THE CRUISER THAT LED THE FIGHT

The above is a picture of the Izumo, Admiral Kamimura's flagship in the pursuit and final defeat of the Russian Vladivostok squadron. She is a splendidly armored cruiser and very fast, and the official reports show that she led the attack on the three Russian cruisers in the Korean straits. The Izumo is of 9,750 tons displacement and 14,500 horsepower. Her speed is 21 knots. In addition to her large guns she carries 38 smaller repeating guns and four torpedo tubes.

BY AUTHORITY

STEEL-CONCRETE BRIDGE AT LAWAI, DISTRICT OF KOLOA, KAUI, T. H.

Proposals will be received at the office of the Superintendent of Public Works, until 12 o'clock of September 21, 1904, for constructing a new Steel-Concrete Bridge at Lawai, District of Koloa, Kauai, T. H.

Plans and specifications are on file at the office of the Asst. Supt. of Public Works, and with W. D. McBryde, Chairman of the Koloa Road Board, Kauai, copies of which will be furnished intending bidders on receipt of \$5.00, which sum will be returned intending bidder after he has deposited his bid and returned the plans.

Proposals must be submitted on the blank forms, which will be furnished by the Asst. Supt. of Public Works, and W. D. McBryde, and enclosed in a sealed envelope addressed to Hon. C. S. Holloway, Superintendent of Public Works, Honolulu, T. H., endorsed "Proposal for Steel-Concrete Bridge at Lawai, District of Koloa, Kauai, T. H."

Each proposal must contain the full name of the party or parties making the same and all persons interested therein and must be accompanied by a certified check of 5% of the amount of the proposal, payable to C. S. Holloway, Superintendent of Public Works, as surety that if the proposal be accepted a contract will be entered into.

No proposal will be entertained unless made on the blanks furnished by the Asst. Supt. of Public Works and W. D. McBryde, and delivered at the office of the Superintendent of Public Works previous to 12 o'clock m. on the day specified.

The Superintendent reserves the right to reject any or all bids.

C. S. HOLLOWAY,
Superintendent of Public Works.
Honolulu, Aug. 30, 1904.

300 K. W. ALTERNATING CURRENT GENERATOR, ETC., FOR THE ELECTRIC LIGHT STATION, NUUANU VALLEY, HONOLULU, T. H.

Proposals will be received at the office of the Superintendent of Public Works, Honolulu, October 1, 1904, for "Furnishing the Government with a 300 K. W. Alternating Current Generator with Transformers, Arc Lamps, Switch Boards, Arresters, Water Wheel and Pole and Line Material.

Specifications are on file at the office of the Asst. Supt. of Public Works, copies of which will be furnished intending bidders.

Proposals must be submitted on the blank forms, which will be furnished by the Assistant Superintendent of Public Works, and enclosed in a sealed envelope addressed to Hon. C. S. Holloway, Superintendent of Public Works, Honolulu, T. H., endorsed "Proposal for furnishing Alternating Current Generator, etc."

Each proposal must contain the full name of the party or parties making the same and all persons interested therein and must be accompanied by a

certified check of 5 per cent of the amount of the proposal, payable to C. S. Holloway, Superintendent of Public Works, as surety that if the proposal be accepted, a contract will be entered into.

No proposal will be entertained unless made on the blanks furnished by the Assistant Superintendent of Public Works and delivered at the office of the Superintendent of Public Works previous to 12 o'clock m. on the day specified.

The Superintendent reserves the right to reject any or all bids.

C. S. HOLLOWAY,
Superintendent of Public Works,
Department of Public Works,
August 30, 1904.

THIS PAPER is kept on file at E. C. Duke's Advertising Agency, 64 and 65 Merchants Exchange, San Francisco, California, where contracts for advertising can be made for it.

SMALL FIRE LAST NIGHT

LYCETT PLACE IN DANGER—NEW FIRE TRUCK WILL SOON BE AVAILABLE TO DEPARTMENT.

