NAWAHI LOSES SUIT

Judge Robinson this morning sustained a demurrer in the suit of Alford K. Nawaahi against Hukukua plantation. Nawaahi sued for \$20,000 damages on account of the defendant's entering upon some land to which he has the title, and harvesting the sugar crop thereon. The land was under lease to the plantation, until Nawaahi terminated the lease on becoming of age, and the plantation claimed the right to harvest the cane it had planted and cultivated before surrendering the land. Robinson sustains the plantation in this claim, and dismisses the suit.

In the case of the Sun Kwok Man Company vs. the Waikiki Land and Loan Association, the Rapid Transit Company and others, Judge Robinson overruled the demurrer and gave the defendants until May 2 to file answers. The petition for removal of Representative Prendergast as administrator of the estate of Mary K. Pearson was heard and denied by Judge Robinson. The report of Henry Smith, master, auditing the accounts in the estate of James Woods, was approved, and a fee of \$50 was awarded to Smith. Thomas Pedro was given an authorization for sale of real estate belonging to S. Pedro, insane.

DR. JORDAN COMING. President David Starr Jordan of Stanford University expects to spend his summer vacation studying the ichthyology of Samoan waters. He will stop over in Honolulu a week or ten days on his way thither. Dr. Jordan spent last summer studying Hawaiian fishes, and the summer before studying Japanese fishes.

What You Ought to Know

Casara easily ranks first as a laxative medicine, the only objection to it has been a disagreeable taste. Used first by the Indians of California, it has been in constant use for hundreds of years, and with uniformly good results. Now that modern pharmacy has succeeded in eliminating the disagreeable bitter portion from this sovereign laxative bark without in any way impairing its value as a laxative it has been strongly advocated by the leading members of the medical profession throughout the world. Casara an elixir manufactured from this bark, is made from bark at least three years old, which has been properly cured in order that all the activity of the bark might be developed. This bark combined with vegetable aromatics and stimulants produces the wonderful remedy known as Casara a positive cure for constipation, torpid liver, weak bowels or deranged stomach, and will give immediate relief in all troubles due to these causes, such as headache, sick headache, prickly heat, vertigo, etc.

This is not a cathartic of the old style which leaves the user in worse condition than before, it is a true tonic laxative, which not only removes the cause of the trouble, but tones up the bowels and liver, giving new life and vigor to the whole system.

Be sure that you get Casara - notice the spelling of the word Casara there are thousands of preparations of Casara, but only one - genuine Casara the best laxative medicine known. Price 50c. Samples free.

FARMERS' INTERESTS

JARED SMITH RETURNS FROM HAWAII.

An Inhabitant of Hilo and Another One At Mountain View—Correspondence About Pines.

Director Jared Smith of the Agricultural Experiment station returned on Saturday from Hawaii, where he spent about two weeks looking after agricultural affairs. Steps were taken to organize an institute at Hilo and another one at Mountain View. In Hilo a committee consisting of Messrs. Scott, Kuroki and Shaw was appointed to complete the organization. The Mountain View one largely attended one, about 35 farmers being present. Senator Russell was chairman and E. L. Rockloff secretary. Smith reports the farms in this district looking very well and the same in Oahu and adjacent districts showing up splendidly.

Director Smith found a number of letters from Washington departments awaiting him here. Among them was one from Dr. Dewey of the botanical department, with whom Smith has been corresponding about seal and manila hemp. The letter contains the following: "The Manila plant grows in the Philippines on only 14 of the 400 islands of that group. It thrives best in soils of volcanic origin on hillsides where there is excellent natural drainage, but where there is a considerable amount of rainfall. On one section of the island of Luzon, however, I am told that it grows well with an average annual rainfall of less than 50 inches. It does not grow in the swamps or low flat lands, and therefore does not compete with sugar and rice. Do you think there are areas in the Hawaiian Islands that would be promising for its production?"

Dr. Dewey says he is contemplating a visit to the Bahamas, where sisal is grown, and that he will endeavor to get some suckers from some of the best plants, and will send them to Hawaii.

Another letter from the Department of Agriculture notified Smith that some saffron seed is being sent here. Saffron is a forage plant which is expected to do well in Hawaii. Some red clover seed is also being sent to Agricultural Commissioner Taylor.

While on Hawaii Director Smith made a visit to the volcano, which he described as a very impressive spectacle, but one he doesn't want in his own yard and would just as soon have remain where it is. He will go to Kona later in the year to look into the matter of tobacco culture.

SHIPPING INTELLIGENCE

(Continued from Page 2.)

ARRIVING.

Star, Kauai, Bruhn, from Kailua, Punaulu, Honokaa, Lahaina and Kaunapali at 5 a. m., with 7,000 bags sugar, 40 head cattle, 1 pkg. sundry.

DREDGER IS LAID UP.

The dredger at Pearl Harbor was towed back to Honolulu Saturday afternoon by the tug Kamea, as the crank pin on the dredger broke. The dredger will be laid up several days, while a new bolt is being recast.

NEW STEAMER FOR THE PACIFIC.

NEW YORK, April 16.—The new steamer Novadan of the American-Hawaiian Steamship Company arrived today from Camden, N. J. where she was built by the New York Shipbuilding Company and launched in January last. She is the first of three steamers under construction to trade between New York and San Francisco, the others being named Nebaskan and Texan. The Novadan is fitted to burn either coal or oil fuel. Her tonnage is 5200.

NEW SLOOP SAILS.

