CORNER FORT AND BERETANIA STREETS

Summer Days Are Here

You should discard your heavy winter underwear, and try something that will keep you cool and comfortable during the trying days to come.

Dr. Diemel's Linen Mesh Wear

heads the list. Nothing to equal it on earth. Cool, comfortable and durable.

Prickly heat unknown among those who wear it. Don't buy something offered as "Just as Good," they're only fakes.

There is only one DEIMEL and only one place to buy it in HONOLULU, from

M. McINERNEY, LTD.,

MERCHANT AND FORT STREETS.

S. C. ALLEN DIES VERY SUDDENLY

A SUCCESSFUL BUSINESS MAN HE HAD LIVED IN HAWAII FOR OVER HALF A CENTURY.

Samuel C. Allen, merchant, shipowner, railroad president and large owner of plantation interests, died suddenly shortly after 9 o'clock last evening at his residence on Richards street of an affection of the heart.

He was about his business as usual yesterday, had taken a drive in the afternoon as was his daily custom, and had dined. About 9 o'clock he was taken with a sudden illness, and Dr. George Augur was summoned. When Dr. Augur arrived, he found Mr. Allen

falling on the floor. Within fifteen minutes he was dead. Dr. Augur gave the cause of death as heart failure.

Samuel Clesson Allen was a cousin of Col. W. F. Allen. His parents were Mr. and Mrs. Frederick H. Allen, and he was born in New Salem, Massachusetts, May 17, 1831, so that he lacked but four days of being seventy-two years of age. When he was quite young he removed with his parents to Bangor, Maine, where he was brought up, later attending Abbott Family School at Farmington, Maine. While still a youth, he entered the employ of the wholesale dry goods house of Wilkinson, Stetson & Co., Milk street, Boston, and in 1850 sailed on the American ship Lo Choo for Hawaii, where his uncle was the American consul.

He arrived in Hawaii in December, 1850, and shortly afterwards engaged with W. A. Aldrich in general merchandizing. At various times his firm has been Allen & Co., Aldrich, Walker & Co., Walker, Allen & Co., and for a number of years now Allen & Robinson.

Mr. Allen bore his share in the early development of the sugar industry, was largely engaged in shipping, and owned a large amount of stock in the Oahu Railway & Land Company of which he was president when he died, and of which he had been one of the early friends. He had been a member of the Chamber of Commerce for a number of years. He was an important factor in the commercial and industrial life of the territory.

In 1865 he married Miss Robinson, a daughter of the late James Robinson, a sister of Mrs. Ward, Mrs. Jaeger, Mrs. Foster, Mrs. McWayne and Mark P. Robinson.

His only blood relative in the islands is Col. W. F. Allen. The funeral will be held from the late residence on Friday afternoon.

THE CHAMBER DOES NOT GIVE UP HOPE

COMMUNICATION FROM CHAMBER OF COMMERCE ASKING FOR AN ADVERTISING APPROPRIATION.

Although the House defeated the items appropriating \$20,000 for advertising the Territory, the chamber of commerce has not lost heart in the matter. Evidently the chamber has faith in further agitation of the subject for this morning the following communication from James Gordon Spencer, secretary of the chamber was read in the Senate:

"I have the honor to inform you that the following resolution was passed at the meeting of the Honolulu Chamber of Commerce held this day:

"Whereas, the House of Representatives has by a close vote refused to insert in the appropriation bill the sums asked in aid of the plans of this chamber and the Merchants' Association for the advertising of the Territory and,

"Whereas, in the opinion of the members of this body such an appropriation would return to the taxpayers of the Territory large dividends in the way of cash spent here by tourists and in the attraction of settlers to our vacant lands, therefore be it

Resolved, that the Chamber of Commerce respectfully recommends to the legislature that there be made ample provisions for the complete and thorough advertising of the Territory through an appropriation of not less than ten thousand dollars (\$10,000) a year, with the suggestion that the attraction of visitors and settlers will result in ample returns to both the Territory itself and its citizens, through the investments which will flow from increased knowledge of this new territory of the nation."