A fire occurred last evening in the Kinohiwa street residence of James Lycett. The alarm was turned in by telephone before 7 o'clock. The Makiki fire engine company responded and soon extinguished the blaze. The fire originated in a pantry where a can of kerosene was kept. It is thought that spontaneous combustion due to oily rags or clothes, caused the fire. The wood work in the pantry was badly charred but no other damage was done to the house.

An arrangement has been effected between the public works department and the fire department whereby the former will secure a fine flag pole and the fire department have the new hook and ladder truck located in a place, where it can be used in case of necessity. Owing to lack of funds, Chief Thurston has never been able to put the new truck into commission. It has been housed in one of the government sheds near the fish market. These sheds are soon to be torn down in order that the government can have those sites in the construction of the proposed new slips on the water front. The truck, which is a fine apparatus, has been useless in its present location.

In the rear of the Central Fire Station on Beretania street is a 100 foot flag pole. The fire commissioners have presented this pole to the public works department which will remove the pole from the engine house yard and erect the pole in the Capitol grounds. A shed will be erected in the Central Fire Station yard, as there will be room with the flag pole removed, and the new truck will be kept in this shed. The idea of Chief Thurston in having the truck quartered near the Central station, is to have the truck in a place where it will be available in case of emergency. Should any serious fire occur when the truck would be imperatively required, Chief Thurston could get enough men together to take the truck to the required place.

ALAMEDA DUE TOMORROW.
The S. S. Alameda is due tomorrow morning early, from San Francisco. She will bring nine days later mail and files of the mainland newspapers.

MAY DISMANTLE BARKENTINE AMELIA

REPORTED THAT A WELL KNOWN LUMBER VESSEL WILL SOON BE PUT OUT OF COMMISSION.

It is not unlikely that the present trip of the barkentine Amelia will be her last. According to the report on the water front her owners propose to dismantle her and sell the hulk on her return to California.

The Amelia is not discharging lumber at the Allen and Robinson wharf. She is to sail in ballast for Eureka when her cargo is out. The probabilities are that she will be put out of commission on her return to California. There is a possibility however that she may be sent here with another cargo before being dismantled.

The Amelia is quite an old vessel. She has been in the coastwise trade for many years, and has brought many millions of feet of lumber to the Hawaiian Islands. She was a fast vessel in her day and has many many crack trips. She is still a good sailor.

IMPORT FEES OF LIVE STOCK

REFUSALS TO PAY HAVE BEEN MADE AND THE ATTORNEY GENERAL WILL ACT.

There is trouble over the collection of fees for the inspection of live stock entering Hawaii from foreign ports and the Attorney General intends to take the matter into the courts if the importers maintain their present attitude of hostility.

The present board of inspectors consists of only Dr. Monsarrat and A. F. Clark, a vacancy having been caused by Dr. Shaw's departure. Under the statute of the legislature, all live stock coming to Honolulu must be inspected and the importers must pay an inspection fee of \$1 for each horse or head of cattle and of 50 cents for each sheep or pig. On recent shipments of hogs, horses, cattle, poultry and sheep to the Metropolitan Meat Company, of cattle, mules and sheep to Gus Schuman, of mules to W. Norton and of poultry to C. H. Beilina, refusal to pay the fee has been met with by the inspectors. The claim is made that the act is unconstitutional and cannot be enforced. In their view the territory ought to appoint veterinary surgeons and pay them salaries.

"I think that the act is perfectly legal" said Attorney General Andrews this morning "and intend to force the matter to an issue. Some claim that the inspection here is not rigid enough and that tuberculosis has been observed in several cows that had been inspected and passed on arrival but however I think that the present arrangement is quite within the control of the legislature."

COAL VESSEL ARRIVES.
The Italian ship Fort Pigari arrived this morning 46 days from Newcastle. She had pleasant weather. One of the sailors broke a leg, during the voyage by a life boat falling on him. The vessel brought 3,200 tons of coal for W. G. Irwin and Company. She is anchored in the stream.

HELENE ARRIVES TODAY.
The steamer Helene arrived this morning from Hawaii ports. She brought over 300 bales of wool from Kawaihae. She also brought 4,200 bags of Paauhau sugar. She brought a large crowd of passengers from Hawaii ports. The vessel experienced pleasant weather. John Kekuewa formerly assistant freight clerk on the steamer Kinau, has been promoted to be purser of the Helene.

