POSITION OF BOARD OF HEALTH

DR. COOPER IS ASKED TO REMAIN A MEMBER—STATEMENT GIVING THE BOARD'S VIEWS.

The Board of Health held a meeting yesterday afternoon and the matter of Dr. Cooper's accepted resignation as president was discussed. Dr. Cooper was advised by members of the Board to continue as a member and stated that he would arrive at a decision in the matter later and notify the Board. There was a disposition to criticize the Governor's treatment of Dr. Cooper as hasty and abrupt, in suddenly accepting the resignation.

The following statement prepared by Dr. W. H. Mays, was adopted as correctly stating the Board's position:

"In view of the financial stress, the Board of Health set to work in a most loyal spirit to reduce its estimates down to the figure mentioned by Governor Carter, and has come within a few thousand dollars of doing so. If the item of \$28,000 for the Kalaupapa store had been omitted, as the Board advised, our estimates would have reached below the proposed limit. The money for the upkeep of the Kalaupapa store is in no sense an asset of the Health Department. It is handed us by the Government, passed on to the store, and returned by the store to the Government. A gives money to B, B turns it over to C, and C hands it back to A again. What has this to do with the running expenses of the Health Department? The fact is, this idea of the Government conducting a general merchandise store is wrong. It should be dropped, and some merchant allowed to start a store there to stand on its own bottom.

"The Legislative appropriation for the Health Department for the twelve month is \$410,000. Deducing the Kalaupapa store item it is only \$382,000. This amount has been reduced 45 per cent; for instance, a straight cut of about 20 per cent has been made in the salary of every employee. With this we have so managed that both the Government Physicians and the Free Dispensary have been retained. I have been strongly opposed to lopping off the Government Physicians, who, for what is often a trifling pittance from this Board, attend to the destitute sick throughout the Islands. The natives, as a rule, are poor, living from hand to mouth, and to leave them without medical help seems to me almost a criminal proposition. So with the Free Dispensary here in town. With the hospitals all closed against them, what are the destitute poor to do? At the Dispensary they can get medical advice and medicine free.

"In my opinion we do not go far enough in fulfilling our duties towards the aborigines of these Islands, whom, it is no exaggeration to say, we have supplanted. In the Great West, the Federal Government began thirty years ago to issue regular rations and blankets to the Indians, whose lands and hunting-grounds our people had taken possession of. It is part of the White Man's Burden that our nation has righteously borne and is still bearing. To some extent the same obligation is owing here to the people whose country we have taken. Shall we then entertain the proposition to deprive them even of medical aid when sick and dying? I feel certain that this Board will never consent to the abolition of either of these two institutions.

"The Health Department has cut its estimates 45 per cent. What have other Departments done? Which Department is most entitled to 'point with pride,' as the phrase goes, to its zeal in the work of retrenchment? The Board of Education, which receives a larger appropriation than we do, has made a reduction of about 19 per cent. The Treasury Department has cut about 32 per cent. The Judiciary De-

partment 25 per cent. The Police Department 21 per cent. The Attorney General's Department 5 per cent. The Fire Department 43 per cent. In mentioning these reductions, no reflections are intended of course upon the action of the several Department authorities, who have done all that was asked of them. But it will show how strange a delusion they are laboring under, who think this Board has evinced a reluctance to cut down expenses.

"One word as to the possible effects of these reductions. We have cut down very close to danger point. As custodians of the public health we must never overlook our grave responsibility for the welfare of the community. We have to protect against disease in a tropical city, with a population overwhelmingly Oriental in character. We know by past experience what an epidemic will do here if it once gains headway. It is liable to spread like a prairie-fire. If eternal vigilance is the price of safety, we are not expected, the citizens do not ask us to denude ourselves of the means to maintain that vigilance. The inspection of this city, under the able management of our President, Dr. Cooper, is now in a high state of efficiency. The town and its suburbs, its highways and byways, its parks and alleys, its tenements and cellars, and all the thousand and one nesting-places of disease, are all sharply watched and guarded. Relax this watchfulness, and who can tell how soon will be upon us the pestilence that walketh in darkness?

"We have been reluctantly compelled to reduce the number of our inspectors from 12 to 8. This may do for a time, but I would feel more easy if, in the readjustment of financial affairs that the next few weeks may bring forth, the corps of inspectors may be restored to its numbers.

WANT THE BAND TO STAY HERE

TOURIST PROMOTION COMMITTEE DISAPPROVES OF COHEN'S PLAN TO TAKE IT TO ST. LOUIS.

The Tourist Promotion Committee has decided against J. C. Cohen's plan to send the band to St. Louis. Cohen proposed to take the musicians, and asked for assistance from the committee, as the tour would be an advertisement of the islands. Secretary Boyd yesterday sent the following reply to Cohen: "After considering the letter of Mr. J. C. Cohen, dated March 31st, containing a certain proposal for a tour of the Hawaiian Band through the United States with a long stop at St. Louis, and asking for funds to cover the transportation of the band to St. Louis and return this body has reached the conclusion that it is without its sphere of action to enter into such an agreement as is therein proposed. "Plans for the work of this year (1904) have been prepared which if carried out, will mean the expenditure of all the funds now at the disposition of this body. It is therefore impossible to make such an appropriation of funds. "As to the advisability of sending the Band away from Hawaii, the majority opinion of this body is unfavorable, it being deemed wiser to retain its services in Honolulu at this time."

SAILOR MET HIS DEATH.

A sailor on the French ship Anieres went aboard the vessel drunk last night and laid down on the covering of one of the hatches. The hatch was not entirely covered and the man rolled down the hatch and into the hold of the ship. He was killed.

TRIED TO COMMIT INCENDIERISM

A quantity of articles saturated with oil and partially burned were found under the residence of Postmaster J. M. Oat at the corner of Pūloko street and Matlock avenue yesterday. It is thought some one desired to set the house on fire.

NELSON RELEASED.

Georgia Mabry Nelson has discontinued her bill for maintenance against Frank D. Nelson, who consents to pay costs of suit. This is the end of the proceedings under which the respondent was arrested on a writ of ne exeat republica as he was about to leave the Territory in an outgoing steamer.

BURNS AND CUTS—SLIGHT INJURIES

of this character are of frequent occurrence in almost every household. While they are not dangerous, except when blood poisoning results from the injury, they are often quite painful and annoying. They can be quickly healed by applying Chamberlain's Pain Balm. It allays the pain almost instantly and heals the injured parts without matter being formed, which insures a cure in one-third the time that the usual treatment would require. It is the most perfect preparation in use for burns, scalds, cuts, bruises and like injuries. It should be applied with a feather, and before the parts become swollen if possible. For sale by all Dealers. Benson Smith & Co., agents for Hawaii.

GOOD PLUMBING IS OUR FORTE.

We don't do cheap work. You will find our exhibition in our store, all the latest fancy designs in bath room apparatus. Don't Put Power INTO Line Shafting

A recent test in a sugar mill on one of the other islands shows that fifty per cent of the power went into running the line shaftings. Electric motors eliminate line shaftings and this is one instance of their economy of power. Wherever line shaftings are used there is a waste of power of from 25 to 60 per cent. Then why not install

Westinghouse Motors
and get the best service for the least cost.

CREW WOULD NOT PROCEED.
The crew on the Norwegian bark Tobias which put into Auckland leaking February 29 while en route from Newcastle to Honolulu, refused to proceed with the vessel. She was struck by a hurricane between Auckland and Newcastle. She was strained and sprung a leak. She was making 18 inches of water an hour, so the crew insisted that she be put into some port. She went to Auckland where repairs will be made to her.