"Trusting that the foregoing will receive the consideration of your Honorable body etc."

On motion of Senator Dickey seconded by Senator Woods a communication was laid on the table to be considered with the appropriation bill.

CAPT. WHITING JUDGED WYOMING

FORMER COMMANDANT OF HONOLULU STATION REPRESENTED GOVERNMENT AT TRIAL.

SAN FRANCISCO, May 2.—The final trial of the monitor Wyoming will take place in next Tuesday, and if the warship fulfills all requirements she will be accepted by the naval authorities and payment will be made to her builders. A vessel must undergo a test six months after being in commission before she is finally accepted. The Wyoming came down from Mare Island today and anchored in the stream to prepare for the trial. Tomorrow the trial board will embark and on Tuesday morning she will steam outside the Heads. The board is composed of Captain W. H. Whiting, Lieutenant-Commander Stafford, Lieutenant-Commander Lopez, Ensign Branch and Naval Constructor Tawressey.

The trial will consist of a forty-eight hour run at full speed and special runs in which the maximum speed of the vessel will be ascertained. All the guns will be fired and the effect of the firing on the gun platforms and other parts of the ship will be noted.

The Wyoming recently returned from a cruise on the coast during which target practice with the four-inch gun was engaged in. Captain Cottman states that with the exception of some paint which was jarred from the iron work, the monitor stood the strain without being racked. The two twelve-inch guns in the forward turret have not yet been tested, but Captain Cottman is of opinion that the vessel will stand the recoil without damage. The Wyoming proved steady in rough weather.

Superintendent of Public Works, H. E. Cooper has approved the oil tanks of the Waialua Agricultural Company.

LAYSAN'S ONLY NATIVE CHILD

(Continued from page one.)

moth jaws of this shark are now on exhibition at the office of H. Hackfeld & Co., and display 218 teeth.

Another incident was the finding soon after a terrific storm, of a bottle that was washed up from the sea, and which contained the statement that it had been thrown overboard in latitude 19° 35' North, and longitude 122° 20' West by a German bark bound from Hamburg to Port Los Angeles for the purpose of determining currents. A request was made that the finder report to the United States Hydrographic office, which Captain Schlemmer has done. The bottle was thrown into the sea December 7, 1901, and was found November 30, 1902.

Captain Schlemmer leaves today for Kauai to look after some private business, but will go back to Laysan Island on the next voyage of the Lunsman.

TO MAKE THE BONDS GOOD

REPRESENTATIVE WRIGHT PROPOSES THAT THE TERRITORY SHALL MAKE GOOD TO THE FIRE CLAIMANTS THE AMOUNT OF THE DISCOUNT IN THE SELLING PRICE OF BONDS.

Representative W. J. Wright this morning introduced the following joint resolution in the House:

"Whereas certain bonds have been issued to the amount of \$326,000 bearing interest at the rate of 4 per cent per annum, and

"Whereas said bonds have been adjudged as not being equal to par value of certain bankers and financial agents having monetary matters under their charge, and

"Whereas it is not seemly that the credit of the Territory of Hawaii should be placed in jeopardy by the action of any bankers or financial agent;

"Now, therefore, be it resolved, the Senate and House concurring, that the sum of \$326,000 or such part thereof as shall be necessary be and is hereby appropriated out of any fund in the general treasury whereby the said bonds be made of full par value.

"This joint resolution shall have force and effect on the day of its approval by the Governor of this Territory."

The resolution was referred to a special committee consisting of Kumalae, Harris and Wright.

WORRYING ABOUT HOUSE'S MONEY

Senate Acts Slowly on the Appropriation of \$20,000 For Expenses of the Session.

Representative Wright is still worrying about the fate of House bill number one, in the Senate. This is the bill appropriating \$20,000 for the expenses of the session. It is still on second-reading in the Senate and doesn't seem to make such progress. Some of the senators have expressed the opinion that the amount is too large.

Yesterday Wright introduced a resolution to investigate the fate of the bill and the resolution was tabled, but this morning he returned to the attack. He wanted the clerk to inquire of the Senate and request that superior body to take immediate action. The resolution was voted down.