FIRST WEATHER MESSAGE

OBSERVER ASHLEY CABLES TO SAN FRANCISCO GIVING THE FIRST WEATHER OBSERVATIONS OF THE NEW BUREAU—TESTS SO FAR MADE INDICATE THAT NEW RECORDS WILL SUBSTANTIALLY AGREE WITH THOSE TAKEN AT PUNAHOU.

"Weather, San Francisco: Terror Gyrony frate. ASHLEY."

The above is not a Russian war message nor a sample of typographical gymnastics. It is Weather Observer Ashley's first report to the Mainland of the weather conditions in Hawaii, sent this morning to San Francisco, and forwarded to Washington and from there distributed all over the country. The "te" of the first word means 74, indicating that the barometer was shown by the first observations to be 29.94. "Ro" means 78, giving the temperature at 8 o'clock this morning. The G of the second word means that the wind was southeast, which was realized only too well by the perspiring population of Honolulu. The Y means weather clear and "RO" gives the maximum temperature of the previous twelve hours as 78. In the third word the first letter time, and the results cabled twice a hour and "Ra" gives the minimum temperature as 72. The figures are not absolute accurate. Only even numbers are sent in the cabled reports. The temperature was actually 79 and the wind noon today the thermometer showed velocity was 7 miles, but 78 and 6 were sent. By use of only even numbers the fore shown to be no hotter than the one five vowels are made to serve for two, which the Territory has been using. Four, six, eight and ten in the cypher, and Honolulu temperature records will Observer Ashley's experiences so far remain about the same.

Indicate that the records to be taken by him will agree with figures obtained at the Punahou station. During the past week he has taken some observations which agreed thoroughly with those taken by Lydecker at Punahou. "It appears so far," said Ashley this morning, "that the change will not make any difference, or at least none to speak of. This will be a good thing for the sake of island advertising matter and it will be good for us, for it will show us that we have a continuous correct record for years past."

Another cable will be sent to San Francisco this evening at eight and again tomorrow morning at eight, and from now on the observations will be taken every two hours except at night 78. The first day's weather report from the new federal station shows the morning absolute maximum temperature as 84 degree sent in the cabled reports. At the Punahou observatory at 8 o'clock the thermometer showed velocity was 7 miles, but 78 and 6 were sent. The government station is there. By use of only even numbers the fore shown to be no hotter than the one five vowels are made to serve for two, which the Territory has been using. Four, six, eight and ten in the cypher, and Honolulu temperature records will Observer Ashley's experiences so far remain about the same.

Iaukea To Start His Campaign On Hawaii

DEMOCRATIC NOMINEE FOR DELEGATE WILL LEAVE FOR BIG ISLAND NEXT TUESDAY—INTENDS TO SWING AROUND THE ISLAND AND THEN JUMP TO MAUI—LOCAL SITUATION WITH HOME RULERS AND DEMOCRATS.

Curtis P. Iaukea the Democratic nominee for delegate, will begin his campaign next week. He will start operations on the island of Hawaii. He expects to make a personal canvass and will probably be on the go until the close of the campaign.

His plans now to take the steamer Kinau on Tuesday and go to Hilo. He will stop at Hilo for several days and from Hilo, go to Puna, and then into the Kau district. At Kau he will take the steamer Mauna Loa on her homeward trip, and go as far as Kailua. He will leave the steamer at Kailua and then travel overland through Kohala and Hamakua back to Hilo. Several weeks will be occupied in this tour of Hawaii.

From Hawaii Iaukea will move to Maui and take up his campaign on that island and after Maui, he will return to Honolulu and then go to Kauai. The Democrats seem to consider his prospects excellent on the island of Hawaii and Oahu but it is likely that they will find up hill work in Maui and Kauai, the former being strongly Home Rule and the latter strongly Republican. Iaukea will probably not be accompanied on the present trip by any of the party orators.