The La Paloma, Clarence Macfarlane owner, had a most successful inaugural sail yesterday on the locks at Pearl Harbor. The schooner rig has been changed to that of a sloop with great length of boom and big jib. The trial trip some days ago was not entirely satisfactory, the boat proving unable to stand up to her work with the big sail area she was carrying. Skipper Macfarlane shifted the ballast aft for yesterday's sail and on reaching and running sailed all around Commodore Hobson on the Glady's. The flag-ship outdid the La Paloma when close hauled and tried to force her out- side for a trial, but her skipper was not sure enough of his craft under her new rig to venture. The sloop laid over considerably under her heavy canvas and was not very speedy at beating to windward. Tackling and running however she moved exceedingly fast and made a very pretty picture with her new set of sails.

Macfarlane had a crack crew aboard, two or three mates of local vessels and the designer and builder. He was much pleased with the trial and will issue a general challenge.

EXTEND THE SHIPPING

HAWAIIA POINTS TO REVOLVE RECOGNITION

Wilder Steamship Company To Extend Freight Limits If Trade Proves satisfactory to Pay the Enterprise.

Arrangements have been made by the Wilder Steamship Company whereby steamers may ply along the Hawaiian coast carrying freight between those points and Hilo. The following notice in the Hilo Tribune is substantially correct: "William McKay, manager of Wilder Steamship Company at this place, has completed arrangements to have a steamer ply between Hilo and shipping points along the Hawaiian coast. He definitely announces that the Wilders will have a steamer ready to carry freight at any time it is offered in sufficient quantities. Mr. McKay is sending to Honolulu by today's mail an application for permission to erect a warehouse, near the Kinnon wharf. This warehouse, which will be used for storing freight destined for Hamakua points.

"Another arrangement which will benefit island shippers is contemplated, is that for billing freight through from Honolulu to Oahu or Puna or other intermediate points via the Kinnon and Hilo Railroad. This arrangement will be probably perfected by next week.

"It depends entirely," said Mr. Wright this morning, "upon the inducements that are offered. We of course will not extend the line unless it is profitable. We have been asked before now to deliver one Reg of mail, the freight upon which would approximately amount to fifteen cents, where the cost of landing it would be fifteen dollars. The Hilo notice in the paper is practically correct. In the matter of the warehouse, we have it under advisement. The bill- ings from Honolulu to inland points via the Kinnon and the Hilo railroad is being arranged."

REV. WENDELIN SPEAKS

DENIES HAVING INFLUENCED HUTCHINSON.

But Declares That Hutchinson Was Entirely Within His Rights and the Event Proves He Was Fully Justified.

EDITOR STAR: In the report of the Board of Health's meeting of April 19 I find the following resolution: "Resolved that the harmony and interests of the Leper Settlement will be promoted by the removal of Father Wendelin. I was at a loss as to the meaning of this resolution until I had read the Hawaiian Star of April 19, in which I find the following: "There are no charges against the father other than those implied in the removal of the resolution adding for his removal in the interest of harmony. The objection to Father Wendelin is based upon his alleged course of hostility to the Board of Health creating difficulties in the way of the management of the settlement." So that is settled. Now to the first charge. "Father Wendelin is said to have resigned the Board of Health in his pulpit." Certainly I have preached, not against the Board of Health but for instance against the performance of public work ordered to be done on Sunday without any urgent necessity, and often have I denounced the shameful immorality prevalent in this settlement. Many times the Board of Health has received a roasting on this point, for instance by the Anglican Synod. I presume many clergymen have denounced other similar things and has ever the Board of Health passed a resolution against those who do so? I am a priest and have to perform my duty as such whether it pleases the Board of Health or not, and if the Board of Health wants to remove me from the Settlement because I fulfil fearlessly my duty, as a priest let the voters know it, but I am a priest, I rather prefer to leave the Settlement than to be controlled by the Board of Health in matters pertaining to religion. The Apostles answered their persecutors: "We ought to obey God, rather than men." The same is my answer to the Board of Health.

In the second accusation I can't find either load or fall. There are charges brought, not against me but against another man, and those charges are no charges and then the Board of Health takes pleasure in putting me behind him.

Again I reply from the Hawaiian Star: "Father Wendelin is said to have been behind Ambrose Hutchinson in many of the latter's long list of complaints. Ambrose Hutchinson of late has been at the head of most of the committees that have made petitions and complaints to the Board. He was the man who brought the Philip case to the attention of the Attorney General."

Well, if so many complaints are made there may perhaps be reasons for it. But is it a crime for a leper to petition to the Board? or can charges be made against a man who complains when he believes he has reason to do so? The lepers are American citizens who have undeniable rights. They have the right to petition and complain and if the Board of Health will not only not tolerate a petition, but brings forth charges against the one manifesting his grievances, then humanity should rescue the helpless leper from under the feet

of the settlement Board of Health. It is to be regretted in the case of Philip that the leper and their petitioning and especially the Board of Health should be unhelpful to the leper who was the one and only petitioner. The Board of Health should be unhelpful to the leper who was the one and only petitioner. The Board of Health should be unhelpful to the leper who was the one and only petitioner.

if Ambrose Hutchinson has been at the head of committees etc. it is possible that he must be a capable man, but what has all that staff to do with my case? Mr. Hutchinson is responsible for his actions and the Board of Health will not dare to make me responsible for another man's deeds or william of what ever it is.

FATHER WENDELIN, Kalaupapa, April 20.

THE WEATHER.

Weather Bureau, Honolulu, 1 p. m. Wind light northeast; weather cloudy with occasional showers. Will continue so.

Morning minimum temperature 56; midday maximum temperature 74; barometer, 9 a. m., 29.99 inches (corrected for gravity); rainfall, 24 hours ending 9 a. m., .00; dew point, 9 a. m., 59; humidity, 9 a. m., 65 per cent.