WILLS FILED FOR PROBATE

Testaments of George Patterson and Mrs. Maynard, Whose Death Occurred in England.

The will of the late George W. Patterson was filed for probate this morning, with a petition for the appointment of Cecil Brown as administrator. The will disposes of real estate valued at \$5,000 and personal property valued at \$2,500. All is left to the widow, Mrs. Ida Patterson.

A certified copy of the will of Mrs. Elizabeth Barnes Maynard, who died in Brighton, Sussex, England, was also filed for probate, with records of the British courts showing the proceedings in the probate court in England. The deceased's estate in Hawaii consists of 21 shares of stock of C. Brewer & Company of the par value of \$2100 and 2 first mortgage McBryde bonds of the par value of \$2,000. George H. Robertson, nephew of the deceased, asks for letters of administration in Hawaii. The estate is left to a daughter and son, both in Brighton, England.

LOAN BILL GOES TO A COMMITTEE

THE HOUSE ADOPTS A PLAN WHICH IT IS HOPED WILL MAKE QUICKER ACTIONS ON APPROPRIATIONS POSSIBLE—LOAN APPROPRIATIONS GO TO A COMMITTEE REPRESENTING EACH OF THE ISLANDS.

The House began work this morning on the Loan bill on a new plan which it is hoped will result in quicker work than was done with the six months' appropriations, which took practically all of the first 12 days of the session.

Keliioi proposed referring the matter to a committee, in order that a report might be secured on which the House might act, instead of working in committee of the whole, with long debates. A resolution was adopted to provide for two each from Hawaii, Maui and Oahu, and one from Kauai, to take up the bill and report on it. Speaker Beckley named Harris and Paele from Oahu, Keliioi and Nakaleka from Maui, Purdy and Pulaa from Hawaii, and Gandall from Kauai. The committee was ordered to begin work at once and a recess was taken to 2 o'clock, on motion of Chillingworth. Keliioi was made chairman of the special committee and work was begun as soon as recess was declared.

An effort is to be made to adopt the committee plans with the other bills before the House. The experience with the six months' bill has shown that the work of the session would require several months unless a quicker method should be adopted. There were debates over almost every item and it is thought that action by smaller committees would greatly expedite the passage of the bill.

YOU WILL NOT

be deceived. That there are cheats and frauds in plenty everybody knows; but it is seldom or never that any large business house is guilty of them, no matter what line of trade it follows. There can be no permanent success of any kind based on dishonesty or deception. There never was, and never will be, the men who try that are simply fools and soon come to grief—as they deserve. Now many persons are, nevertheless, afraid to buy certain advertised articles lest they be humbugged and deluded; especially are they slow to place confidence in published statements of the merits of medicines. The effective modern remedy known as

WAMPOLE'S PREPARATION

is as safe and genuine an article to purchase as flour, silk or cotton goods from the mills of manufacturers with a world-wide reputation. We could not afford to exaggerate its qualities or misrepresent it in the least; and it is not necessary. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry; and how valuable such a blending of these important medicinal agents must be is plain to everybody. It is beyond price in weakness and lack of Nervous Tone, Anemia, Scrofula, La Grippe, Lung Troubles and Impurities of the Blood. Science can furnish nothing better—perhaps nothing so good. Dr. W. H. Dalfe, of Canada, says: "I have used it in my practice and take pleasure in recommending it as a valuable tonic and reconstructive." It is a remedy that can afford to appeal to its record and represents the science and knowledge of bright and aggressive medical investigation. Effective from the first dose. Sold by all chemists here.

TENNIS TOURNAMENT.

The annual Inter-Island tennis tournament began yesterday afternoon. There was play on both the Beretania and the Pacific Tennis Club grounds. The results were as indicated in the table. The play today is as follows: Pacific Courts: 4 p. m., Elston vs. Mott-Smith; 5 p. m., Derby vs. Hitchcock. Beretania Courts: 4 p. m., Bicknell vs. Brock; 5 p. m., Ross vs. C. Carter.

Carter	By default
By default	6-1