The prospects for the Democrats putting up a strong ticket in the legislative fight do not at this time, appear to be very bright. Frank Harvey who is the strongest man mentioned for senator

and who is being urged by all of the party leaders to accept the nomination, has not made up his mind positively on the subject. He is still holding off on account of business reasons. He could easily secure the nomination by acclamation and whether he will run or not, rests entirely with him.

There have not yet been many other candidates mentioned for the various offices. August Dreier and J. O. Carter are being mentioned for Senator. Major Walter of the Occidental Hotel is also a candidate for the nomination for senator. There is quite an element of the fourth district Democrats friendly to him. Few candidates for the house have been mentioned. The general sentiment of the party leaders seem to be for the Democrats to lay low and play the game like Byrd Rabbit.

In the Fifth District the Home Rulers are trying to put up what they consider will be a strong ticket. The following are the men most prominently mentioned, for Senator, D. Kalauokalani Sr., and Jesse Makana, for representatives Jonah Kumalae, David Kupihe, J. K. Paele, S. K. Mahoe, William Mossman and J. A. Akina who was formerly speaker of the house during the first legislature. The Home Rule convention to make legislative nominations will be held September 28. Both the Home Rule and Democratic parties seem determined however, to wait until the Republicans name a ticket before holding their conventions.

DEPARTING.
Friday, September 2.
Stmr. J. A. Cummins, Searle, for Puna-
loa at 7 a. m.

ARRIVING.
Thursday, September 1.
Stmr. Helene, Nelson, from Paunahau,
Kawaihae, Kihola and Mahukona at
6:25 a. m. with 4,200 bags sugar, 71 head
cattle, 308 bales wool, 4 packages sundries.

THE VIKING GOT MAD

WEISBARTH REPORTED TO HAVE LAID OUT HIS FORMER MATE WITH A PIECE OF SCANTLING.

Captain Weisbarth has adopted Japanese tactics. Last night he appeared in an entirely new role from that of Viking. He became a warrior on land. John Scott a former mate under Weisbarth in the old tug Kaena. They old Viking directed his attack.

Scott was formerly mate with Weisbarth in the old tug Kaena. They have been on good terms and on Weisbarth's return from his recent unsuccessful trip to Lisianski island, the pair got together and proceeded to enjoy life together. Jack who had been ashore and Jack who has just come ashore, talked over old times.

They were quite friendly during the day yesterday, but towards evening Weisbarth did not seem to feel so kindly toward Scott. A quarrel of some character arose, Weisbarth taking offense at some remark Scott made. Scott happened to have a pen knife in his hand at the time. Weisbarth is thought by the people who know him to have apprehended that Scott intended to use the pen knife so, with a decision truly Japanese, Weisbarth grabbed the first implement at hand which happened to be a piece of 3x4 scantling and lay out Scott. The latter is said to have been struck in the head with the club and placed hors de combat.

Weisbarth's kind nature awakened however when the old mariner saw his former shipmate stretched on the ground. The affair occurred at Weisbarth's place, so Weisbarth promptly took charge of the injured man and had the wound dressed. Amicable relations are understood to have been restored last night.

A GIRL WANTED IN THIS FAMILY

A remarkable condition in the family of Captain Roesch, master of the barkentine Wrestler, is reported to exist. Female children are absolutely unknown to the men of the family.

According to a story told while Captain Roesch was here last month with his vessel discharging lumber, for generations back every child born to the family has been a male.

Captain Roesch of the Wrestler is one of four brothers. He has three children and all of them are boys. One of his brothers had fourteen children and another had nine children. Every one of them were boys. These boys have also married and have families but in every instance the children have been males. In no recent instance has a female child been born to the men of the Roesch line. Captain Roesch says that this remarkable phenomenon has existed for generations in his family. He says that it had come to be a family tradition that a girl child is never born to the name of Roesch.

NEW DEPUTY ON KAUAL

J. S. Hipsa has been appointed deputy sheriff at Koloa, Kauai vice Mr. Colvin resigned. Hipsa was a deputy sheriff at Koloa in 1899, at the time that Dr. Smith the government physician was assassinated by Kapea.
