time ago I took milk from a man named Lishman or Leishman or something of the kind and found that, despite all I could do, it would not last over night. The milk got sour before morning and it never showed more than the faintest trace of cream. I complained and the milkman got angry saying that his milk was pure and certainly looked well but its quality was bad. I tried other dealers and finally in desperation got a cow of my own which yields milk that is good for three skimmings of cream. Well, the other day I hired Mr. Lishman's cook and the first thing he said when he saw my full milk pails was: 'Shall I put on the stove?' 'Why?' I asked. 'Yes, at Mr. Lishman's I warm milk to make cream come up quick and then take cream all off.' My eyes were then opened by this statement and I saw why my 12 1/2 cents-a-quart milk had been so unsatisfactory. That the milk always looked well may be due to something being put in it to give it body."

"Here is a case which throws a flood of light on the methods of unscrupulous milk-dealers and shows how serious is the need of drastic legislation to protect the consuming public. It looks to us as if the only remedy is a law organizing a regular force of milk inspectors and empowering them to stop delivery wagons and make a test when and there—a suitable pocket device being in the market for that purpose—and where the milk is found to have been skimmed or adulterated to pour it into the street. Such a force would have to work by night as well as by day and would be worth all it might cost."

"The milkman's milk was pure and certainly looked well but its quality was bad. I tried other dealers and finally in desperation got a cow of my own which yields milk that is good for three skimmings of cream. Well, the other day I hired Mr. Lishman's cook and the first thing he said when he saw my full milk pails was: 'Shall I put on the stove?' 'Why?' I asked. That the milk always looked well may be due to something being put in it to give it body."

"The milkman's milk was pure and certainly looked well but its quality was bad. I tried other dealers and finally in desperation got a cow of my own which yields milk that is good for three skimmings of cream. Well, the other day I hired Mr. Lishman's cook and the first thing he said when he saw my full milk pails was: 'Shall I put on the stove?' 'Why?' I asked. 'Yes, at Mr. Lishman's I warm milk to make cream come up quick and then take cream all off.' My eyes were then opened by this statement and I saw why my 12 1/2 cents-a-quart milk had been so unsatisfactory. That the milk always looked well may be due to something being put in it to give it body."
