The Only No Under Shadow

# LIGHT

THERE'S NOTHING MISLEADING ABOUT THAT HEADING.

## THE ANGLE LAMP

is, in its effect, exactly like sunlight. It is, like the sun, up out of the way, and throws its clear, enjoyable light both outward and downward with no bothersome shadows to annoy or to spoil the lighting effect. There's no other light does that—no other light that has

"NO-UNDER-SHADOW"

But don't stop at that; look at the other features too. With a minimum of expense, of trouble and of heat there is obtained a maximum of light and real satisfaction. Every annoying feature of gas, electricity, gasolene and acetylene is obviated. This tells the story of a great combination.

It uses ordinary kerosene (or coal) oil—one quart in sixteen hours. Its light is more brilliant than gas or electricity, with no more heat—no smoke—no odor—no "drawing up"—no removing of globe or top to light—filled while burning.
